Precision Tools

# GyroLogic™

Reference gyro designed for  
short hole applications

Operates in both  
wireline and  
memory mode

# GyroLogic™

## Technical specifications

Performance		Equipment	
Inclination accuracy	± 0.05°	Diameter	35mm (1.37")
Position accuracy	<1%* NS, EW and Alt	Weight	8kg (17.6 lbs)
Gravity toolface accuracy	± 0.2°	Length	1730mm (68.11")
Gyro toolface	± 0.2°	Temperature rating	-10°C to 70°C 14°F to 158°F
Inclination range	-90° to +90°	Pressure rating	30MPa (4351psi)
*Subject to borehole profile		Maximum Depth	600m
Operation		Software	
Well profiles	Inclined and horizontal	Export format	PDF, Excel, CSV, LAS, DXF
Wireline mode	Applicable	Survey report	Generate at any interval
Memory mode	Applicable	Tamper-proof	Yes
Working in magnetic field	Unaffected data	Graphic generation	2D, 3D

### Versatile and built for heavy-duty use

Operates in both wireline and memory mode. Our engineers have developed an easy-to-use reference gyro system that specializes in short hole applications.

### Survey in magnetically disturbed environments

The GyroLogic™ instrument is an accurate and reliable downhole reference gyro survey tool. Ability to work in continuous mode, this tool registers data points based on the initial starting values.

### Automated smart software

Our reference gyro software ensures accuracy throughout the operation. Automatically generate detailed pdf reports and easily share among stakeholders. Our reports are tamper-proof to ensure the highest standard of quality control.
