Marketing

Website support

We can provide you with an unbranded iFrame to feature on your website. You will have full control of which of our products you want to display. The iFrame provides high quality images, product specifications, clear navigation and informative content. We can also provide you with a branded flipbook, with your company logo on the front cover! The fully searchable online flipbook makes it easier for your customers to find what they need. Both our iFrame and flipbook are fully maintained and updated, ensuring digital literature we provide is always up to date.

Unbranded Resources

Log in to your online account where you can download a variety of different unbranded resources to use for your own marketing, all free of charge!

Loyalty Discount

We aim to achieve a partnership with your business and provide our trade customers with a

four tiered loyalty discount scheme which offers increasing savings the more you spend. Our annual spend discount bands are:

To qualify for our discount scheme, customer spend must reach £10,000 over one year. The loyalty discount scheme is reviewed annually in December. For full details please speak to your sales advisor.

Pavement Signs & A-Boards

• Ecoflex 2	• Swinger 2	• A-Master	• Eco Swinger
• Booster	• Swinger 4000	• A-Board	• Ecoflextra

We have a wide range of durable **Pavement Signs** and **A-Boards** to suit a multitude of indoor and outdoor promotional uses. Our market leading pavement signs can be seen across exhibition centres, car parks, airports, stations, educational establishments, leisure and hospitality venues.

Many of the products are manufactured in-house and are available in a range of sizes with various panel options, such as printed panel, poster pockets or **High Pressure Laminate Chalkboard** panels. The **Ecoflex** family features our unique patented wedge, allowing for swift and easy assembly.

Why is Swinger the UK's market leading sign?

- Beautifully designed and engineered.
- Low centre of gravity for maximum stability.
- Quick and easy 'no tools' assembly.

- Individually boxed and flat packed with instructions.
- Soft round styling for high pedestrian safety.
- Fully recyclable.

'No Tools' Assembly

· Simply push base onto frame.

· Quick and easy poster change.

Self closing magnetic seals.

· Lift frame with Swinger 2.

Patent No. 2464773 EU Design Registration No. 001274229

- · Virtually no risk of poster loss.
- · Provides drain channels to prevent weather damage.

Built-In Wheels

- · Enables safe and easy movement into high visibility positions.
- Fitted on Swinger 3000 and 4000.

Water Fillable Bases

- · Optimum stability.
- · Fitted as standard on Swinger 3000 and 4000.

Forecourt Signs

 Sightmaster 	• Sentinel	• Defender	Cyclone 2
• <i>POW</i> !	Bollard Wraps	• Sign Covers	

High impact, durable and repositionable outdoor displays, our market leading forecourt signs are the perfect solution. Our signs are well suited to petrol and dealer forecourts, supermarkets, out of town retail parks, and any store front location where high visibility promotion is required.

For a small budget we have the **Sightmaster 3** poster sign, featuring a water fillable base and snapframe display. Our flagship **Sentinel®** is designed and manufactured for maximum stability and long term performance, as tried, tested and trusted by many of the UK's leading brands and retailers.

SENTINEL® EU Design Registration No. 000190954.

The ultimate forecourt poster sign.

Magnetic poster covers for quick and easy poster change.

Sentinel[®] working hard for major retailers across the country.

Lower cost, lighter weight base option available for 30" x 40" and A0 sizes. Volume/contract enquiries only.

External poster signs are a powerful advertising tool. With 70% of purchase decisions made in-store, driving footfall inside is key. Nothing does that better than Sentinel[®] in a choice of 4 high impact poster sizes.

Available in 4 stock sizes

Cafe & Rope Barrier Systems

Adfresco Café Barrier
 Adfresco LT
 Pole & Rope Barrier

Advertise and manage space simultaneously with these stylish market leading products.

We are the only providers of the Adfresco® Café Barrier hardware. Manufactured to our patented design and quality standards; it combines style and performance at an attractive price.

Banners can be produced to your customer's requirement.

The **Adfresco**® poles and bases can also be used to create an attractive queue management system with either twisted or velvet ropes, available in three colours.

ADFRESCO® CAFÉ BARRIER Patent No. 2472843

Stylish, strong and effective - create the perfect space for your customers and brand. Available in Stainless Steel or Satin Black.

Stainless Steel showing lower cross rail and sliding ring tether option.

- Unique patented design with market leading features and benefits.
- High quality stainless steel for optimum outdoor life and scratch resistance.
- Tough satin black pole and base for an alternative look.
- 13.5kg x 360mm diameter base provides excellent stability.
- Lower cross rail for full Equality Act compliance or lower cost bungee fixings available.
- Flat packed for easy storage and transport.
- Easy to assemble. Spanner included with base/pole fixing set.
- Stainless steel top cross rail.
- Choice of banner sizes and materials including Light-Block PVC, Mesh PVC and Polyester Canvas.

Satin Black pole

For greater value – LT Base and Pole.

- Stainless steel.
- Stainless steel top cross rails.
- Low profile concrete filled base. Weight: 10.3kg.
- Supplied with cost effective bottom bungee tether.
- Same choice of banners as Adfresco®.

Unique features of Adfresco® Café Barrier:

Top/Clip

Sleek top designed for comfortable lifting, comes with quick release cross rails. Supplied with a protective cover to prevent damage in transit.

Adfresco[®] Sliding Ring

Unique patented 'smooth glide' ring allows banner to flex and eliminates wind damage associated with traditional designs. Adfresco® only.

