

TRAFFIC & ROAD SAFETY PRODUCT RANGE

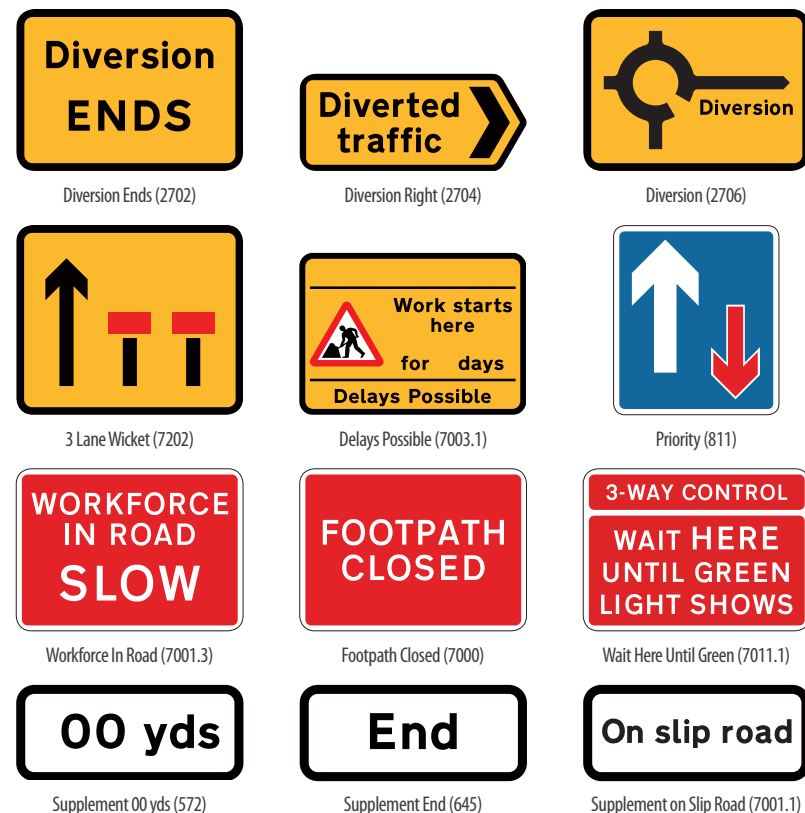

ROAD SIGNS

We offer our customers a comprehensive selection of road signs, keeping up to date with the latest legislation and complying with standards in both size and reflectivity. Our selection includes Temporary Road Signs, Cone Signs and Q-Signs. Bespoke signs and corporate branding is also available on request. Please contact our sales team on 01922 726726 to discuss your requirements.

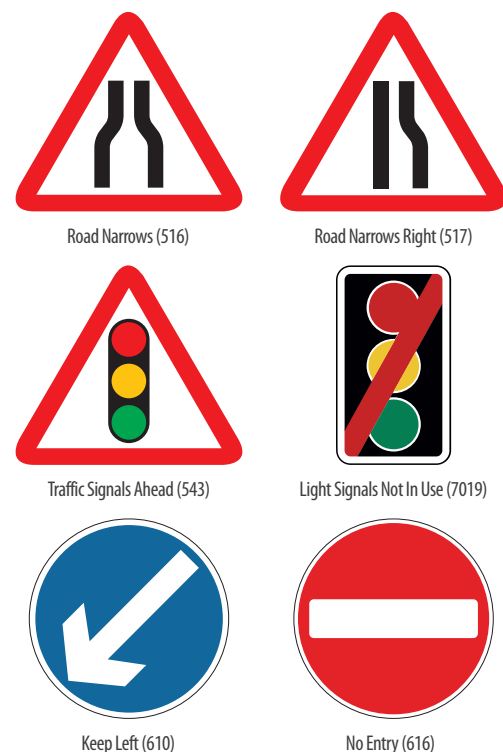

1 / TEMPORARY ROAD SIGNS

BCS temporary road signs comply with Class Ref 1 reflectivity meeting all the requirements of Chapter 8 for temporary road signs. Class Ref 2 is required for major carriageways in accordance with the DfT and offers enhanced reflectivity. Our signs can also be manufactured in other materials such as plastic, aluminium or GRP and are available to order.

