WHY BUY A VISION RV

At Vision RV, we believe that true off-road freedom is built on a foundation of transparency and trust.

Every one of our 100% timber-free caravans is engineered right here at our Baringa factory on the Sunshine Coast. By choosing a factory-direct relationship, you gain a direct line to the people who design and build your van—ensuring every detail meets our uncompromising standards. We believe in our process so much that we've removed the financial stress often found in the industry; we do not take progress payments. Instead, we fund the build ourselves, so you only pay for your caravan when it is finished and ready for the red dirt. With over 40 years of off-road heritage driving our innovation, Vision RV offers the security of a local manufacturer that is as invested in your adventures as you are.

LUXURY A GIVEN

Timber free, our vans boast a huge range of features designed for comfort on the go. From our generous exterior kitchen, double hot and cold external showers, air con, washing machines, soft touch open & close storage along with endless power, a Vision RV lacks nothing in creature comfort.

FULL OFF ROAD CAPABILITY

Zero compromise for our off-road credentials. From hot dipped chassis, push button air bag suspension and modern joinery that outperforms the competition, if you are planning on going off-grid, do it in a Vision RV for total peace of mind.

ENGINEERED FOR SIMPLICITY

Our products are testament to our commitment to detail, functionality, design excellence and pioneering innovation. Simple solutions such as wiring that can be reached, showers both sides of the van and other clever features make living in a Vision RV simple & relaxing.

INTELLIGENT & POWERFUL OFF GRID SYSTEM

FULL OFF ROAD CAPABILITY

NOTES

FACTORY DIRECT

When you buy a Vision RV, you are dealing directly with the people who build it.

- Factory Direct: No middleman, no excuses.
- QLD Proud: Every Vision RV goes through our Baringa Factory for finalisation, QC and modifications
- Visit the Source: We don't hide behind a curtain— our manufacturing process is as transparent as our service where factory visits are possible - speak to our team today to learn more.

NO PROGRESS PAYMENTS

The "Two-Payment" Purchase Security

We believe you should only pay for a caravan you can actually see and touch. In an industry where "progress payments" have become a risk for consumers, we've simplified the process to keep your money safe:

1. Secure Your Build: A 20% deposit upon signing your contract.
2. Finalise on Delivery: The remaining balance is only payable once your van is fully built and ready for handover.

Your Security, Guaranteed: No progress payments, no hidden risks. Just a simple, two-step path to hitting the road.

FINANCE and **INSURANCE** are available at our dealership.

INDUSTRY LEADING 7 Year Warranty

We build our vans to handle the rugged Australian landscape, and we have the confidence to prove it. Every Vision RV comes with a comprehensive 7-year warranty, ensuring your investment is protected for the long haul. Wherever the road takes you, we've got your back.
