# Priority ERP

## Smart Business Platforms

*Accelerate your organization's growth with an agile, scalable, and open business management software.*

# Full ERP at a fraction of the cost

## A cloud application that delivers on its promise

In the cloud, your cloud ERP system can help you shift your focus to business outcomes, rather than technology. With Priority cloud ERP, you can turn your attention to running your business, by spending more time on tasks that support strategic growth initiatives, rather than IT administration. What's more, you can reduce your organization's IT expenses by removing the need for hardware maintenance and system upgrades. With automatic upgrades as part of the system, cloud-based ERP ensures you're always using the most up-to-date version..

## INFORMATION TECHNOLOGY SOLUTIONS THAT WORK FOR YOUR BUSINESS

Priority raises the bar on available ERP functionality, by providing the most comprehensive, flexible and affordable ERP solution on the market today, with a more accessible alternative to complex and costly ERP solutions that support a range of enterprise-wide processes and workflows. Priority covers all the elements of traditional ERP modules to manage and control your business, including finance, manufacturing, logistics, human resources, time and attendance, BI, project management and CRM.

What's more, Priority offers innovative tools for building effective mobile apps in just minutes. Ideal for growing organizations, Priority enables expansion from a few to several thousand users and is designed to help users configure the system with a variety of customization tools. Priority is offered with both on premise and cloud solutions, both of which deliver 100% system functionality, enabling users to access their data in real-time from mobile devices and tablets.