Men at Work (7001)

Road Narrows (516)

Road Narrows Right (517)

Traffic Signals Ahead (543)

Light Signals Not In Use (7019)

Keep Left (610)

No Entry (616)

2 / Q-SIGNS

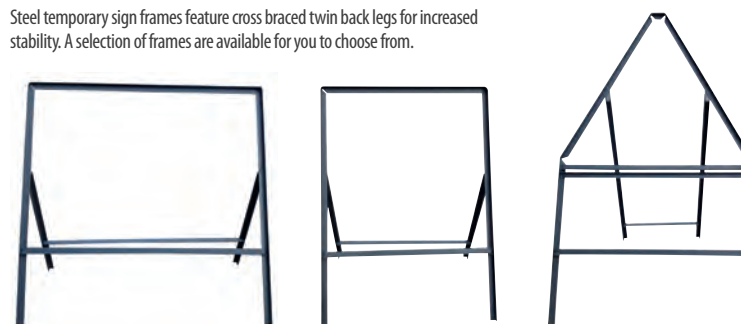

Q-Signs are the reliable choice for temporary plastic road signs. Designed and manufactured in the United Kingdom by Melba Swintex, Q-Signs make the ideal temporary plastic road sign and meet the UK industry standard requirements for road signage. These industry leading non-metallic road signs surpass even traditional metallic signs in a number of areas:

- Long life due to strong and robust design. Does not rust.
- Manufactured from recycled Polypropylene in grey.
- Excellent weight and footprint stability making them easy to handle.
- Non flammable. No sharp edges.
- Stackable for storage and transport.
- Supplementary plate available.
- Priced competitively.

3 / ROAD SIGN FRAMES

Steel temporary sign frames feature cross braced twin back legs for increased stability. A selection of frames are available for you to choose from.

5 / CONE SIGNS

A lightweight and rapid deployment sign that drops straight onto traffic cones and saves weight and storage. Manufactured from environmentally friendly recycled HDPE sheeting. Full Chapter 8 sets are available to order or individual bespoke signs can be made on request.

6 / STOP & GO SIGNS

Manufactured from recycled polyethylene, which is 100% corrosion and rot proof unlike metal or wooden components, therefore it is also a non-conductive product. With a 2-sided, one-piece head construction all surfaces are smooth without sharp edges or protruding bolts, clips or fasteners. The Stop/Go traffic sign is an extremely robust, durable sign which is both shatterproof and lightweight, providing ease of handling to benefit the operator.

4 / QUICK-FIT FRAMES

Quick-Fit frames are mostly used for high speed signs and are available in the following sizes. The frames are both durable and easy to use at the side of any high speed road.

SPECIFICATION / ROAD SIGNS

1 / TEMPORARY ROAD SIGNS

TRSSIG01	Temporary Road Signs – Triangular
TRSSIG02	Temporary Road Signs – Circular
TRSSIG03	Temporary Road Signs – Rectangular

2 / Q-SIGNS

QSISIG01	Q-Signs – Triangular
QSISIG02	Q-Signs – Circular
QSISIG03	Q-Signs – Rectangular

3 / ROAD SIGN FRAMES

RSFFRA01	750mm Triangular Frame
RSFFRA02	750mm Triangular Frame (with supplementary)
RSFFRA03	750mm Square Frame
RSFFRA04	600 x 450mm Rectangular Frame
RSFFRA05	1050 x 450mm Rectangular Frame
RSFFRA06	1050 x 750mm Rectangular Frame
RSFFRA07	900mm Stop/Go Frame

4 / QUICK-FIT FRAMES

QFFRA01	Baby – 600mm Quick-Fit Frame
QFFRA02	Mini – 900mm Quick-Fit Frame
QFFRA03	Midi – 1200mm Quick-Fit Frame
QFFRA04	WBM – 1500mm Quick-Fit Frame

5 / CONE SIGNS

CONSIG01	Cone Signs – Triangular
CONSIG02	Cone Signs – Circular
CONSIG03	Cone Signs – Rectangular

6 / STOP & GO SIGNS

LOLSIG01	Plastic Stop & Go Lollipop Signs
----------	----------------------------------

BESPOKE ROAD SIGNS MADE UPON REQUEST

There can be a number of reasons why you may need signs specifically designed, beyond the options that are manufactured as standard. BCS Group specialises in the design, production, and installation of quality bespoke traffic signs, safety signs and site signage.

Contact BCS to design and discuss your needs. Our sales team can be reached on 01922 726726 and will be able to help.

ROAD FURNITURE PEDESTRIAN BARRIERS

BCS Group offers a wide range of high visibility pedestrian barriers that are ideal for roadworks and events including a range that meet Chapter 8 requirements. Corporate branding is also available on most of our road furniture. Please contact our sales team on **01922 726726** to discuss your requirements.

1 / GATE BARRIER ▶

The Gate is one of the most popular blow moulded barriers. This superior blow moulded HDPE barrier offers superb quality at a low life cost.