Chrome Plated 'Eye Plate'

An additional mounting chain suitable for cross rails.

Adfresco[®] Base

Concrete filled 13.5kg rubber edged base provides optimum stability, prevents damage to floors and gives the option to roll rather than lift.

Bottom Cross Rail

Optional rigid lower cross rail provides audible 'tap' for visually impaired (Equality Act Compliant). Not available with LT.

Bungee Connector

Optional lower bungee connector holds banner taut – a cost effective alternative to a bottom cross rail. Prevents over stretching of banner.

In stock

Recyclable Stainless steel poles and bases. Designed for easy 'end of life' recycling

Fast Delivery

ADFRESCO® CAFÉ BARRIER - SELECTION TOOL

Adfresco[®] allows you to individually select the elements to create your perfect Café Barrier - all with market leading features and benefits.

55

Choose your banner width

For the most exposed locations a shorter banner width performs best: eg. sea front cafe - 1200mm.

4

Choose your banner material

Choose from a wide selection of printed banners available in a choice of materials – all suitable for outdoor use.

Reinforced and totally opaque, this is perfect for double sided print, long outdoor life and vibrant colour reproduction. The easy wipe clean surface makes it ideal for front of house food and drink environments.

Polyester Canvas

This close weave 100% polyester fabric has all the appearance, weight and feel of a traditional canvas yet, unlike cotton based canvases, it is cost effective and will not rot or stain. Available full colour printed to one side with the option of white or single colour on the reverse.

Mesh PVC 380gsm

Provides a semi transparent finish and allows some air to pass through making it ideal for windy locations & subtle branding. Full colour print is available on one side (white on reverse).

All of our banners are suitable for outdoor use. To maintain best appearance, occasionally sponge down with warm soapy water. Use ratio: 30ml liquid soap / 10 litres water.

56

Fast Delivery

Chrome plated 'Eye Plate' available for wall mounting.

In stock

Recyclable Designed for easy 'end of life' recycling.

Please Note: These ropes are designed for a long, maintenance free life indoors. Outdoor use in sunlight or rain will cause the rope colour to fade and reduce the life of the product.

Projecting Signs & Flags

• Flange Signs	• Noscrewz	Giant Pole
Standard Flag Kit	• Flying Banners	• Sucker Flags

A range of free standing, wall and glass mounted projecting signs and flags for retail, events and exhibitions - inside or out.

It includes our high quality **Feather**, **Teardrop** and **Rectangular Flying Banners** incorporating the finest carbon fibre poles and friction free bearing spindles for optimum outdoor performance.

Projecting Flange Signs are available in three standard shapes, we can also make them to custom shapes and sizes. We can also produce displays flags in custom designs for use with our **Standard Flag Kit** and our patented **Noscrewz Flag Kit**.

FLANGE SIGNS

Low cost, high impact flat projecting signs, available in 3 standard sizes.

- · Cost effective, double sided shop front advertising.
- Exceptional value with 5 plus years of outdoor life.
- 2mm aluminium panels with a gloss white polyester powder coated finish ideal for vinyl application.
- 50mm fixing flange, pre-drilled with round fixing holes as standard.
- Available digitally and screen printed (no minimum order quantity for digital print, screen print minimum order quantity 25).

Rectangular

Shape	O/A Dimensions (w x h x d mm)	Display Area (w x h mm)	Weight (kg)	Order Code
Round	556 x 495 x 50	495 diameter	1.8	FLSR
Oval	605 x 400 x 50	500 x 400	1.6	FLSO
Rectangular	582 x 417 x 50	575 x 417	1.8	FLSS

CUSTOM SHAPED FLANGE SIGNS

Endless possibilities through different shapes and sizes.

- Bring your graphics to life through custom shapes and sizes (minimum order quantity 25).
- 2mm aluminium panels with gloss white polyester powder coated finish.
- Printed using digital and screen print.
- 50mm fixing flange, pre-drilled with round fixing holes.
- Additional plastic mouldings available (minimum order quantity required).
- Option of 3D shaped and moulded signs available for large/nationwide projects (details on enquiring).

SUCKER FLAGS

63

PROJECTING SIGNS & FLAGS

Visible and versatile – inside or out.

- Ideal for chillers, product displays, static vehicles or windows.
- Polyester preprinted flags complete with black reinforced elastic hem.
- Simply secures to smooth surfaces such as glass, plastic or metal.
- Carbon fibre pole keeps flag tight and swivels in the wind.
- Adjustable angle and double sided print for 360 degree effectiveness.
- Quick and easy to change flags for new promotions.
- Kit includes pole bracket and flag.
- Black reinforced elastic hem provides optimum strength.

Ways to display:

Perfect for chillers and display cases.

Great for forecourts and showrooms.

Also ideal for use on shop frontages.

Item	Dimensions (mm)	Weight (kg)
Sucker Flag complete unit (flag incl.)	290 x 720	0.15

_

NOSCREWZ FLAG Patent No. 2443417

Ideal for glass mounting.

- Safe, tamper proof and secures on any smooth surface.
- Incredibly quick and easy to use, simply push onto surface and twist. No tools required.
- Kits include bracket, sectional pole, collar and finial.
- Suitable for internal and external use.
- Plain 'Display Flags' held in stock (780gsm reinforced light block PVC), ideal for vinyl application and available printed to order.
- Custom shaped flags also available (minimum order quantity 25)

How does Noscrewz work?

