

Guidehouse Energy, Sustainability, and Infrastructure

With more than 1,200 consultants and technologists, Guidehouse's global Energy, Sustainability, and Infrastructure segment is the strongest in the industry. We partner with leaders who are creating sustainable, resilient communities and infrastructure in order to drive transformational outcomes. Our passion, domain expertise, market research, and industry relationships deliver breakthrough innovations for energy providers, large enterprises, and public agencies.

We turn vision into action by leading and de-risking the execution of big ideas and by driving outcomes that enable clients to reach their ambitions through transformation. Each day, our experts leverage passion, expertise, and industry relationships to forge a resilient path forward.

Who We Serve

Energy Providers

In a rapidly changing landscape where utilities and energy companies are transitioning to a cleaner fuel supply, increased reliability, and improved resilience, Guidehouse turns vision into action. Our experts lead and de-risk implementing new business models and technologies that are leading the way to a more sustainable future.

Large Enterprises

Guidehouse helps large enterprises pinpoint and prepare for the challenges and opportunities of global energy transformation. Our groundbreaking strategies provide compliance with investor and external stakeholder requirements and are informed by data analytics to assess risk and opportunity, reduce costs, and achieve goals.

Public Agencies

We are the go-to partner for public sector leaders creating sustainable, resilient communities and infrastructure in the U.S. and around the world. We empower the people who are creating a better future with the tools and intelligence they need to manage their programs, maximize their resources, and deliver confidently for citizens.