- Incredible strength and durability
- Free standing with 360° swivel feet. Free from screws and rivets
- Stacks in 50mm (2 inch) with location (40 per pallet)
- Moulded in orange as standard, but can be coloured to suit
- A moulded lamp connector
- Barrier to barrier connection is quick and easy to use on uneven ground
- Manufactured in High Density Polyethylene
- Company identification can be embossed and coloured feet if desired

SPECIFICATION / PEDESTRIAN BARRIERS

1 / GATE BARRIER

GABBAR01	Gate Barrier 2m
GABBAR02	Gate Barrier 2m – Anti-Trip Feet

2 / OLYMPIC BARRIER

OLYBAR01	Olympic Barrier 2m
OLYBAR02	Olympic Barrier 2m – Anti-Trip Feet

3 / ROAD ROCK BARRIER BASE

RRBBAR01	Road Rock Barrier Base – Red
RRBBAR02	Road Rock Barrier Base – White

4 / AVALON BARRIER

AVBBAR01	Avalon Barrier – 1m
AVBBAR02	Avalon Barrier – 2m
AVBCPF01	Avalon Barrier – Clearpath Foot – 1m
AVBCPF02	Avalon Barrier – Clearpath Foot – 2m

5 / FRONTIER BARRIER

FRBBAR01	Frontier Barrier – Anti-Trip Black Feet – 2m
FRBBAR02	Frontier Barrier – Anti-Trip Hi Vis Feet – 2m

6 / TITAN BARRIER

TITBAR01	Titan Barrier – 1.5m
TITBAR02	Titan Barrier – 2m
TITASF01	Titan Barrier – Anti-Trip Surefoot – 1.5m
TITASF02	Titan Barrier – Anti-Trip Surefoot – 2m

2 / OLYMPIC BARRIER ▶

The Olympic Barrier offers the complete versatile system for utility and construction applications with hinged side wings designed to rotate and self lock at every 90°. This unique feature allows contractors to create configurations to protect temporary pathway excavations and road works of all kinds.

- Side wings fold - Easy transport where space is limited
- Side wings rotate & lock at 90°, feet swivel 360°
- Fixing area for courtesy board
- Sliding linking clips to extend barrier
- Available in various colours
- Side wings can be used as door access

3 / ROAD ROCK BARRIER BASE

The Road Rock is a multifunctional base and the first product of its kind that will allow a temporary pedestrian barrier to pass Class B Wind Speeds (17.6m/s) by providing the precise weight needed each time, using two Road Rocks. When the barriers are in a boxed formation, only a single Road Rock is needed per barrier to pass Class B.

4 / AVALON BARRIER ▶

The Avalon Chapter 8 Pedestrian Safety Barrier provides both stability and security with its high visibility foot and innovative lockable connector. Easy to use and transport, this long-lasting and robust plastic barrier can be used in many applications, for example in-door and out-door events, construction, excavation, streetworks, etc.

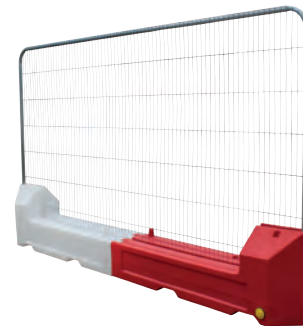

6 / TITAN BARRIER ▶

The Titan is the recognised and well established stacking barrier from JSP, it has all the usual advantages of standard stackable systems but in addition has many unique features. Titan has undergone modifications to further improve longevity and to meet the proposed NRSWA changes effecting wind stability, set out in BS8442 when erected and assembled correctly. Other features include: hot foil printing, bespoke colouring, coloured feet, variety of courtesy boards available.

7 / WONDERWALL BARRIER ▶

The WonderWall is a heavy duty, enhanced barrier system. The robust barrier gives stability in high winds without the need for extra ballast. It creates a safer working environment when barrier is deployed near the road side, or excavations on site. Can be moved with ease by one person, and can be moved via Fork-lift truck when the bases are stacked.

9 / SLOT BLOCK BARRIER

The slot block barrier is the only water filled barrier to hold a standard fencing panel to increase site safety, virtually eliminate potential trip hazards and give added stability to fence panels. Independently tested by, the Slot Block Barrier will save time and money with the constant re-erection of site fencing and will give added visibility and corporate identity on 'high profile' sites. Using the Slot Block barrier contractors dramatically reduce the working footprint by an average of 500mm against a standard fence block.

10 / STRONGWALL BARRIER ▶

An extremely robust and stable barrier system which is designed to meet the demands of providing safe access for pedestrians through road or construction works (chapter 8). Strongwall 1000 comes with an 18kg base which ensures that the barrier is stable in windy conditions.

5 / FRONTIER BARRIER

A blow moulded barrier manufactured from UV stabilised impact modified HDPE, to maximise wind flow through and around the system for unbeatable stability. The use of the Surefoot barrier feet ensure excellent grip, weighing 3kg each. The Frontier Cross-Link has been designed with compatibility in mind. You can link the barrier system with other JSP barriers and other brands.

8 / REPLACEMENT BARRIER FEET

Buy replacement feet for many of our range of pedestrian barriers. Constructed from High Density Polyethylene (HDPE). Feet can be swapped easily and fast, even after assembly.

