CATALOGUE**

## BEAST 230

BEAST230X1 (SINGLE) | BEAST230PK (PAIR)

The ultimate LED driving light leaves others in the dark. BEAST's 3-mode operation is a unique quality of the BEAST range. Change between spot, flood, and BEAST mode all from the comfort of the drivers seat. Features include 5700K colour temperature to minimise glare, superior shielding to reduce radio interference, and IP69K ingress protection.

1 LUX BEAM DISTANCE / WIDTH: BEAST (PAIR) **1375m / 140m** | SPOT (PAIR) **1497m / 60m**  
 FLOOD (PAIR) **778m / 140m** | WATTAGE: **172W LED**

## BEAST 190

BEAST190X1 (SINGLE)

Born from the award-winning design and performance DNA of the BEAST 230, the BEAST 190 retains its proven capability in a compact form. Engineered to improve airflow, reduce sensor obstruction, and fit a wider range of modern vehicles. Features include 5700K colour temperature to minimise glare, superior shielding to reduce radio interference and IP69K ingress protection.

1 LUX BEAM DISTANCE / WIDTH: BEAST (PAIR) **1260m / 142m** | SPOT (pair) **1195m / 64m**  
 FLOOD (PAIR) **496m / 129m** | WATTAGE: **149W LED**

## HTX2

HTXMK2 (SINGLE) | HTXMK2PK (PAIR)

With a beam distance of 1650m a pair, HTX2 is our most powerful driving light. The unique combination of a long-distance 50W HID bulb, with 80W of LED spread makes the HTX2 the right choice for all terrain. Independently switch between HID, LED or combine both to suit any driving situation. Features include 5000K colour temperature to minimise glare, superior shielding to reduce radio interference, and IP68/IP69K ingress protection. Also available in 24V with Xtreme Top Stay Bracket.

BEAM DISTANCE (PAIR): 1 LUX @ **1650m** | WATTAGE: **50W HID + 80W LED**

## GENESIS

GENESISLED210

The Genesis LED packs 37 LumiLED LEDs into a comparatively compact frame for a driving light that pushes the limits of LED technology. Backed by 140W of power each, Genesis LED reaches out to produce usable light at over one kilometre and conquer the most demanding lighting needs. Features include 5000K colour temperature to minimise glare, superior shielding to reduce radio interference, and IP68/IP69K ingress protection.

BEAM DISTANCE (PAIR): 1 LUX @ **1119m** | WATTAGE: **140W**

## ▶ DRIVING LIGHTS

### VENOM

VENOMLED150

Like the Genesis LED, the Venom LED breaks the rules of what LED driving lights can accomplish. The 150mm frame allows the Venom LED to fit locations and vehicles that can't accommodate a bigger light, while 75W provides industry leading output. Features include 5000K colour temperature to minimise glare, superior shielding to reduce radio interference, and IP69K ingress protection.

BEAM DISTANCE (PAIR): 1 LUX @ **912m** | WATTAGE: **75W**

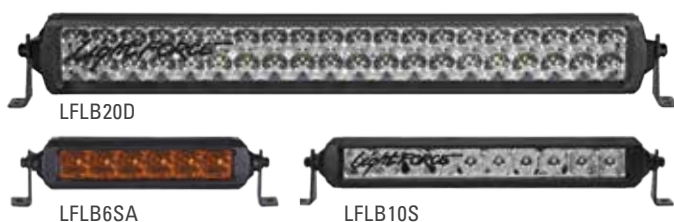

### STRIKER

STRIKERLEDX1 (SINGLE) | STRIKERLEDPK (PAIR)

Australian designed and manufactured Striker LEDs have a stylish rectangular form factor for a cool look on any 4x4, SUV or ute. Features include 5000K colour temperature to minimise glare, superior shielding to reduce radio interference and IP68 / IP69K ingress protection. The Striker twin pack includes a complete DIY Easy-Fit Installation Kit with a Lightforce single switch and 8 pin adaptor.

BEAM DISTANCE (PAIR): 1 LUX @ **750m** | WATTAGE: **60W**

### VIPER LIGHT BARS SINGLE/DUAL ROW

VIPER Light Bars offer 25% more performance than previous models. All VIPER Light Bars are supplied with a wiring harness, end mounts, and slide mounts. Improved features include marine grade powder coat finish, reduced radio interference technology, and more. Single row bars are available in 6 - 50", dual row bars are available in 10 - 50" and amber lens bars are available in a range of sizes.

