Techno Security & Digital Forensics Conference

Denver, CO

August 2-4, 2021
Hilton Denver City Center

Collaborate With Peers

Join the industry for the first edition of Techno Security & Digital Forensics Conference in Colorado at the Hilton Denver City Center.

The first edition of the Colorado based Techno Security & Digital Forensics Conference will be held August 2-4, 2021. Attendees within the Colorado region who are not able to travel to either the East or West coast events are able to join us closer to home, and gain all the knowledge, networking, and training that the event provides to the cybersecurity and digital forensics industry. The Colorado event will also benefit sponsors by bringing them together with new prospective customers that they would not otherwise meet at our other conference locations. Cybersecurity and digital forensics is a growing field with an ever-increasing need for more training, education and access to suppliers in all regions.

The goal for Techno Security & Digital Forensics Conference is to deliver a unique conference experience that blends together the digital forensics and cybersecurity industries for collaboration between government and private sectors. It has grown into one of the most important resources for corporate network security professionals, federal, state and local law enforcement digital forensic specialists, and cybersecurity industry leaders from around the world. To ensure the event delivers the highest possible quality conference and attendees, the 2021 program will feature vendor neutral, hands on, relevant and current seminars offering an opportunity for attendees to earn CPE credits within the following seminar tracks:

- **Audit/Risk Management**
- **Information Security**
- **Forensics**
- **Investigations**

Meet New Prospects

11,000+ technology and information companies call Colorado home.

Why Denver, CO?

- Colorado is home to over 11,000 technology and information companies, employing more than 149,900 people in startup companies and global corporations in the industry including, Dell, IBM, Oracle, AT&T, Hewlett Packard, Google and IBM Corporation.*
- Eight of the nation's major space contractors also have a significant presence in Colorado, helping the DoD procure, place and manage national space assets to protect our country and increase its military and homeland security capabilities.*
- The state is a national hub for cybersecurity and in 2016 the National Cybersecurity Intelligence Center opened in Colorado Springs, a first of its kind partnership that brings industry executives, nonprofits, government entities and academics together on the frontline in the war against cybercrime.*
- Colorado is home to a diverse mix of U.S. Department of Defense (DoD) military installations and major command centers including North American Aerospace Defense Command (NORAD), and U.S. Northern Command (USNORTHCOM).*
- The Colorado based Rocky Mountain Regional Computer Lab, one of 17 RCFL full service digital forensics laboratories and training centers, provides computer forensics services to any law enforcement agency operating in Colorado and Wyoming. The RCFL program is a partnership between the FBI and other federal, state, and local law enforcement agencies operating a regional, digital forensic task force.**
- The higher education system in Colorado provides an excellent support system for the defense and homeland security industry in the state. Numerous defense and homeland security educational programs are offered across the state, led by the United States Air Force Academy in Colorado Springs where 60 percent of the cadets complete majors in science & engineering.*

Demonstrate Your Innovations

Sponsor Packages

Our streamlined sponsorship packages include electrical service, material handling fees, carpeting, tables and chairs so you can focus on your event marketing and not the logistics of organizing, ordering and providing separate payment to multiple onsite service providers.

An allotment of full conference passes is provided with each sponsorship. Your company knows who they need to see to have a successful event—let us help you get them there. Show management is available to help each sponsoring company invite and attract their top clients, prospects and VIP's, with additional personalized follow up to ensure their registration and host hotel accommodations are secured with simplicity and ease.

Product presentations/demos included at the Platinum and Gold sponsor levels. Based on feedback from attendees and sponsors alike, and to keep the sales pitch out of the educational line up, the 2021 event will feature dedicated sessions to learn specifically about the features and benefits associated with various sponsor products.
