

Packaging Machinery Made Easy.

PACKSERV.COM.AU

ESTABLISHED IN 2007, PACKSERV IS AUSTRALIA'S LEADING PACKAGING MACHINERY AND TECHNICAL SERVICES PROVIDER.

Packserv is a proud Australian manufacturer of packaging machines for small and medium sized enterprises. Our range includes machines for volumetric filling, capping and container handling functions including conveyors and in-feed/out-feed tables.

Operating Australia wide, Packserv also specialises in providing sales and rentals for more on-demand packaging equipment for labelling, printing, coding, air compressing, induction & tube sealing and shrink wrap & sleeve application.

ABOUT US

Packserv has fast become the leading rental and technical service provider in the packaging industry by offering a fleet of equipment that will do almost every part of the packaging process. Small stand-alone machines, bench-top systems or large automated production lines are all available utilising the latest technologies.

We design, manufacture and source the best equipment from a wide range of local and international manufacturers to help you complete your ideal production line.

We offer a full range of services including delivery, installation, training, technical support and emergency breakdown cover on our own machinery and customer-owned machines.

Packserv is highly respected with established manufacturers, contract packers and boutique businesses with our ability to offer a full range of equipment, technical services, and expert team.

Range of Machinery.

We manufacture + select equipment based on five key criteria;

- 1 Best brand reputation
- 2 Durability & superior workmanship
- 3 Easy & safe operation
- 4 Portability
- 5 Versatility

MACHINERY FLEET

Our own in-house designed and manufactured range of machinery and specialised equipment from our Global partners.

FILLING

PACKSERV MANUFACTURING SINGLE HEAD FILLER

Single Head Volumetric Liquid, Cream, Paste and Other Wet-State Filler.

MODEL PFM-3

FILL RANGE 1_{ML}-1250

PACKSERV MANUFACTURING SINGLE HEAD BUF FILLER

Bottom Up-Fill Volumetric Liquid, Cream Paste and Other Wet-State Filler.

MODEL PFM-3-BUF

FILL RANGE 1_{ML}-1250_{ML}

PACKSERV MANUFACTURING SINGLE HEAD AUTO BUF FILLER

Auto Bottom Up-Fill Volumetric Liquid, Cream, Paste and other Wet-State Filler.

MODEL PFM-3-BUF-A

FILL RANGE 1_{ML}-1250_{ML}

PACKSERV MANUFACTURING TWIN HEAD AUTO FILLER

Twin Head Volumetric Liquid, Cream Paste and Other Wet-State Filler.

MODEL PFM-3-2C

FILL RANGE 1_{ML}-1250_{ML} X 2

Nº 1
PREFERRED
SUPPLIER TO
THE BEAUTY
+ COSMETIC
INDUSTRY.**

MANUFACTURING

Packserv Manufacturing is the engineering design and manufacturing arm within the Packserv Group. Servicing FMCG, Food & Beverage, Pharmaceuticals and Cosmetics industries both in Australia and internationally.

Being an onshore engineering design house also means that Packserv has the capacity and facilities to fabricate high quality machines, premium parts and accessories for our customers. Packserv is here to provide the complete solution for your packaging needs.

RENTALS

For over 15 years Packserv has been the leading rental and technical services provider in the packaging industry by offering a fleet of equipment that will do almost every part of the packaging process. Small stand-alone machines, bench-top systems or large automated production lines are all available utilising the latest technologies.

CUSTOM SOLUTIONS

Strong partnerships with international companies who produce labelling, printing, sealing and shrink sleeving packaging equipment, enable us to provide our clients with customised end-to-end solutions to cater to their business requirements.

It's here that the team at Packserv utilise over 75 years of collective hands-on experience in the packaging machinery space to provide the very best automated solutions.

TECHNICAL SERVICES

Packserv offers a full range of Technical Services including:

- Technical Support (on-site, phone or email)
- Installation
- Training
- Production Testing
- Maintenance and Repair

AND TAGGING | ON-SITE TRAINING | 24-HR TECHNICAL SUPPORT AND MORE

ON-SITE + LOGISTICS

Packserv takes care of all your logistics requirements from Equipment Hire, Delivery, Pick-up, Packing, Crating, and Freightling Equipment Australia wide.

TECHNICAL SUPPORT

Our team of trained + qualified technicians come from various fields of expertise + training so you can be assured of being connected to the right team member to assist with your requirements.

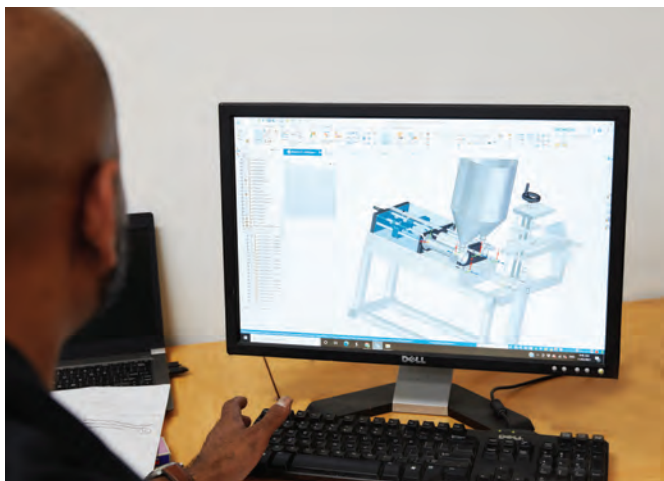

SERVICES

Packserv maintains a traditional element in its values when liaising with clients. Many “consultation based” services are free of charge and form part of the positive experience you can expect.

ENGINEERING DEPARTMENT

We have a team of full-time Engineers in our warehouse as well as CAD designers, Fabricators, Welders and CNC + Precision Machinists.

GLOBAL PARTNERSHIPS

Packserv is proud to have established global partnership agreements with leaders in the industry.

A global leader in the labelling and packaging equipment industry.

Supply the most reliable and the most powerful Induction Sealing Machines in the world.

The leading manufacturer of industrial inkjet printers and batch coding machines globally.

For over 40 years, Pilot Air has provided high quality products and services to the compressed air industry.

FLEET CARE

“Packserv encourages its clients, particularly manufacturers, to be aware of and take an active part in policing the preparation of packaging machinery.”

Packserv has a formal fleet care policy. We guarantee that every piece of inventory is serviced, cleaned and tested before each rental term. Packserv's technical team complete equipment inventory records detailing service history, and machines are clearly labelled with service and maintenance stickers.

Our technicians are qualified to test equipment with pneumatic circuits and mechanical systems and are also licensed to tag and test all electrical equipment. Equipment (including parts and accessories) is tested before and after each rental term.

All machine contact parts are carefully washed and sanitised in commercial grade dishwashers.

Each machine is accompanied by easy to follow operating instructions and our technicians can provide on-site training for preparing the equipment for your specific requirements.