Simply twist back and pull upper or lower tab to release bracket.

* Care is required if using Noscrewz for oversized (wider and/or taller) flags. Unless the pole is shortened (use of fewer pole sections during assembly) we would only recommend flags in our standard 780gsm reinforced light block PVC up to a maximum of 0.25m² (less than 200g in weight).

Item	Dimensions (mm)	Colour	Weight (kg)	Order Code
Noscrewz Flag Kit (bracket, pole, finial and collar)	Bracket: 90 (w) x 150 (h) Pole length: 150/300/450/600/750 Pole diameter: 19	White	0.4	NOSCREWZ2

64

STANDARD FLAG KIT

For wall mounting.

- Tapered socket ensures excellent pole grip and prevents loss of flags in windy conditions.
- Suitable for screw fixing to walls.
- Kit includes polypropylene bracket, PVC pole, finial and collar.
- Plain 'Display Flags' held in stock (780gsm reinforced light block PVC), ideal for vinyl application and available printed to order.
- Custom shaped flags also available (minimum order quantity 25).
- Marine grade polyester stitching ensures for complete pole/flag security.

FLYING BANNER SELECTION TOOL

Flag Materials

Our standard flag material is a 115gsm 'close-weave' knitted polyester textile, chosen for its durability and image vibrancy. For optimum performance, a 135gsm 'airmesh' material is also available which, thanks to small holes in the fabric, presents less resistance in the wind.

Flag Pole Sleeves

As standard, our flags are supplied with printed, nonelasticated wrap-around pole sleeves, giving maximum possible printed display area. For extra durability, we also offer a reinforced elasticated black sleeve. We recommend this for flags in exposed and unattended locations, such as roadside and 24/7 retail sites.

Standard 'close-weave' polyester flag material (115gsm).

Printed wrap-around sleeves fitted as standard on all Flying Banner flags.

Optional 'airmesh' polyester flag material (135gsm).

Optional black reinforced elasticated sleeve.

Neoprene O-rings

grip inside the

carbon fibre pole.

Machined

steel casing.

68

Dye Sublimation Printing

All Flying Banners are printed by a dye-sublimation process which uses special inks and a post-print heating process to 'fix' the ink into the fabric, making it resilient and washable as well as maximising the mirror image show-through on the reverse.

Outdoor Performance

Naturally, Flying Banner life span depends on how and where they are used.

Teardrop flags generally last longer than Feather flags as the banner fabric is held in tension and experiences less movement.

Whichever style you choose we recommend taking them in overnight and avoid use in inclement weather (i.e. 24+ mph wind speeds/Beaufort scale 6). Failure to do so will significantly shorten the lifespan of the product.

* Flag templates available on request, if own flag production preferred.

Anatomy of our Bearing Spindle

Engineered for optimum flag life and performance

Our stylish and intelligently engineered steel bearing spindle features in all our Flying Banner mounting accessories (see pages 73-75). It allows friction free flag rotation, so flags can easily align themselves in the wind, minimising banner turbulence for best visibility and reducing strain on the flag to maximise lifespan. Collar prevents dust and water ingress.

Twin ball race bearings provide free rotation to diffuse wind load on banners.

Metric thread attachment for universal fit across all mounting accessories.

Fast Delivery

FEATHER FLYING BANNER

Feather shaped banner which flutters and rotates in the wind.

- High strength sectional carbon fibre pole.
- Market leading detail, quality and performance.
- Printed flags in standard or airmesh polyester textile to order.
- · Choice of mounting accessories available.
- Printed, non-elasticated 'wrap-around' pole sleeves giving maximum possible printed display area as standard.
- · We recommend an elasticated black pole sleeve for increased durability.

Showing black reinforced elasticated pole sleeve and Base Plate

Black canvas bag supplied with each pole includes compartments to store flag, ground spike and water bag.

Adjustable draw string tethers for optimal tensioning.

Ground Spike

In stock

- Steel spike for soft ground or sand.
- Bearing spindle for smooth flag rotation.
- Male pole connections with '0' rings provide a perfect and secure fit as well as offering free rotation to deflect wind loading.

Recyclable

n stock

Wheel Base

- Black powder coated steel feet with chrome plated steel bearing spindle (total weight 4kg).
- Folding design for easy storage.
- 'V' shape allows base to be wedged under any parked vehicle wheel (or driven onto).
- Suitable for all tyre sizes.
- Conversion kit with appropriate poles, gives full height visibility and provides flag clearance away from the vehicle's bodywork (available for small and medium only).

Concrete Base

- Heavy duty 67kg base solution ideal for semi-permanent positioning.
- High quality low friction bearing spindle for smooth flag rotation.
- Spindle assembly comes with 4 bolts and spanner (concrete base pre-threaded).
- Lever points provided for ease of movement.

Tank Base

- A purpose designed water or sand fillable base with our leading low friction bearing spindle for all flag sizes.
- Far superior to alternative 'parasol' base offerings.
- 14 ltr capacity, for water or kiln-dried sand.
- Made from high density polyethylene (HDPE).
- · Designed for ease of handling even when full satisfies manual handling guidelines.
- Stackable design second tank (part FBSMTK) recommended for large flags outdoors. Provides up to 40kgs of ballast but remains easy and safe to carry in 2 parts.
- · Built-in carry handle for ease of movement.
- Screw cap for ease of filling.

