SIGSIGNET®
S I G N S Y S T E M

WELCOME TO SIGNET SIGN SYSTEM

SIGNET's incredibly flexible sign systems provides cost-effective production of both standard and custom signs. Our wide range of multi-functional aluminium profiles enables creative design solutions for both interior and exterior signage. Our systems feature smart solutions for replaceable paper, plastic, tactile/braille and aluminium inserts; for quick and easy update of sign information.

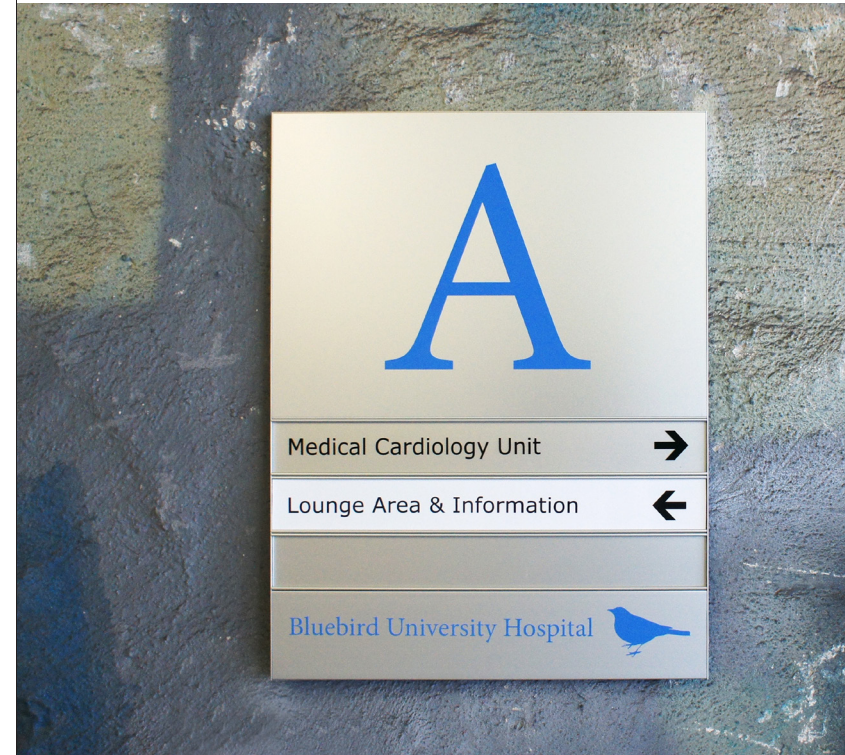

The SIGNET Sign System suite includes seven different designs – all with their own unique features – to meet all your requirements of functionality, as well as providing a plethora of design possibilities.

Welcome to SIGNET – your partner in sustainable sign solutions,

Lennart Hedlund
Founder SIGNET Sign System

FLEXI SIGN SYSTEM

SIGNET's extremely flexible sign system FLEXI, is a flat frame system which works perfectly for multiple sign applications. This sign system's adaptable construction builds custom signs in any format.

FLEXI's grooved frame profiles support replaceable paper, plastic, aluminium and tactile/braille inserts. And due to the systems frame structure it creates lightweight signs, perfect for all kinds of suspended signs. FLEXI is completely customizable and suitable for interior and exterior signage

FLEXI works great for wall mounted signs, flag, and hanging signs, and pylons.

TOTEM SIGN SYSTEM

The TOTEM sign system is designed for production of larger durable freestanding signs for both indoor and outdoor signage. The grooved side profiles support full-sign-size aluminium sheets, or custom size aluminium panel rows.

TOTEM are available as elevated signs on two leg or full length signs with supporting base plate or ground casted, with the choice of curved or flat finish and custom height, up to 6 metre.

Integrated with our systems SLIM and/or CONVEXA a flat TOTEM construction can also offer sign rows with replaceable inserts, for easy and cost-effective information update.

TOTEM is a fitting choice for wayfinding, directory or information signs in public places, office spaces, or any bigger indoor or outdoor location.

Indoor signage

Outdoor signage

cium fugiantio molupta ssuntendante
et imi, eostion consequam as excea

etusa dolupta sitate latur? Ur rendu-
cium fugiantio molupta ssuntendante
et imi, eostion consequam as excea

By complementing a flat TOTEM construction with sign rows from our systems CONVEXA or SLIM, the sign will get our replaceable insert feature.

Sign information can easily be popped out, updated or replaced.

RETAILER DEMO KITS

DEMO CASE

A practical and complete demo kit with eleven sample sign representing all SIGNET's sign system solutions, in a lightweight easy-to-bring case.

Including samples of nameplates, pictogram, flag, desk, door and suspended signs. The case also includes two size suction cups, for demonstration of the SIGNET replaceable insert functions for easy and cost effective update of sign information.

DEMO DISPLAY – SLIM

Seven sample signs from our flat sign system SLIM, displayed collectively on a stylish grey felt board. Including pictogram, Vacant/Occupied-slider and name plates in three sizes, all with replaceable paper inserts and antireflective plastic cover. Plus signs with A4 and A5 replaceable inserts.

All signs are mounted on the display board with velcro – easy to detach, demonstrate and reattach.

DEMO DISPLAY – CONVEXA

Eight sample signs from the CONVEXA sign system, displayed collectively on a stylish grey felt board. Including pictogram, Vacant/Occupied-slider and nameplates in three sizes, all with replaceable paper inserts and antireflective plastic cover. Plus signs with A4 and A5 replaceable inserts.

All signs are mounted on the display board with velcro. Easy to detach, demonstrate and reattach.