BEAM DISTANCE: 1 LUX @ **734m** for a 20" Dual Row Bar | WATTAGE: **100W**

### STRIKER / BLITZ HALOGEN

The Striker and Blitz halogen lights deliver high performance and impressive light intensity. Both models feature high output 100W Xenophot bulbs and a supremely efficient polycarbonate reflector system. They outperform and outlast bulky glass and metal competitors. Both Striker and Blitz Halogen are available in 12V and 24V, as well as HID.

**STRIKER** BEAM DISTANCE (PAIR): 1 LUX @ **875m** | WATTAGE: **100W**

**BLITZ** BEAM DISTANCE (PAIR): 1 LUX @ **994m** | WATTAGE: **100W**

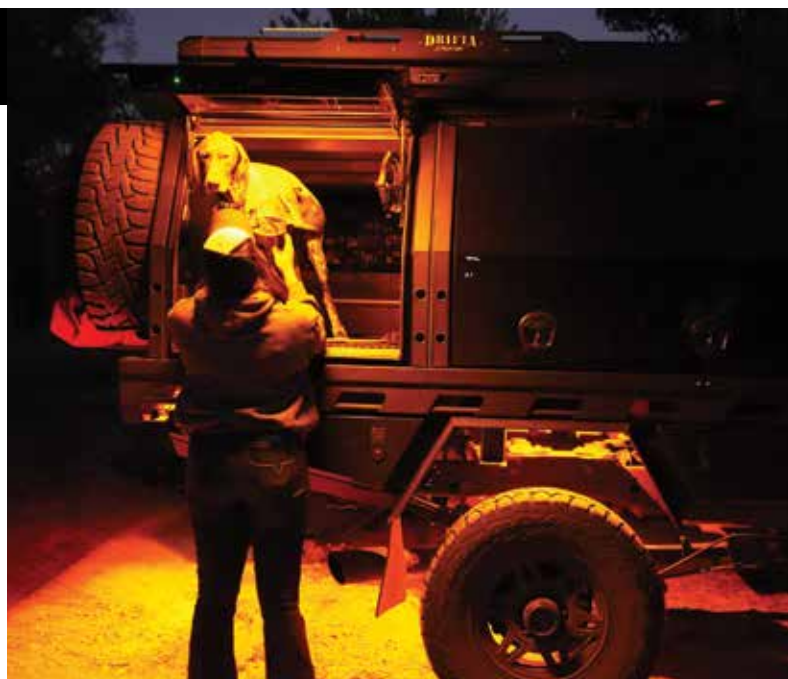

## ▶ UTILITY LIGHTS

### ROK 9 / 10 / 20 / 40 UTILITY LIGHTS

ROK LED Utility Lights are diverse and adaptable, ideal for a wide range of applications including heavy equipment, mining, off-road vehicles and ATVs. Incredibly compact and guaranteed for 3 years. Models include ROK9 surface mounted light and ROK10, 20 and 40 watt. Spot, flood, and ultra-flood beam patterns are available. Flush mount options also available.

WATTAGE: **9W, 10W, 20W & 40W**

▶ **DRIVING LIGHTS**

## E-MARK EDITION LED DRIVING LIGHTS

Australian designed and manufactured, the range of LED Driving Lights by Lightforce set new benchmarks in output and performance.

All models have a slimline frame compared to other driving lights, and the LumiLED LEDs provide a colour temperature of 5000K for enhanced driving conditions. Lightforce driving lights are all ModularFilter compatible. This unique feature allows you to change the beam pattern and beam colour according to varying driving conditions.

Other unique features include superior shielding to reduce radio interference and IP68 / IP69K ingress protection.

VENOMLED150E

STRIKERLEDPKC

GENESISLED210E

Models include:

Genesis LED Professional E-Mark Edition

BEAM DISTANCE (PAIR): 1 LUX @ **640m** | WATTAGE: **34W**

BEAM DISTANCE (PAIR): 1 LUX @ **1119m\*** | WATTAGE: **140W\***

Venom LED Professional E-Mark Edition

BEAM DISTANCE (PAIR): 1 LUX @ **636m** | WATTAGE: **27.5W**

BEAM DISTANCE (PAIR): 1 LUX @ **939m\*** | WATTAGE: **75W\***

Striker LED Professional E-Mark Edition

BEAM DISTANCE (PAIR): 1 LUX @ **623m** | WATTAGE: **35.5W**