SPECIFICATION / PEDESTRIAN BARRIERS

7 / WONDERWALL BARRIER

WONBAR01	WonderWall Barrier
----------	--------------------

8 / REPLACEMENT BARRIER FEET

ROAD FURNITURE ROADSIDE BARRIERS

We offer our customers an extensive selection of roadside barriers and maintenance barriers to suit a variety of applications. Corporate branding is also available on most of our road furniture. Please contact our sales team on **01922 726726** to discuss your requirements.

1 / UTILITY MANHOLE BARRIER ▶

The Utility Barrier is the ideal manhole barrier for almost all pedestrian manhole applications. Retaining the same compact footprint for storage and transport, this has improved stability over other competitors due to its unique double clip design.

◀ 2 / SAFEGATE MANHOLE BARRIER

The Utility Barrier is the ideal manhole barrier for almost all pedestrian manhole applications. Retaining the same compact footprint for storage and transport, this has improved stability over other competitors due to its unique double clip design.

◀ 3 / SKIPPER BARRIER

The Skipper range of outdoor safety products are designed to create safe working environments. The award winning Skipper unit has 9m (30ft) of high visibility retractable tape, making it the most cost-effective and easy to use barrier on the market. With a full complement of fantastic accessories, Skipper really is perfect for any environment. Its range of applications also make it perfect for sectors such as traffic management, construction, facilities management and so many more.

◀ 4 / OAK LOG BARRIER

These self weighted barriers are ideal for circumstances where it is not possible to deploy lightweight water-filled barrier systems. Available in white or red and supplied with rope handles to assist with carrying into position for positioning.

5 / ROAD RUNNER BARRIER ▶

A self-weighted delineator which does not require filling of sand or water. Wheels allow for easy manoeuvring, and a tail that allows for a quick connection. Interlocking bases allow lines of the separator to be placed together, and help to prevent any easy movement of the blockade.

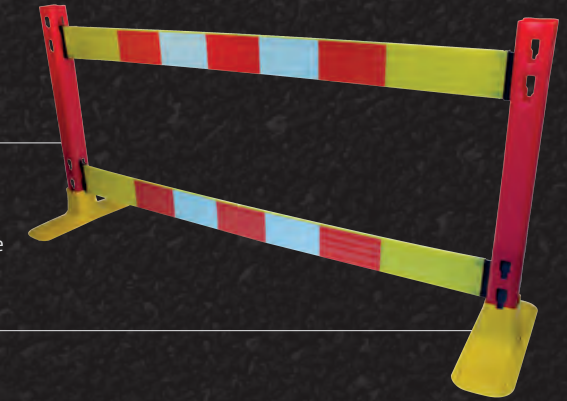

◀ 6 / POSTMAN BARRIER

Manufactured due to increasing demand & onerous lead times, the Postman takes the current temporary barrier system within utility works and updates it by implementing a range of innovative features & increasing its strength and durability.

7 / WATCHMAN BARRIER II ▶

Heavy duty weight fitted inside the post along with anti-trip rectangular bases square bases, made from plastic fit over the uprights to ensure the system cannot be easily dismantled when unattended.

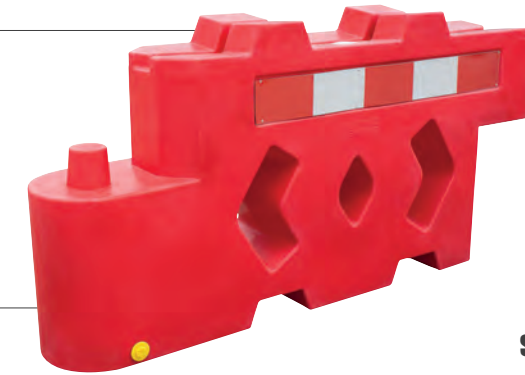

◀ 8 / WATCHMAN II REFLECTIVE PLANK

- PVC extruded reflective plank
- HDPE end-caps
- Corporate customisation available
- Designed and manufactured in the UK

9 / BISON BARRIER ▶

The Bison Barrier is a 1m x 2m water filled unit for delineation of traffic around sites. Weighing 400kg when full, the Bison stands up impressively against its competition. This heavy duty barrier comes with Chapter 8 compliant strip as standard and turns 90 degrees. Solid hoard, mesh or promotional panel can be added. Available in corporate colours on request.

◀ 10 / OXFORD WALL MKII BARRIER

A substantial barrier that is easy to set up and link together. The barrier can be filled on site with water or sand for extra stability and is designed to stack very efficiently which enables transport costs to be reduced.

◀ 11 / PYRAMID BARRIER

The 1m Pyramid is unique in that way that it rotates a full 90 degrees to enable contractors to 'box off' projects giving added security. Comes in standard red or white but can be produced on corporate colours at no extra cost.

◀ 12 / EVO BARRIER

A versatile traffic barrier system, manufactured to an extremely high quality. These plastic separator barriers are fully stackable for easy storage and transportation. Available in 1.2m and 1.5m.

