

# NANOVIS BELLA DC-1300

*eco friendly ▪ clean ▪ efficient*

## HP INDIGO

**Cleaning device with recycling for HP-INDIGO specific printing machine parts**

Would you like to clean your HP INDIGO accessories quickly and thoroughly and at the same time be environmentally friendly and cost-effective? We have just the perfect solution for you!

The maintenance and cleaning of the relevant parts have an important influence on the good print quality of the HP INDIGO printing machine. The manually operated cleaning device **BELLA DC-1300** convinces by its simple handling and the generous working area.

Ink tanks, application rollers etc. are cleaned efficiently and sustainably with the HP specific Imaging-Oil. The high-light is the integrated recycling system, which continuously removes ink particles from the Imaging-Oil. This has the advantage that the dirty parts are always cleaned with a consistently clean Imaging Oil. This reduces operating costs and the volume of hazardous waste to a minimum.

With the **BELLA DC-1300** you have a very reliable and economical solution for the digital printer.

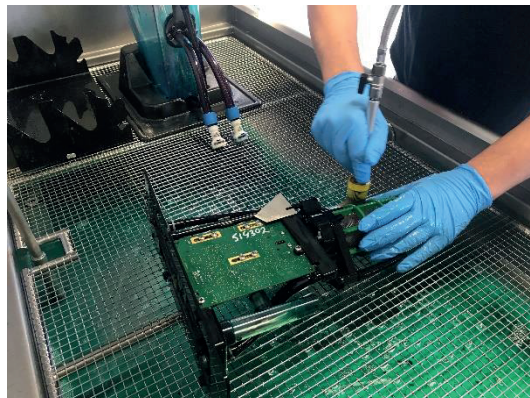

Technical Data	BELLA DC-1300
External dimensions l × w × h	1'340 x 800 x 1'530 mm
Effective dimensions l × w	1'280 x 670 mm
No. of paint application cassettes stations (optional)	2
Electric supply	230 V / 50 Hz 110 V / 60 Hz
Filling capacity HP-Imaging-Oil	approx.. 80 litres

## Easy cleaning

The manual cleaning device **BELLA DC-1300** enables you to remove the ink residues quickly and easily by means of a continuous brush. Thanks to the integrated recycling system you always clean with clean Imaging-Oil.

Due to the low emissions no air extraction is necessary. The system can therefore be installed flexibly and operated without further protective measures. The operation and maintenance of the machine are uncomplicated and thus keep your operating costs low.

---

## Protect Imaging-Oil consumption

The recycling system specially developed by NANOVIS permanently cleans the circulating Imaging Oil. This ensures a clean, economical and sustainable operation.

---

The **BELLA DC-1300** can also be used alternatively with NANOVIS cleaning agents for non-HP applications with solvent and UV inks.

**In use for the printing industry**

**We look forward to hearing from you!  
We will be happy to advise you!**
