## VISCOM SF

The Stadur VISCOM SIGN SF lightweight foam board consists of PVC foam sheets on both sides. Due to low weight and **solid dimensional stability** it features **outstanding high quality**.

**Sizes:** 1220 x 2440 mm / 1530 x 3050 mm  
2030 x 3050 mm / 2030 x 4050 mm

**Thicknesses:** 5mm / 10 mm / 15 mm / 19 mm  
Thicknesses up to 100 mm are possible

Certified for  
HP Latex Inks

## VISCOM XP

The Stadur VISCOM SIGN XP lightweight foam board consists of **brilliant white** PVC foam sheets on both sides. This **quality** panel is an **excellent alternative** to SIGN SF.

**Sizes:** 1220 x 2440 mm / 1530 x 3050 mm  
2030 x 3050 mm

**Thicknesses:** 5mm / 10 mm / 15 mm / 19 mm  
Thicknesses up to 100 mm are possible

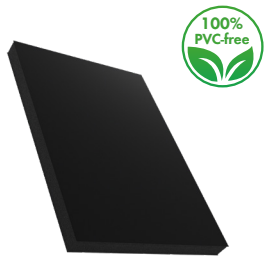

## VISCOM EASYPRINT

The Stadur lightweight foam board VISCOM SIGN EASYPRINT, which is **100% PVC-free**, consists of Stadurlon compact sheets on both sides. Whether with slots or V-shaped grooves the high-performance plastic Stadurlon can be **bent or folded without breaking**. There is no limit to your creative design options.

**Sizes:** 1220 x 2440 mm / 1530 x 3050 mm  
2030 x 3050 mm / 2030 x 4050 mm

**Thicknesses:** 5 mm / 10 mm / 15 mm / 19 mm  
Thicknesses up to 100 mm are possible

Certified for  
HP Latex Inks

## VISCOM EASYPRINT BLACK

The Stadur VISCOM SIGN EASYPRINT BLACK lightweight foam board, which is **100% PVC-free**, consist of a **black polystyrene core** and **Stadurlon compact sheets in black** on both sides. Additionally facings **can be combined** in black/white or in white on both sides.

**Sizes:** 1530 x 3050 mm / 2030 x 3050 mm

**Thicknesses:** 5 mm / 10 mm / 19 mm

## VISCOM EASYPRINT COLOR

Consists of a **white polystyrene core** and **Stadurlon compact sheets in black** on both sides.

**Sizes:** 1530 x 3050 mm / 2030 x 3050 mm

**Thicknesses:** 5 mm / 10 mm / 15 mm / 19 mm  
Thicknesses up to 100 mm are possible

## VISCOM DECOR

The Stadur lightweight foam board VISCOM DECOR consists of a **one-sided film-laminated cover layer** of Stadurlon and white on the back. Alternatively, it can also be supplied with film lamination on both sides. A very large variety of **more than 200 decors and embossings** are available. In addition, the panel **can be bent into shapes by means of V-milling**.

**Size:** 1300 x 3050 mm

**Thicknesses:** 6 mm / 10 mm / 15 mm / 19 mm  
Thicknesses up to 100 mm are possible

## VISCOM WOOD fibreboard

The Stadur lightweight foam board VISCOM WOOD fibreboard consists of white coated wood fibre hardboards on both sides. This combination results in a **high level of flatness** and **very high robustness**.

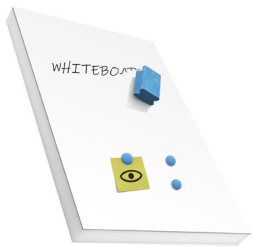

**Size:** 2030 x 2800 mm  
**Thicknesses:** 10 mm / 15 mm / 19 mm  
Thicknesses up to 100 mm are possible

## VISCOM MAGNETIC

The Stadur lightweight foam board VISCOM MAGNETIC consists of PVC foam sheets on both sides with a **magnetic foil** on one face, which allows the adherence of ferrous paper/foil. This product is perfectly suited for **easily exchangeable** advertisements and thus for the **lasting display and store construction**.

**Sizes:** 1220 x 2440 mm / 1220 x 3050 mm  
**Thickness:** 10 mm  
Thicknesses up to 100 mm are possible

## VISCOM WHITEBOARD

The Stadur lightweight foam board VISCOM WHITEBOARD consists of PVC foam sheets on both sides with a ferrous whiteboard foil on one face. Thanks to the **smooth & durable magnetic writing surface** this product is perfectly suited as a lasting presentation panel and bulletin board.

**Sizes:** 1220 x 2440 mm / 1220 x 3050 mm  
**Thickness:** 10 mm  
Thicknesses up to 100 mm are possible

## VISCOM EDGE

The Stadur edge protection profile VISCOM EDGE is equipped with a self-adhesive film. The flexible profile can be used direct from the roll for **closing the open edges of the boards** – even for angled and round shapes.

**Colours:** White / Black / Silver metallic  
**Thicknesses:** 10 mm / 19 mm  
**Box-Contents:** 50 m

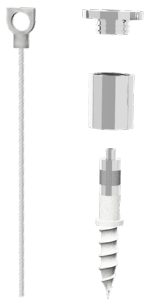

## STADUR PowerFix

Neutral, permanently elastic **construction adhesive** for bonds subject to dynamic loads both **indoors and outdoors**.