◀ 13 / EURO BARRIER

A substantial barrier available in 1m or 2m lengths. Produced in UK stabilised prime polyethylene the system is taller and wider than the EVO barriers giving you increased height options.

◀ 14 / RB2000 HEAVY DUTY BARRIER

The RB2000 can be weighted to 400kg when water filled creating a solid flat walled secure system. The patented 5 position interlocking system allows the barriers to flow around the corners or uneven surfaces.

◀ 15 / RB22 CRASH BARRIER

One of the quickest deployable barrier systems on the market. Manufactured from prime UV stabilised polyethylene which provides a versatile yet strong, flexible one-piece system for easy handling and instalment by your own workforce.

◀ 16 / GB2 HEAVY DUTY BARRIER

A robust heavy duty adaptable barrier system suitable for low level containment. With a 2 metre working length and height of 0.9 metre the versatile system is ideal for highway or site delineation for pedestrian and vehicle safety.

ROAD FURNITURE CONES & LAMPS

We offer a variety of cones and lamps that can fulfil all traffic management solutions on minor and major roads. Corporate branding is also available on most of our road furniture. Please contact our sales team on 01922 726726 to discuss your requirements.

1 / MASTERCONE CONE ▶

One of the most practical two piece cones on the market. The Mastercone has been dominant on the roads for many years. Incorporating the Melba Swintex high performance prismatic Starlux™ sleeve, the Mastercone is highly visible to all motorists.

2 / STARLITE CONE ▶

The Starlite cone is a two piece cone, with its centre manufactured from virgin HDPE, and base from recycled PVC. The cone is 100% recyclable and is fitted with the Melba Swintex high performance prismatic Starlux™ sleeve.

3 / BIGFOOT CONE ▶

The Bigfoot Cone is long established as the industry leader for Road Cones. It was the first two piece cone to be manufactured, and is the benchmark for Traffic Cones all over the world. The cone base is manufactured from recycled material, and can be coloured on request.

4 / MPL CONE ▶

The MPL is a cost effective one piece cone, manufactured from 100% recycled thermoplastic, which is recyclable, making the MPL range a completely environmentally friendly cone family. The base can be coloured to suit, and/or embossed with a company logo.

5 / CABLE COVERS ▶

Hollow, rotationally moulded product, which are placed over exposed cable. Designed to provide a highly visible warning to the public that there is a high voltage hazard, to keep left, or a live cable hazard. Each cover features a sand ballasted base for added stability.

6 / DOMINATOR CONE ▶

The preferred traffic management and term maintenance two-part moulded cone with UV stabilised LDPE moulded top and heavy duty 100% recycled composite base. Complete with Sealbrite class R1B sleeve. Available in 500mm, 750mm and 1000mm.

7 / BESPOKE CONES ▶

- A range of 750mm and 1000mm cones are available in a variety of colours with highly reflective sleeves
- Enhances safety and awareness on site or on highways complying with Highways Agency directives
- Bespoke messages can be printed on the sleeves to be used off highways

8 / NO WAITING BOLLARDS ▶

3 Sided Bollard

The tough 3 Sided Bollard is the ideal cone for implementing parking restrictions.

Minisign Cone

The Minisign is a two part cone that displays a unique shape. The top is manufactured from LDPE, and the base is manufactured from 100% recycled PVC.

11A / CONILAMP ▶

Conilamp are single sided amber cone warning lights with an integrated mounting bracket featuring automatic switch on. Their robust design meets harsh environmental requirements and the lenses are impact resistant. These lights come with an integrated LED light and a built-in solar switch for energy saving during daylight. With tool-less operation and set-up, these lights provide up to 400hrs use on a single battery.

11B / MONO SIGN LIGHT ▶

Cone warning lamps with a bright white light used for illuminating works signs. Featuring a large 180mm LED light, they are supplied with a cone bracket for easy mounting. An on/off switch is integrated for daylight energy saving and the battery compartment is lockable. These spotlights can provide up to 120hrs use on a premium battery.

11C / TAPERLAMP ▶

Robust sequential warning lights with a mounting bracket which automatically switches on when cone mounted. Each lamp comes with an integrated amber LED light and infrared transmitter. Boasting tool-less operation and set-up, these lights provide up to 125hrs use on a standard 6v battery.

9 / CONE SLEEVES ▶

Reflective sleeves for road and no waiting cones, that increase visibility from a cone when the original sleeve becomes worn. Danger Overhead Cables sleeve (to fit 750mm cones) and sleeve adhesive are also available.

10 / BATTERIES ▶

Ecologically improved battery without mercury and cadmium. Suitable for all weather conditions and suitable for use in road danger lamps, sequential lamps, warning lamps and any other type of lamp requiring 6V battery.

ROAD FURNITURE ROADSIDE EXTRAS

In this section we offer a wide selection of traffic management products that are required to fulfil all your needs. Please contact our sales team on **01922 726726** to discuss your requirements.