MOUNTING ACCESSORIES FOR FLYING BANNERS

enquiries@signwaves.co.uk

Wall Mount Bearing Spindles (Angled & Vertical)

- High quality, carefully engineered bearing spindle mechanism enables the use of flying banners from a wall situation without having to use floor space.
- · Black powder coated gloss finish mount.
- 360 degree rotating spindle mechanism allows banner to move with the wind.
- Fixings are not supplied and appropriate screws should be selected to ensure the bracket is held safely in place.
- Angled Wall Mount Bearing Spindle is angled at 25 degrees and ideally suited at mid to head height to allow clearance of the printed flag from pedestrians.
- Angled Wall Mount Bearing Spindle is suited to small flags only.
- Vertical Wall Mount Bearing Spindle is suited to low walls where the banner can fly freely above the top of the wall.

In stock 10 minutes to Fully assemble Recyclable

Base Plate

- Stylish low profile base solution for interior applications only eg. exhibitions, retail, malls, showrooms, sport and leisure venues.
- Matt black non reflective base finish.
- Integral spigot grip-feature holds pole/flag position and desired 'best line of view'.
- Unobtrusive low-profile height Base Plate sits just 9mm above floor.
- 3mm thick foam foot pads provide floor protection and ease lifting.
- 2 sizes: Small Base Plate for all small flags and Large Base Plate for all medium and large flags.
- Allen Key tool included to fix spigot to base.

GIANT POLE

Huge attention grabbing outdoor display.

- High impact display for 1.1 x 4.1m textile flag.
- · Ideal for forecourts, shopping centres, exhibitions and events.
- 2-part water fillable polyethylene base for optimum stability.
- Telescopic aluminium pole with silver anodised finish (54mm diameter at base).
- Printed flags available to order (single and double sided).
- Printed by dye sublimation see page 179 for more details.
- No tools assembly.

Double Sided Flags

A twin layer of standard polyester fabric with central liner allows different designs on each side and a good level of opacity. Due to the added weight, double sided flags will not flutter in the wind in the same way as standard flags.

360° rotating flag arm.

Snapframes

Frameworkz	• Security	• Lockable
Counterstand	Cable Suspended	• Minimus

We have one of the largest ranges and stocks of snapframes in Europe. We are very competitive, however our price is not at the expense of quality.

When you are thinking of buying a snapframe from elsewhere, particularly for outdoor use, ask the supplier if the poster cover sheets are UV stable. In other words, can they guarantee that the cover sheet will not tarnish within 6 months due to sunlight? We can! It is important for the customer whose main interest after all is an optically clear view of their poster message and branding.

We manufacture a wide variety of non-standard sizes and quantities, with no minimum order quantity. Fourteen stock finishes support our **express made to order service**, which commits to turnaround small quantity orders within 3-5 days.

We also provide a **custom manufacture service**, which offers a further 74 RAL colours and over 20 BS 4800 colours. This service is offered in a range of frame profiles with the standard, security and lockable styles. Minimum order quantities may apply in some cases.

SNAPFRAMES

79

SNAPFRAMES

Wide range of styles

All our Snapframes feature:

- Quick and easy poster change.
- When closed, all fixings and opening methods are hidden from view.
- Silver anodised finish as standard (unless otherwise stated).
- Anti-glare poster cover sheets.
- · Pre-drilled and individually boxed with screws and wall plugs.
- White or grey plastic back panels depending on size/style.
- Suitable for indoor or outdoor use. Note poster cover sheets are not fixed and in high winds can become dislodged, wider frame profiles provide better poster security.

For added security, see our Security (P. 86) and Lockable Snapframes (P. 87).

Front opening snapframes for quick and easy poster change.

STOCK FINISHES EXPRESS MADE TO ORDER SERVICE

Snapframes to match your branding.

- No minimum order quantity.
- Fast lead times typically, 1-10 frames (3-5 days), 11-25 frames (5-7 days).
- Almost any size (minimum poster size: 210 x 210mm).
- Oversize frames (>1.5m²) may require collecting by customer if too large for our parcel delivery provider or for palletising.

CUSTOM MANUFACTURING SERVICE

Vast range of colours and finishes available

(minimum order quantity may apply in some cases).

Almost any size From A6 (105 x 148mm) poster size.

Range of frame profiles All standard, security and lockable styles.

12 stock finishes plus silver anodised in a selection of profiles to support our *Express Made to Order Service*.

The lowest cost snapframe in the world.

Minimus Snapframes may not have a back panel but they provide a great way to display posters, advertisements and information on flat surfaces.

Our patented corner mouldings and high strength serrated springs keep the frame strong, secure and dependable.

- · 25mm silver anodised profile.
- 4 stock poster sizes: A4, A3, A2 and A1.
- UV stable anti-glare poster cover sheet.
- Suitable for screw fixing or adhesive mounting (each unit individually boxed with set of screws, wall plugs and adhesive pads).
- If used outdoors laminated posters are recommended.

Fix in place.

Insert poster and cover sheet.

Close the sides.

FRAMEWORKZ Patent No. 2464696

Unlike any other poster frames available, Frameworkz Snapframes can be digitally printed with almost any design.

From logos and text to images and patterns, the choice is yours and the opportunities are truly endless.

