

A CLEARER VISION FOR THE PERFECT FINISH

# Neptune

fully automated B3 laminator

The Neptune is a fully automatic laminator for sheets up to B3 size. Compact and easy to use, the Neptune is designed with today's short run print-on-demand market in mind.

Its features make it equally adept at running both digital and lithographic output.

The suction feeder offers a deep pile for longer run work and is easily adjustable for a variety of different sheet sizes.

A missing sheet detector helps to prevent unwanted wraparounds.

The centralised control panel offers ease of operation.

The mandrel has a hinged support and provides a handy storage for the T-bar Allen key.

A decurl bar, which may be altered on the run, is fitted to assist in giving a flat result.

The positioning of the perforator overcomes any potential issues caused by poor film roll profiles and allows greater speed and decurl angles minimising web breakage.

The electronically adjustable burster automatically separates sheets up to B3 size whilst fans provide a cushion of air to support the sheet as it is delivered into the catch tray.

The standard catch tray may be adjusted to suit various sizes.
