## WELCOME TO SIGN & DIGITAL UK 2023

Spring is in the air! And we all know what that means. It's time for the visual communications industry to get together at the NEC Birmingham for **Sign & Digital UK**. After last year's joyful and relieved return to live events – 2023 sees us back for a **full-throttle, no-holds-barred Celebration of Signage**.

We are delighted to welcome many new and returning Exhibitors, providing you with a **comprehensive array of products, services and solutions to help improve your business**, whatever your size and experience. On the show floor, you'll meet a cross-section of the industry, with exhibitors covering **sign-making tools, printers, media, textiles, personalised goods, software, sustainability and so much more**. Whatever your business, there will be something at the show for you.

As well as our fabulous exhibitors, we have a range of additional features designed to inform, inspire and amaze you. The **HEXIS UK Wrap Battle Contest** is back and will be more hotly contested than ever. Heats and semi-finals will run on Tuesday and Wednesday, with the grand final head-to-head on Thursday. Go along and see the incredible wrappers in action and even have a go!

At the **Sign Studio**, Paul Hughes will also be looking at vinyl application, but at a rather more relaxed pace. He will share the basics of vinyl application, vehicle livery, wall coverings and more. These practical, hands-on demonstrations are for everyone. They will help you as you take your first steps in vinyl application or if you want to add to or improve your skills. There will also be something for more seasoned pros on the hunt for the latest tips and tricks.

Last year we introduced the **SDUK Explains Lounge**, which was run by the **ISA UK**. They are back again this year with lots of new ideas and an exciting schedule of presentations, demonstrations and panel discussions. We have a host of experienced speakers ready to pass on their knowledge and insights into topics including growing your business, dealing with the skills shortage, and the increasingly important need for more sustainable products and practices.

We also have a new feature called the **Sign Surgery**. The ISA directors will be on call throughout the show to answer your questions and help you with any challenges and issues you face. With their decades of experience, there isn't much these **Sign Doctors** don't know about the business of sign-making, and this is a unique and unmissable opportunity to benefit from their knowledge.

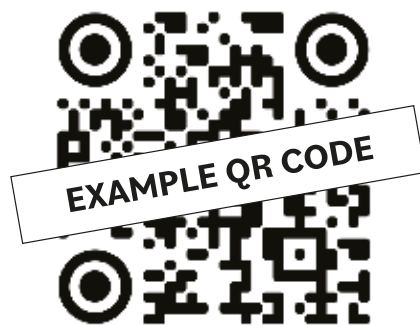

We see our role as being at the **frontline of industry innovation**. Sign & Digital UK is the place to create and reinforce valuable business relationships, unlock business opportunities, discover the latest innovations, and explore the exciting world of visual communications.

We hope you enjoy your visit.

# SIGN STUDIO 2023

SEE LIVE DEMOS, LEARN NEW SKILLS, AND GAIN PRACTICAL ADVICE IN WORKSHOPS  
HOSTED BY EXPERIENCED SIGN-MAKER PAUL HUGHES  
SIGN STUDIO TIMETABLE REPEATED DAILY:

10.30-11.00  
16.15-16.45

## BASIC APPLICATION OF VINYL

This session is for anyone looking to take their first steps in vinyl application. Paul will show you the basics of applying vinyl graphics and offer hints and tips for which products and techniques you should use and when.

11.15-11.45  
14.00-14.30

## APPLYING LARGE AREAS OF VINYL

Once you have mastered the basics, it's time to look at the skill of applying a large area of vinyl to a variety of surfaces. This could be digitally printed or plain coloured vinyl film, applied directly to boards, glass or other substrates. In straightforward steps, Paul will show you; basic technique, use of water/application fluids, squeegee choice and technique, demonstrate applying large panels of vinyl to boards/facias/glass, working on glass – etched films, applying large-cut vinyl graphics

12.00-12.30  
14.45-15.15

## APPLICATION CHALLENGE

In this hands-on session, Paul will be challenging visitors to have a go at applying some vinyl themselves. He will be on hand to offer advice and guidance to make sure visitors gain vital experience in vinyl application. There will be a gift for everyone who enters. There will also be prizes for the best job each day as well as an overall winner.

13.15-13.45  
15.30-16.00

## BASICS OF VEHICLE LIVERY

For most sign companies, vehicle graphics means applying vinyl lettering and logos to the side of a van. We leave the full-body wraps to the pros at the HEXIS Wrap Battle. Paul will show visitors the basics of applying simple cut-vinyl lettering and even give them a chance to try it for themselves.

“

*I will be giving practical, hands-on demonstrations designed to inform people looking to take their first steps in vinyl application and those wanting to add to and develop their skills. There will even be something for more seasoned pros on the hunt for the very latest tips and tricks.*

- Paul Hughes