1 / FLEXI CYLINDER ▶

A self-righting Cylinder with little to no maintenance required. Can be supplied with anchor-bolts or adhesive pads to secure to the ground. Cats Eye Base available to buy separately.

◀ 2 / SWINBAC CYLINDER

A lightweight self-righting cylinder with little to no maintenance required. Easy to install, can be supplied with anchor-bolts or adhesive pads to secure to the ground. Tough and durable, manufactured from recyclable HDPE. Available in a variety of colours. Cats Eye Base available to buy separately.

3 / KINGPIN CYLINDER ▶

The Kingpin is a lightweight cylinder that is perfect for managing the direction of traffic. Manufactured to be tough and durable, with little to no maintenance. Can be supplied with anchor-bolts or adhesive pads to secure to the ground. Cats Eye Base available to buy separately.

◀ 4 / CATS EYE BASE

A one piece compression moulded base, manufactured from recycled material. The base is completely recyclable, boasting high durability and strength. The cylinder attaches to the base via a twist-to-lock mechanism.

◀ 5 / ELITE TRENCHCROSS

This unique and innovative trench cover can provide safe, work and public access, whilst working over and around trenches. In all today's construction, civil engineering and infrastructure sectors, both high performance and safety are key requirements. Can also be used as temporary access for light to medium weight cars, vans, and lorries.

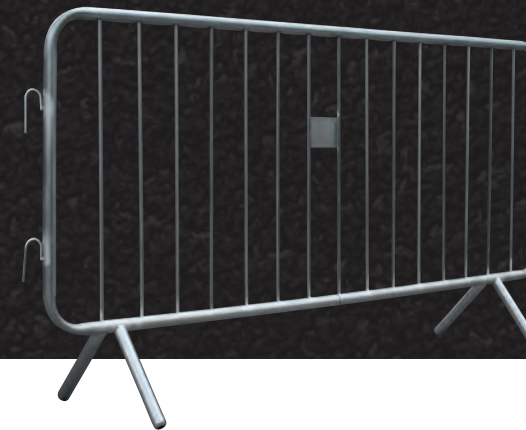

6 / BOSS BARRIER ▶

The Boss Barrier is an innovative approach to managing busy public areas, such as festivals, marathons, and events. Traditional metal type crowd control barriers are vulnerable to permanent damage, eventually rusting and can be difficult to stack. The Boss barrier has none of these drawbacks. The barrier is manufactured from recyclable blow moulded High Density Polyethylene, which boasts incredible durability and strength. The Boss Barrier is also free standing with 360° swivel feet and barrier-to-barrier connection is quick and easy for use on uneven ground. Company identification can be embossed and the barrier can be colour coded for enhanced branding.

◀ 7 / METAL CROWD CONTROL BARRIERS

The most defining feature of our fixed leg crowd control barrier is a singular piece of tube making up the entire frame, resulting in only one join, putting this as one of the strongest crowd barriers on the market. As standard these crowd control barriers have a galvanised finish. Available either painted or powder coated to suit your requirements.

9 / ENDURAMAT ▶

Specifically designed for outdoor use, EnduraMat can be used as temporary roadway as it enables you to drive cars, forklifts, diggers, trucks and cranes up to 80 tonnes, without causing significant damage to the ground underneath. Designed to be used on grass or muddy ground, the EnduraMat is the ideal solution that both prevents a muddy mess and allows safe access for traffic. Ground protection mats are a great way to quickly and efficiently protect grass from heavy equipment.

◀ 8 / OVERHEAD CABLE GOALPOST

G56 Telescopic Height Barriers for use in various industries to protect height sensitive collisions which may occur during construction or maintenance procedures. They are lightweight, affordable and easily transportable.

SPECIFICATION / ROADSIDE EXTRAS

6 / BOSS BARRIER

BOSSBAR01	Boss Barrier – Crowd Control Barrier
-----------	--------------------------------------

◀ 10A / SAFE COVER 12/8 TRENCH COVER

A versatile safety cover that is exceptionally rigid in construction, yet lightweight. This sturdy glass reinforced composite cover maintains performance in the most demanding situations. Suitable for trenches up to 700mm wide.

◀ 10B / SAFE COVER 16/12 TRENCH COVER

Designed primarily for use in street works, providing strength and security. Made from a single piece of glass reinforced composite, it can take a distributed weight of up to 2 tonnes. Designed to cover trenches up to 700mm wide (pedestrian use only).

◀ 10C / LOWPRO 11/11 TRENCH COVER

Designed to eliminate the need for bolts or other fixings whilst in use. By using a flexible rubber edge, it grips to the surface and prevents slipping. This also helps virtually eliminate it's trip profile, making it safer for pedestrians.

