

Heavy Haul Rail Solutions

Bradken provides innovative cast and forged steel solutions for the heavy haul rail industry, that improve operational performance.

Our capabilities include highly experienced manufacturing and design engineering teams, along with warehousing strategically located across Australia to support our customer requirements in the heavy haul market.

Signal Equipment

Bradken is the preferred supplier of Western Cullen Hayes (WCH) signal equipment. Since obtaining Type Approval through the Australian Rail Track Corporation, WCH components can be fitted as new installations on any ARTC network crossing.

Couplers

Bradken is a leader in the design and manufacture of couplers for the heavy haul rail industry. Bradken can supply from the comprehensive range of existing designs or alternatively develop new designs to meet customer requirements.

Rail Spare Parts

Bradken supports customers involved in the capital builds and maintenance of rolling stock by supplying a comprehensive range of cast, forged and general spare parts for freight vehicles, passenger vehicles and locomotives.

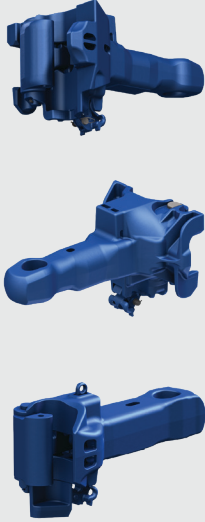

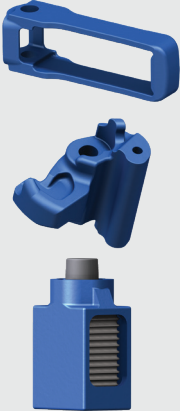

Our Innovation. Your Advantage.
