

Is Your Mining Operation Fully Protected?

Navigating mining insurance can be complex. Discover the essential coverages you need to safeguard your operations and workforce. Keep scrolling to protect what matters.

Essential Mining Insurance Coverage

Labour Hire Protection

Comprehensive coverage for your workforce and business operations.

Workers Compensation

Financial security for employees in case of workplace injuries.

Employment Practices Liability

Defense against claims related to workplace policies and practices.

Hidden Risks You Can't Ignore

Worker-to-Worker Liability

Protection against injury claims between employees, often overlooked but potentially devastating.

Proportionate Liability

Understanding your exact share of responsibility in multi-party claims is critical.

Subcontracting Pitfalls

Subcontracting work doesn't transfer your legal responsibilities—read contracts carefully!

Always seek professional insurance and legal advice before signing contracts to maintain valid coverage.

Build a Safer Mining Future Today