◀ 10D / LOWPRO 15/10 TRENCH COVER

Has all of the key features of the original Low Pro cover but with improved load and trench width capabilities. The Low Pro 15/10 can support one wheel of a 3500kg vehicle over a 900mm span or up to 400kg over a 1200mm span.

◀ 11A / SAFEKERB RAMP

The SafeKerb wheelchair ramp has been created to comply and exceed the 'Wheel Chair Boarding Ramp Specification', the 'Safety at Streetworks Code of Practice' and the 'Disability Discrimination Act' (DDA).

◀ 11B / SUPAGRIP SAFEKERB RAMP

The Supagrip SafeKerb Ramp provides a safe means for wheelchair and pushchair users to reach the next level when a footpath has been closed for street works. It can also provide easy access for mobility scooters up to 350kg.

◀ 12 / ROAD PLATE 15/5

A heavy duty modular roadplate system comprising of individual units linked together. There is no need to use expensive specialist lifting equipment as the road plate can be installed in minutes with a two man lift.

SITE SUPPLIES

BCS Group offer a vast array of construction and site supplies. These products not only cover many types of industrial applications but feature many of the market leading brands and are selected to provide the best quality at optimum value. Please contact our sales team on **01922 726726** to discuss your requirements.

1 / PLANT NAPPY ▶

A better alternative to the use of drip trays under plant and machinery on site. Designed for use outside in the rain and harsh conditions to provide containment of oil and fuel spills for generators and other site machinery, whilst overcoming the problem of filling with water.

2 / IPAD SAVER NF1200 DEFIBRILLATOR

The latest in the range of intelligent public access defibrillators from one of the worlds leading manufacturers of clinical defibrillator monitors. Designed to be used by minimally trained individuals, the iPAD is suitable for use almost anywhere that people gather. The iPAD makes saving lives easier than ever.

3 / DEFIBRILLATOR CARRY CASE ▶

This durable carry case has been designed to comfortably house and protect the i-PAD Saver NF1200 Defibrillator. Its bright red design ensures that the AED is highly visible for when it is called into action.

4 / EYE WASH KIT

The Eclipse translucent Eyewash Kits with sterile eye wash solution show the contents at a glance and can be wall mounted for high visibility and easy access, for use in the workplace.

5 / FIRST AID KIT ▶

The Bigfoot Cone is long established as the industry leader for Road Cones. It was the first two piece cone to be manufactured, and is the benchmark for Traffic Cones all over the world. The cone base is manufactured from recycled material, and can be coloured on request.

9 / CONTACT ADHESIVE ▶

All Purpose spray contact adhesive is a sprayable glue which bonds to most common materials.

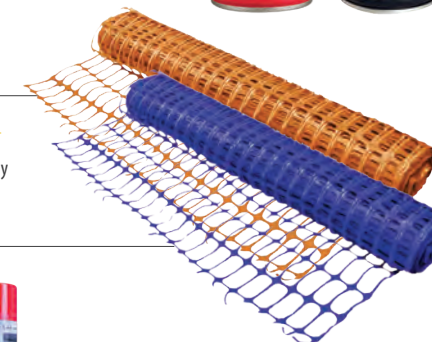

11 / FENCING PIN

Non-conductive fence pins eliminate the risk of striking underground power cables.

12 / BARRIER FENCING ▶

This is a quick and easy way to erect a temporary fence. Available in Orange or Blue on rolls that measure 1 metre high x 50 metres long.

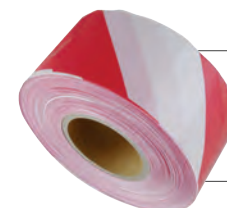

13 / LINEMARKER SPRAY

There are seven standard colours available and other colours can be supplied.

14 / VINYL ▶

Suitable for use on plotter systems. Other colours and sizes are available.

15 / BARRIER TAPE

A non-adhesive, economy barrier tape designed for marking out-of-bound and hazardous areas. Tape width 75mm x 500m in length.

7 / POLYPROPYLENE SANDBAG ▶

All of our sandbags are manufactured to the highest quality and can be supplied filled or unfilled. **Bespoke printed sandbags available on request.**

8 / HESSIAN SANDBAG ▶

Our Hessian sandbags are biodegradable and will eventually rot away. We can also supply printed sandbags and rot proof hessian sandbags.

10 / MASKING SPRAY

Formulated to blank off road signs and is particularly useful where road works require a diversion or road closures.

SPECIFICATION / SITE SUPPLIES

7 / POLYPROPYLENE SANDBAG

PSBAG01	Polypropylene Sandbag – White

D	FPTPPE04	RF4500 High Leg Metatarsal Boot

1B / EVO 3 MICRO PEAK

The EVO3 Comfort Plus helmet combines a super strong shell for superior all day protection in the widest range of environments, with the comfort benefits of the new Evolution 3D Adjustment harness system.