- Front opening aluminium snapframes for quick and easy poster change.
- Suitable for external use (2-3 years in temperate climates).
- Minimal distance between frame and poster allows design to 'cross over'.
- Anti-glare 500 micron PET poster covers as standard or optional 750 micron gloss clear polycarbonate at additional cost.
- Pre-drilled for wall mounting.
- Available in any frame size from A3 to 40" x 60".

Poster Size	Display Area (mm)	O/A Dimensions (w x h mm)	Profile Depth (mm)
Any size from A3 to 40" x 60"	Poster -31.5	Poster +79	15

Due to frame cutting and artwork tolerances of +/- 1mm, a visible 'step' across the mitred corners is sometimes unavoidable. Designs featuring straight lines across the corners will be particularly prone to this.

Non-Illuminated Poster Frames & Noticeboards

Slimlok Poster Case	• Slimlok Menu Case	• Slimlok Noticeboard
• Hi-Sight	• Headliner	• Poster Pillars

Our selection of Non-Illuminated Poster Frames and Noticeboards offer an array of solutions for poster, banner and menu presentation.

The range includes our market leading **Slimlok Menu Case**, great for temporary poster promotions. Our original **Slimlok Poster Case** offers retailers a truly lockable display solution. Both are available in a range of standard sizes in a choice of up to 8 stock colours with no minimum order quantity. Additional colours, bespoke sizes and even permanent branding can also be accomodated, although minimum order quantities may apply in some cases.

Our innovative **Headliner** makes window displays professional, presentable and cost effective. Commonly seen in convenience stores, post offices and supermarkets, the **Headliner** provides an updateable poster display for windows, doors and clear surfaces.

SLIMLOK POSTER CASE

Stylish poster display cases with lockable doors.

- 52 x 30mm profile durable aluminium frame.
- Vandal resistant 1.5mm polycarbonate glazing panel.
- Internal clips hold posters securely in place and allows for quick and easy poster changes.
- Ideal for outdoor use.
- Door stays supplied as standard on silver units at A1 or larger (optional on black units).
- Each poster case supplied with a set of keys.
- For added security, poster sizes A1 and larger have two locks.

Recyclable Aluminium frames and PETG Panel

Thanks to its unique 'pull down' poster cartridge, the Hi-Sight has many advantages over traditional poster frames.

- Can be mounted up to 3 times higher than a regular frame.
- Quicker, easier and safer, no need to stretch or use ladders.
- Reduced risk of tampering and vandalism.
- Hard wearing aluminium frame.
- Fixed polycarbonate cover with magnetic seals, virtually no risk of poster loss.
- Excellent weather resistance.
- Suitable for indoor and outdoor use.
- Hidden pre-drilled holes, ready for wall mounting.

Apply finger pressure just above border and lift.

Internal frame detail.

Ideal for out of town retailers. The Hi-Sight maximises visibility of store front promotions – vital in the drive for greater awareness and increased sales.

Traditional frames - low visibility.

Hi-Sight – high visibility!

Posters are held in place by 4 'pinch' holders on top of cartridge

Open 'poster-pinch' mounts Place poster within 'poster-pinch' opening.

Close 'poster-pinch' mounts to pierce and grip poster.

Illuminated Poster Frames, Noticeboards & Displays

• Edgelit XT	Slimlok Illuminated Menu Case	• D-Light
• Freelight Plus	 Hi-Light Menu Stand 	• Illuminated Totem

Our **Freelight Plus**, the simplest in-store illuminated display at one end of the range (without an electrical component in sight!), to the LED illuminated **Edgelit XT**, with it's exceptional brightness levels, build quality and style.

Low voltage LED illumination features across many of these elements. LED's bring key benefits; quick and easy installation, low power consumption and maintenance-free longevity, all combine to deliver eye catching displays with low running costs built in as standard.

LED & FLUORESCENT LIGHT INFORMATION

What's the difference between Fluorescent Lights and an LED?

Our range of illuminated displays incorporate LED or Fluorescent tube lighting depending on the size and structure of each unit. Lamp options are carefully considered during the design of our products to ensure for optimal, efficient and even illumination.

Benefits of Fluorescent tubes:

Fluorescent bulbs are typically used to light up full rooms, so you can ensure for a full and concise illumination from your display. Although they have a slightly higher energy consumption than their LED counterparts, they can still provide over 10,000 hours of illumination before needing to be replaced.

Benefits of LED lighting:

LED stands for Light Emitting Diode and converts electricity into a super-efficient, long lasting and instant illumination. They have lifespan of around 50,000 hours before needing to be replaced – which converts to around 6 years of constant illumination. LED also use 90% less energy than Fluorescent bulbs, providing retailers with a cost efficient illuminated option.

BEST BUY LEDBOX

Stylish super-slim LED interior light box

- Slim profile single or double sided snapframe LED interior light box
- Front opening snapframes for quick and easy poster change
- Maintenance free Osram LEDs for even white illumination and 50,000+ hours longevity

- Self-adhesive strips at top and bottom for easy banner installation.
- Silver anodised aluminium case, top rail, pole and folding feet.
- Complete with black padded carry case and full instructions.
- Available with digitally printed 'standard' 220 micron (0.22mm) rigid PVC or 'premium' 165 micron (0.165mm) polyester film banners.
- Hardware refined for the best flat & vertical banner presentation.

Adhesive top rail bonds to rear top edge of banner.

n stock

'Top-hat' pole/top rail connection.

Black padded carry case included with each unit.

