Smart Funding ...
... for a smarter industry

Simple Terms

Lower Costs

In the competitive energy supplier market, saving money at every opportunity is key to remaining profitable.

Like all energy suppliers, you have a responsibility to serve the interests of both your shareholders and your customers. To do so, you need to ensure that you have access to key services at cost-effective rates and on the best terms to suit your business.

With the requirements of the Smart Metering Programme compelling energy suppliers to install smart meters, you can face a variety of challenges:

- You have better use for your cash than putting it into meter assets
- You may not wish to carry meters on your balance sheet
- You may not wish to invest in the infrastructure to organise the procurement of meters and associated hardware
- You may want to streamline your meter tracking and management systems.
- You may not wish to develop and maintain a system for tracking meters and issuing meter rental invoices
- You may not wish to spend money in a system for tracking meters and managing meter rental invoices

If you fall into any of the above categories, our fair and flexible Meter Asset Provider (MAP) services can help.

Meter Corp understands the challenges you face in this competitive marketplace and the importance of competitive pricing, without complex contract terms that leave you vulnerable to exploitation by powerful funders.

Our model brings together the purchasing power of multiple energy suppliers, to provide you with state-of-the-art meters and installation services, at pricing levels normally only available to larger energy suppliers.

Meter Corp is at the forefront of bringing fairness and keen pricing to the wider industry. We are able to offer this without committing you to large minimum purchase levels and at highly cost-effective rental rates for your business.

Trusted Provider

Working with Meter Corp as your trusted funding partner will deliver you the right solution for your business. We offer simple, clear terms that will save you money.

Fair Terms

At Meter Corp, we bring fairness to all energy suppliers, regardless of size or buying power. We do not require you to commit to high meter numbers, so only order as much as you need.

Pricing

Meter Corp provides pricing that ensures your business is able to compete fairly and fully within your marketplace.

All Inclusive Package

We will tailor our package to provide meters, installation services or simply funding at levels of service you need for your business, wherever you trade in the UK.

The Smarter Choice

When your business is facing tighter margins, greater corporate governance and a challenging business environment, then you need a smarter solution from a trusted industry specialist.

*Contact us and find out how much money you could add
to your bottom line, simply by choosing to work with us.*

You have nothing to lose and lots to save.
