# About us

SCITOP is a leading manufacturer of digital inkjet printing media with factory located in China. By providing the world with top quality products at competitive prices, we touch and make a difference in people's lives.

With a strong R&D team, SCITOP is innovatively and continuously bringing new products into the market. We believe that there are tremendous potential in the digital inkjet printing media market and we strive to become one of the technology leaders in this field.

Our coating factory in China is more than 300,000 square feet in area with over millions square meters monthly production capacity. It is not only our huge production capacity but also our quality centric attitude that made us as the leading inkjet printing media manufacturer in the world.

We are committed to achieve 100% customer satisfaction. From pre-sale consultancy to after-sale service, from product development to product delivery, from IQC of raw materials to OQC of our products, from special requirements to complaints of customers, our colleagues handle every task attentively at every stage throughout the business cycle.

We are SCITOP. We deliver, we excel, and we lead.

## Our Strength

### • Large Production Capacity:

Over 50 millions square feet monthly production capacity in a factory area of more than 300,000 square feet.

### • Strong R&D Capability:

Our R&D team consists of scientists and engineers holding Ph.D. degrees and Master degrees. We have been and will be continuously investing in technology and product development.

### • Strict Quality Control Process:

We are committed to provide our customers with top quality by installed continued improvement mechanism and well trained and dedicated IQC, IPQC, FQC, and QE personnel.

### • Excellent Service and Technical Supports:

Highly-qualified academic background & strong team-work spirit ensure pre-sales and after-sales services.

# Product Lines

# Desktop Format For Inkjet Printer

## Glossy Photo Paper

### 1. Ultra Premium Glossy Photo Paper

(Single side / Double sides)

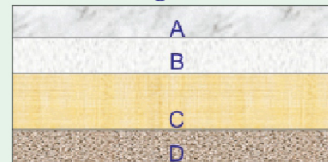

• **Features:**

- Fast dry, water resistant, suitable for dye ink
- Whiter and brighter shade
- High color density & resolution
- Vivid and sharp image

• **Application:**

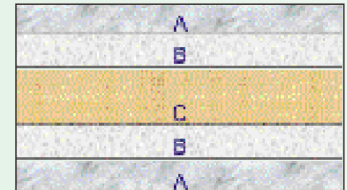

- For Premium quality photo printing, brilliant colors printing
- Cover printing, premium quality presentation

Single side

A: Surface coating-glossy layer  
B: Ink receiving layer  
C: Base paper  
D: Back coating layer

Double side

A: Surface coating-glossy layer  
B: Ink receiving layer  
C: Base paper

### 2. Premium Glossy Photo Paper

(Single side / Double sides)

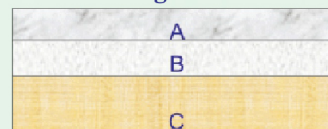

• **Features:**

- Fast dry, water resistant, suitable for dye ink
- Printing economically
- Vivid color image

• **Application:**

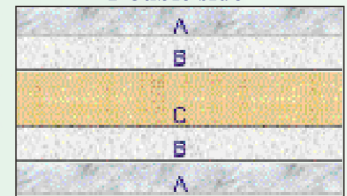

- Idea for everyday photo printing
- Personal & family albums

Single side

A: Surface coating-glossy layer  
B: Ink receiving layer  
C: Base paper

Double side

A: Surface coating-glossy layer  
B: Ink receiving layer  
C: Base paper

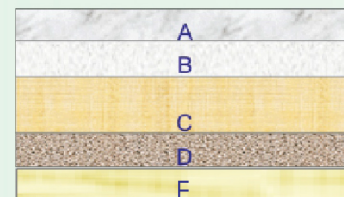

### 3. Glossy Self-adhesive Inkjet Paper

• **Features:**

- Fast dry, water resistant, suitable for dye ink
- Free to stick on everything

• **Application:**

- Advertisement
- Office image output
- Home print-out

A: Surface coating-glossy layer  
B: Ink receiving layer  
C: Photo base  
D: Adhesive layer  
E: Release paper

## Matte-Coated Inkjet Paper

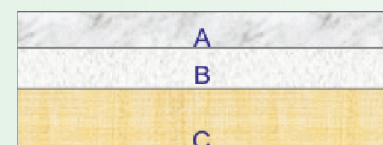

### 1. Single-sided Matte Inkjet Paper

• **Features:**

- Fast dry, water-resistant, suitable for dye ink & pigment ink.

• **Applications:**

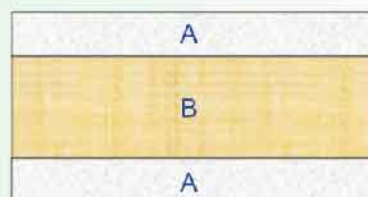

- Ideal for chart sheet, engineering drawings and layout drawings
- Document, report, presentation printing, poster printing

A: Ink receiving layer  
B: Base paper  
C: Back coating layer

## 2. Double-sided Matte Inkjet Paper

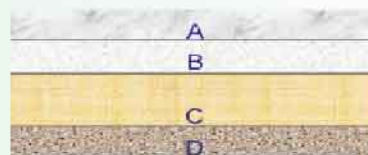

- **Features:**
  - Fast dry, water-resistant, suitable for dye ink & pigment ink.
- **Applications:**
  - Ideal for cover printing
  - Dual-printing, various cards printing

A: Ink receiving layer  
B: Base paper

## 3. Matte Self-adhesive Inkjet Paper

- **Features:**
  - Fast dry, water-resistant, suitable for dye ink & pigment ink.
  - Free to stick on everything
- **Applications:**
  - Ideal for cover printing
  - Dual-printing, various cards printing

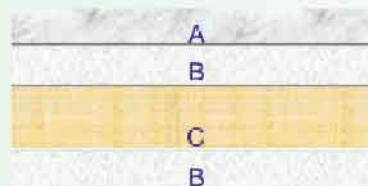

A: Ink receiving layer  
B: Base paper  
C: Adhesive layer  
D: Release paper

## Microporous Photo Paper

### 1. Microporous Glossy Photo Paper

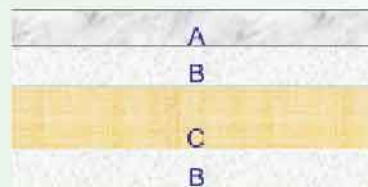

- **Features:**
  - Fast dry, water-proof, suitable for dye & pigment ink
  - Traditional printing feeling image
- **Usage:**
  - Ideal for professional photographs, studio printing

A: Resin coating layer (Glossy)  
B: PE coating layer  
C: Base paper

### 2. Microporous Satin/Luster/Silk Photo Paper

- **Features:**
  - Fast dry, water-proof, suitable for dye & pigment ink
  - Satin & Luster & Silk finishing
  - Traditional printing feeling image & Wipe resistant
- **Usage:**
  - Ideal for professional photographs, studio printing

A: Resin coating layer (Satin, Luster, Silk)  
B: PE coating layer  
C: Base paper