1 minute to assemble +4 minutes if banner is not pre-loaded

Recyclable

Please note:

The Eco Roll-Up Banner is designed and built to a market-leading price and the savings derived from the use of lightweight materials and high speed assembly methods to achieve this can result in minor marks or irregularities in the product finish.

Banner Materials:

We recommend smooth surface, lightweight rigid roll materials for Eco Roll-Up Banners, such as 125 micron grey back polyester or 220 micron matt opaque PVC. Flexible, reinforced PVC banner materials have a textured surface and/or incorporate polymers which can react with adhesive tape so should be avoided. Do not use materials more than 300 micron thick.

ROLLSBY

All round value roll-ups don't come any better than this.

- A useful promotional tool with little hardware costs.
- Single sided roll-up for interchangeable banners.
- Top 'clamp rail' and bottom Velcro strip makes banner installation and update a simple process.
- Two spare self-adhesive velcro strips supplied with each unit for future banner updates.
- Telescopic pole for 1550 1990mm height adjustment.
- Stylish silver anodised aluminium casing with black end caps and pole fittings - tough and hard wearing.
- · Central stylised chrome foot.
- Premium padded carry case included with adjustable carry strap.
- · Available with digitally printed 'standard' 220 micron rigid PVC or 'premium' 165 micron grey-backed polyester film banners.
- · Premium banners prevent poster curl and are recommended for regular use.

Stylish chrome foot

Top clamp rail includes black push-fit end caps.

Chalkboards & Accessories

Chalk Insert Panels
Grip Chalkers
Counter/Table Top Chalkboards

This range includes everything from wall-mounted **Slatted Boards** to **Counter and Table-Top Boards**.

Combined with the modern benefits of liquid **Chalk Pens**, Chalkboards offer traditional marketing charm with instant message change flexibility, making them perfect for menus and short term promotions in pubs, restaurants, cafes and other hospitality venues.

CHALKBOARDS & ACCESSORIES

HIGH PRESSURE LAMINATE (HPL) CHALKBOARDS

ABOUT HPL

Our remarkable High Pressure Laminate (HPL) chalkboards are capable of almost limitless use and application.

- Stays looking new for longer and never needs re-painting.
- Easy to clean with water and household cleaner.
- Weather and scratch resistant anti-glare surface.
- Suitable for use with traditional chalk and liquid chalk pens.
- Direct to surface screen and digital printing available.
- Available in a range of thicknesses: 2, 3, 4 and 6mm.

HPL's hard wearing, maintenance free properties make it ideal for both internal and external use. The specially formulated melamine surface means your chalkboards stay looking new.

- Available in 2, 3, 4 and 6mm thicknesses.
- Virtually any size and shape.
- Drilled ready for wall mounting.
- Available plain or printed, single or double sided.

Made to order Minimum order quantity 10 plain or printed.

Waterproof chalkboard pens.

- Pens are rainproof after just 1 hour yet erasable with a damp cloth.
- Superior colour vibrancy and outdoor durability shown from our independent outdoor tests.
- Top tip... Mr Muscle 'window' is an excellent chalkpen cleaner.

- 3mm High Pressure Laminate with round tops as standard.
- · Suitable for traditional soft chalk and liquid chalk pens.
- Square top and custom shaped panels available made to order (minimum order quantity 25 and 50 respectively), with optional handle cut outs.
- Direct to surface printed panels available made to order (minimum order quantity 25).

Bases

- Aluminium with silver anodised finish as standard.
- Spring powered grip-action simply open by hand, insert panel and release.
- Suitable for self-adhesive vinyl, 'polydome stickers' or pad-printed graphics.
- Maximum pad-print height: 15mm. Minimum order quantity 50.
- Available in custom sizes, colours and finishes made to order (minimum order quantity 100).
- These bases are suitable for almost any rigid sheet material between 1-4mm thick. E.g. acrylic, PVC, PET and foam PVC.

Simply grip the base open and insert the chalkboard.

Spring powered 'grip-action' bases.

Bases available seperately for your own sign panels - see Sign Holders on page 171.

SLATTED CHAIN BOARD

The Slatted Chain Board's unique design allows individual panels to be removed without interfering with the rest of the display.

- High Pressure Laminate chalkboard panels, suitable for traditional chalk or liquid chalk pens.
- 6 x 3mm (thick) slats, each with 500 x 83mm writing area.
- Available as reverse individual slats or whole board.
- Overall size: 550 x 935mm (header 210mm deep at centre).
- Header and footer panels allow for branding of the board.

Ideal for wall mounting.

Also suitable for double sided display.

Individually reversible slats.

Made to order Minimum order quantity 10

SLATTED MAGNETIC BOARD

Remove and re-arrange magnetic strips in seconds.

- High Pressure Laminate chalkboard panels, suitable for traditional chalk or liquid chalk pens.
- 6 x 2mm (thick) slats, each with 500 x 85mm writing area.
- 3mm back panel provides header and footer space for additional message/branding, plus option to reverse for use as a single panel display.
- Overall size: 500 x 800mm.

Individual magnetic slats.

Reverse for single chalkboard display.

Made to order Minimum order quantity 10

Sign Holders

Premier A-Board Frame

Grip-Action Bases

• Pivot Grippers

This range includes **Stand-Off Sign Fixings** that add prestige to any wall mounted sign. They assist mounting on to uneven surfaces, and ensure no visible dirt build-up behind a clear sign panel. Available from stock in two popular sizes and four finishes.