2A / CONTOUR EAR DEFENDER

Helmet mounted ear defenders to fit MK7 & EVO range helmets. Easy to attach and detach with spring loaded arms that give an excellent fit to the ear. When not in use the arms allow the cups to stand off clearly from the head.

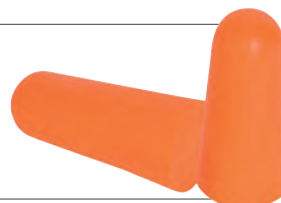

2B / DELUXE EAR DEFENDER

Extra comfortable protection with adjustable padded contoured headband. Comfortable foam filled cups. Bulk packed in individual polybags. Available with retail header card soon.

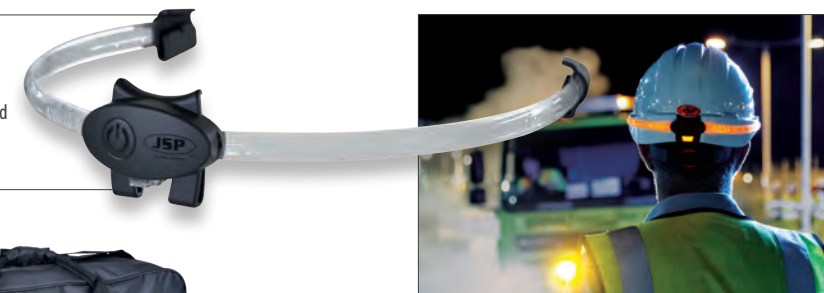

2C / DISPOSABLE EAR PLUGS

Made from soft PU foam, the plugs expand gradually and so conform to exactly the size and shape of the ear canal. Very high SNR rating for excellent protection in very noisy environments. Available in corded and uncorded versions. Supplied in a convenient cardboard dispenser box.

1C / VISILITE SAFETY HELMET LIGHT

Ideal for carrying tools or for use as a travel bag, these practical stylish bags have multiple functions. Available in black or navy, both bags a robust base panel, an ID card holder for ID card display, two zipped compartments and an adjustable shoulder strap for added comfort. Ideal for carrying tools, PPE equipment or for use as a travel bag.

3E / HOLDALL KITBAG

Ideal for carrying tools or for use as a travel bag, these practical stylish bags have multiple functions. Available in black or navy, both bags a robust base panel, an ID card holder for ID card display, two zipped compartments and an adjustable shoulder strap for added comfort.

4A / SAFETY GLASSES

The Java provides a modern wrap around design and styling. Hard coated lenses. Class 1 optical for all day use. Economical stylish protection. Available in clear, smoked & yellow versions.

4B / BOLLE ATTACK SAFETY GOGGLES

High quality anti-scratch, anti-mist carbo-plus lenses, ensuring an excellent level of eye protection for general industry requirements as well as protecting against chemical splash, dust, molten metal and gas.

5A / A100 - GRIP GLOVE

Premium quality latex palm dipped 10 gauge glove which provides good tear and abrasion resistance, for secure handling in both wet and dry conditions. Open back for ventilation and ergonomic design to reduce hand fatigue.

5B / A140 - THERMAL GRIP GLOVE

Ideal for use in construction, transportation, refuse collection, maintenance and local authority work. It features a warm acrylic 10 gauge liner and is perfect for more heavy duty, outdoor tasks, or for people working in cold conditions.

5C / A722 - ANTI IMPACT CUT RESISTANT GLOVE

Combining comfort, grip, impact and cut resistance in a comfortable seamless liner. Flexible PVC impact pods for maximum durability. Reinforced thumb croch. Suitable for heavy duty applications.

6 / 2555 - FFP3 DISPOSABLE MASK

Durable and comfortable, this range of masks is available in a range of protection levels. Loop strap and designed to seal effectively without a nose clip. DuraMesh® structure holds the mask shape and is stronger and more durable than traditional designs. Available in a range of protection levels with or without valve.

7A / SAFETY WELLINGTON BOOT

Washington is one of the best safety wellingtons available in Europe, if not the world. Made using an exclusive PVC compound which is much suppler than traditional PVC to increase resistance to splitting and cracking.

7B / ANKLE BOOT

Slate are safety boots with true character, finished in a full-grain waxy black leather. Extremely robust and surprisingly lightweight, these boots come with a composite toecap and protective composite midsole - they are 100% non-metallic.

7C / METATARSAL BOOT

The Rhyolite is one of the most robust boots available in Europe, if not the world. 100% Non-Metallic, developed with specialist durability materials including FORCE10® Components, an Activ-Tex® Membrane, R-Ten™ thread and Impact Shield Technology.

7D / HIGH LEG METATARSAL BOOT

The Titanium is one of the lightest most robust high leg boots available in Europe, if not the world. 100% Non-Metallic, developed with specialist durability materials including FORCE10® Components, an Activ-Tex® Membrane, R-Ten™ thread and Impact Shield Technology.
