

PRESS RELEASE

Date: 31st May – 3rd June

Place: Messe Berlin

Country: Germany

FESPA 2022 is coming on May 31st and KTK is ready to be part of this event.

KTK has been building automatic screen-printing machines since 2014, however, the vision of its owners was the result of more than 30 years involved in Screen Printing and dealing with all the ins and outs of its specific machinery. The KTK products are globally known not only for their highly acclaimed precision, durable components, and reliability but more importantly for making the job of printers all over the world an easier and safer one. With a team of dealers and after-sales support that extends to the four corners of the Globe, KTK is easily in touch with every customer, maintaining its relationship with all different markets by always being present at the most recognizable international exhibitions of the world.

With the textile market opening, there are new frontiers to explore. KTK is eager to present a wide variety of screenprinting machines and innovations for 2022, such as:

- KTK machines as KTK Master Plus, KTK ETNA, and its corresponding flash cure units.
- New machine “ KTK WISE “.
- The power of a digital hybrid system with the machines KTK Fusion Plus and KTK Master Plus.
- The best professionals in terms of advising the best machines and accessories for your company.

You can find us at Stand D40, in Messe Berlin.