Another key product in this category is the **Premier A-Board Frame** available by popular demand. Our two stock sizes allow you to make up A-Boards with a variety of sign panel materials simply and cost-effectively. It also has the benefit of our unique, hard wearing rubber hinges that set it apart from other A-Board designs.

STAND-OFF SIGN FIXINGS

Add an architectural finish to any mounted sign panel.

As well as providing an attractive stand-off feature for any sign panel material, these fixings will accommodate any uneven wall surface. This could include any texture or render present on brick or stone walls.

Fixing sign panels forward from walls allows air to move freely across both the front and rear - eliminating condensation or any noticeable dirt build-up from behind. This is essential for clear sign materials (like glass or acrylic) so that the message is always visible.

Our fixings have no apparent screw heads, so this concealed mounting method acts as an effective tamper deterrent.

- Enhance the appearance of any sign panel.
- Hold sign panel thicknesses from 2mm to 12mm.
- Supplied in pairs in protective polythene enclosures.
- Screws and wall plugs are not included (since no two surfaces are ever the same, fixings should be selected to suit).
- Use 321 grade Stainless Steel stand-offs for long life in all external locations.

PREMIER A-BOARD FRAME

Take the leg work out of sign making.

- These frames offer excellent outdoor life thanks to their all-steel construction with Satin Black polyester powder coat finish. They are available in two sizes (small and large).
- Fully assembled ready for your slide-in panels.
- Will accept various panel materials up to 3mm thick (for small frames), or 4mm thick (for large frames).
- The slide-in design means panels are reversible, offering twice as much promotional opportunity.
- Possible panel materials include: ACM, Foam PVC, Acrylic and HPL.
- · Hardwearing rubber hinges also provide selflevelling benefit for stability on uneven surfaces and a comfortable hand hold when carrying.
- Other colours available made to order (minimum order quantity 25).

Stylish locking side arm on both sides.

Hardwearing rubber hinges.

Simple slide-in panel design.

Other colours available made to order (min. order quantity 25).

Size	O/A Dimensions (w x h x d mm)	Weight (kg)	Colour	Order Code

GRIP-ACTION BASES

Spring powered bases – open by hand, insert panel and release.

- Aluminium with silver anodised finish as standard.
- Spring powered grip action simply open by hand, insert sleeve and release.
- · Holds all materials up to 4mm thick.
- Suitable for self adhesive vinyl, polydome 3D stickers or pad printed graphics.
- Maximum pad print height 15mm. Minimum order quantity 50.
- Available in custom sizes, colours and finishes made to order (minimum order quantity 100).

Take a look at our GripChalkers (P.163) and **GripTalkers** (P.143)to see these bases in action.

Simply grip the base open and insert the sleeve

PIVOT GRIPPERS

Showcard mounting – ideal for chillers, product displays, shelving gondolas and counters.

- Simply stick to any smooth surface, insert your promotional material and angle as desired.
- Clear polycarbonate design ensures nothing spoils the view of your showcard or product information.
- Accepts card and other sheet materials between 0.8 and 2mm thick.
- Strong 3M self adhesive mounting pad sticks reliably to varied smooth surfaces.
- Adjusts 190 degrees through 10 positions for the very best display angle.
- Why not order showcards and pivot grippers together? The complete solution!

190 degree range of display angles.

Dedicated Customer Service

Print Services

Colour Management

• Digital Printing

Screen Printing

• Dye-Sublimation Printing

• Varnish Over-Print

In addition to plain off-the-shelf units, we also offer a full in-house printing service, helping you to save time and money on all printed requirements.

Our production facility offers a broad range of printing options. Including traditional screen, digital and dye sublimation print processes.

Following an extensive period of research and testing, we have recently invested in new, state of the art, digital print equipment to ensure we continue to be able to deliver stunning print output at an affordable price.

For more information on our printing services and capabilities, speak to our sales team.

A BIT ABOUT PRINT

From our 67,000 square foot production facility, we offer screen, digital and dye-sublimation print supported by a variety of finishing processes.

Despite the rise of digital print technology, our screen printing department is as busy as ever. These two print processes very much complement one another to offer your customers the best of both worlds.

The inks we use across all processes are generally ecofriendly water-based and UV cured, offering a minimum of 2-3 years of outdoor life. An extended life of 5+ years can be achieved from solvent based screen inks for more permanent signage installations.

COLOUR MANAGEMENT

As part of our ISO and quality management system, we operate an advanced ColourServer colour management device. This helps to standardise colour profiles and printer calibrations for different output devices. Although fairly typical in the off-set/Litho print media sector, systems such as this are far less common, but no less important for large format and digital print.

Advantages of our print quality management systems:

- Consistent colour reproduction across different medias and outputs.
- Improved quality such as optimised matching of Pantone colours from CMYK/mixed colours digital output.

This system is also used to calibrate monitors in our artwork and print studio. This allows for us to produce reliable visual representations that you can forward to your customers for proofing.

177

PRINT SERVICES

DIGITAL PRINTING

The benefits of offering your customers digital print:

- No minimum order quantity.
- Prototypes and samples available.
- Allows for print onto unusual and uneven materials.
- High resolution looks great up close.
- Multiple/variable designs in a run.

