

The free to use online utility asset search service

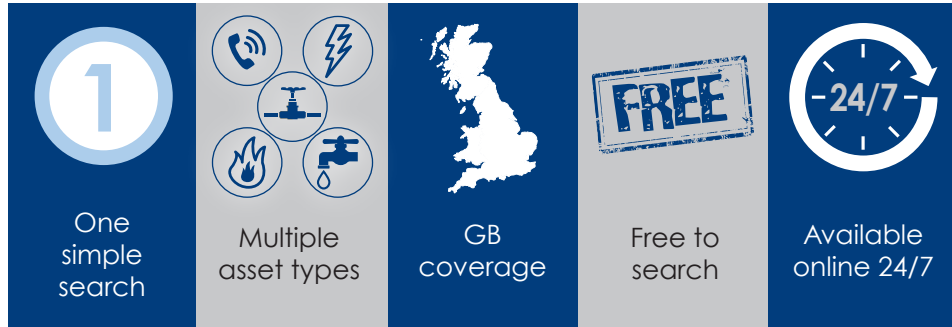

Protecting Lives, Cables & Pipes

lsbud.co.uk

what?

Free to use online search to check hundreds of thousands of kilometres of utility assets in a single enquiry

...the first step to utility strike avoidance

who?

Users

Any person involved in -

- construction
- excavations
- fencing
- ditching
- works likely to break ground

...of any scale from a highway scheme to simply replacing a garden fence

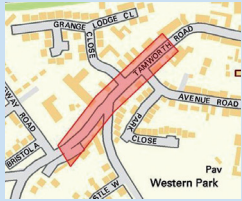

why?

how?

... 3 easy steps

1

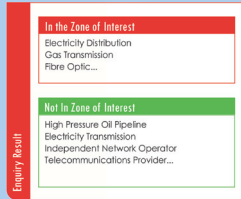

You provide a few simple details of your works and submit a free online enquiry

A couple of minutes

2

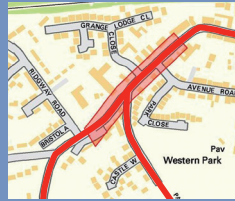

You receive an instant response showing which of our Members have assets near your worksite

A few seconds

3

Our members send you the plans of their assets relevant for your area

Most responses within 10 minutes*

*Some Members may take longer to assess your enquiry.

do

- Ensure a valid LSBUD enquiry is made for all works
- Carefully consider each asset owner's specific requirements and consult with them as required
- Adhere to industry standards and best practice guidance

don't

- Rely on old copies of plans which may be out of date
- Make assumptions of where utility assets might be
- Proceed without checking each asset owner's requirements

A 2 minute search to help keep you safe

£15 million

– the estimated cost of
hitting a high
pressure fuel pipeline

search for free at
lsbud.co.uk

1.6 million

searches conducted by our existing users per annum

It's quick, free and easy to avoid utility assets.