Digital printing offers faster turn-around and lower cost than screen on smaller runs because set-up times are minimal. Your digital artwork files once checked are 'ripped' to one of our state of the art flat-bed or roll-fed printers which print all colours in a single pass. We control output definition and ink percentage depending on intended use or viewing distance.

Our state of the art flat-bed printers are able to offer a variety of finishes including spot varnish. For further details talk to our sales team.

It is very common for us to print a mixture of digital and screen processes to optimise the result and to produce the perfect reproduction of your customer's artwork. Digital is added for full colour elements and screen to add spot Pantone colours and/or varnish.

SCREEN PRINTING

The benefits of offering your customers screen print:

- Precise Pantone or spot colour matching.
- Bold, vibrant colours and text due to thicker ink deposits.
- Simple spot or line colours.
- Extended outdoor life.
- Adding varnish to screen or digital print enriches colour, adds a gloss finish and increases protection.

The screen print process is very different to digital. Because each colour in the design has to be printed separately, a film stencil (screen) needs to be produced for each colour present in the design.

We manage artwork files and colour separations in-house and produce our own films and screens.

DYE-SUBLIMATION (TEXTILE & FABRIC) PRINTING

Dye sublimation is a method of printing that forces a layer of ink onto a surface via the use of heat. It is used widely and especially for textiles (soft signage) to produce flags, banners and retail/ exhibition graphics.

Benefits of dye sublimation:

- Is highly scuff resistant as a result of being 'fixed' into the media.
- Produces graphics on textiles that can be washed and folded without fear of damage.
- On thinner fabrics it produces excellent show-through. Ideal for double sided flags.
- Dye sublimation can be applied via either digital or screen printing processes. However, quantities less than 100 are generally digitally printed.

VARNISH OVER-PRINT

Although varnish is not essential, we recommend it for signage intended for outdoor use. As digital print is naturally matte, the finish is more inclined to attract dirt, this will ultimately dull the overall image. Adding a varnish over-print to your customer's artwork will ensure for a brighter and more attractive external display.

Benefits of varnish include:

- Enriched colour vibrancy and depth.
- · Added protection from dirt and atmospheric pollution.
- Will help to repel dirt and keep the print looking brighter longer.
- Improved scuff and scratch resistance.
- Improved resistance to chemicals and solvents.

DEALER/STOCKIST SIGNS

Create eye-catching product awareness in any environment.

Stockist signs draw attention and create brand presence. The use of shape-cutting and/or stand-off mounts can also amplify visibility. Combinations of components will create added function alongside vibrant print, eg. 'Information Displays'.

Materials can be selected for their specific qualities, ease of use and to suit a targeted display situation whether for interior or exterior locations

- · Versatile size and shape
- · Cost-efficient materials available, such as polypropylene, Foam PVC or PET
- · High quality options of acrylic, polycarbonate or aluminium
- · Completed with pre-drilled holes, ready for mounting

Stand-off mount

Stockist wall sign

Made to order Minimum order quantity 25.

PVC BANNER

High-impact printed display suitable for internal and external use.

- Available for the full range of popular banner sizes; from Im x Im up to Im (wide) x 5m (long)
- Option of custom-sized banners up to a maximum size 3m (wide) x 20m (long)
- Choice of 3 different banner materials including a double-sided print capability
- Folded welded hems provide a double strength perimeter for optimal wind load/ tear resistance
- Corrosion-free metal eyelets are fitted as standard for each PVC Banner
- Supplied with 300mm translucent white nylon cable ties- extremely secure, quick and easy to use to achieve the best banner appearance
- Individually poly-bagged, provides protection through storage and distribution

Front-Lit PVC 440gsm

Our most popular banner material for single sided print only. Front-Lit banners suit fence and wall-mounting locations.

182

PRINT SERVICES

Silver finish metal eyelet.

All banners supplied complete with tie-wraps.

Our highest performing banner

Light Block 440gsm

material, Light Block PVC provides excellent colour vibrancy and a long lasting performance. A light-block layer incorporated within the material prevents 'show-through'. Ideal for either single or double sided print.

Mesh PVC 500gsm

Provides a semi-permeable surface to allow some air to pass through, making it well-suited for windy locations eg. seafronts & site/event fencing. Full colour print is available on single side.

RECOMMENDED POSTER MATERIALS

To ensure best performance against condensation/moisture ingress in outdoor poster advertising, we recommend:

For 1-3 months life

Wet strength, water resistant or waterproof paper (115-200gsm)

Additives included during paper manufacture prevent the paper from breaking apart when in contact with moisture, ensuring it remains strong and stable. These are common specifications for short to medium term poster campaigns and billboard advertising.

For 3 months+ life

Lamination

Encapsulating a paper poster in thin sheets of clear plastic. This is a common means of protecting posters for outdoor use when water-soluble inks are used. Delivers reliable performance if the encapsulation is made to seal around the whole perimeter of the poster.

Printing onto plastic

Synthetic Paper (80 micron minimum thickness polypropylene), sometimes termed 'Poly Poster', or 220 micron PVC are cost effective alternatives for longer-life applications e.g. displaying a business service offer, restaurant menus or repeating seasonal promotions.

Maximise your poster performance with our design tips

- Use font in lower case with 80mm+ height for fast recognition.
- Simple typefaces make message clearer avoid serif typefaces and italics.
- Amplify images and messages by using outline silhouette and drop shadow effects.
- Reduce heat absorption (solar gain) on outdoor poster signs by limiting regions of dark colour print.
