

# Jules

**ENHANCE CUSTOMER EXPERIENCE WITH  
OUR ONLINE CAPABILITIES FOR SELF  
SERVICE ENERGY TRANSACTING**

An Introduction  
to Jules.

# WELCOME TO JULES.

We are Jules and we build revolutionary online solutions for Energy Suppliers.

## WHAT DO WE DO?

Here at Jules we build globally recognised cloud based Platforms for the Energy Supplier and their customers. Jules designs and shapes a new digital retail function in close collaboration with Energy Suppliers.

We provide digital solutions capable of handling online transactions of gas and power on the wholesale markets, as well as a host of administrative and operational functionalities.

## WHAT ARE THESE SOLUTIONS?

Our solutions are designed to make it easier for you, the Energy Supplier, to offer any flexible and non-flexible contracts to your customers.

Our online suite of Platforms allows for the delivery of an innovative and dynamic experience to consumers and producers of energy.

We are a Specialist Software Provider dedicated to enabling energy transitions through new and sustainable business models.

We help you to empower the customer by providing self service tooling to execute contracts and manage assets.

It is centred on energy contract execution and asset optimisation whilst helping to reduce risk and back office administration for all parties; because we care!

## WHAT FUELS US?

Jules believes that rethinking business processes, alongside the creation of new value propositions that aim to be responsive to both the everchanging energy landscape and customers' demands, is crucial for an Energy Supplier's success.

Our products can help you achieve this.

# The Jules Team

Originating in the Netherlands, Jules has been active across Europe for over 12 years.

Jules' main activity is the design, development, introduction, and marketing of online Smart Energy Trading/Procurement Platforms for liberalised markets for generators, consumers, and power suppliers in the UK and across Europe.

We also provide additional support in the initial months to give the best possible experience in utilising the Platforms functionality.

**WHO ARE WE?  
WHAT CAN WE DO FOR YOU?  
HOW DO WE HELP?**

We have over 12 years' experience in the U.K and across European markets helping Energy Suppliers deliver flexible energy contracts by implementing our digital, ground-breaking solutions.

Our team consists of highly driven experts in their fields and have amassed a great understanding of the energy industry as a whole.

At Jules, we combine our engineering and operational talents with our market knowledge and friendly services to help you create the perfect Platform to help enhance your customer offering.

We work with you, the Energy Supplier, to build a Platform tailored to you from our extensive modules available.

You can find out more about the legends that make up Jules at [www.julesenergy.com/about-us](http://www.julesenergy.com/about-us)

# Off the Shelf JuleSuite Products

We have on offer a range of products to help Energy Suppliers administer their energy contracts.

## JULESMART

A transactional Platform allowing for gas and power producers and consumers to trade on the wholesale markets. Including, Long Term, Short Term, Intra-Day and Trade to Forecast functionality. Users are also able to monitor their meter data as well as utilise the fiscal reporting.

## JULECLICK

Allows customers to procure their baseload volume on the forward markets. Ideal for customers making a transition from a fixed to flexible contract.

## JULESFIT

Allows Energy Suppliers and FIT Licences to administer all their FIT obligations from the creation of Statement of Terms to read input and self-billing as well as the creation of Levelisation reporting.

## JULESWITCH

Allows exporters to control their demand optimisation via a switch box to automatically dispatch their CHP and solar assets based on market instruction.

We are always adding new modules and functionality to our suite of products; our functionality can be built on already existing software to provide you with an easy integration process. However, should there be something you need in addition then please do talk to us, **we are always happy to help.**

# Benefits of working with Jules

Our Platform's Supplier, Consultant and Customer portals are accessible 24/7 from anywhere in the world, allowing end users to oversee their contracts from wherever they are.

Platforms can also be white labelled to your company's branding.

Jules' digitalised processes help to:

- mitigate human errors
- reduce back office administration
- help with cost saving
- creates a paperless way of working for both Suppliers and end users

Our Platforms have built-in restrictions and trading windows tailored to the Energy Supplier's requirements and Customer contracts to help mitigate risk or exposure for both parties.

## UNIQUE PRODUCT INNOVATIONS

JuleSuite's 12 years experience of robustness and constant innovation makes our products a versatile and dynamic tool, helping to digitally execute an energy contract between a supplier and energy producers and consumers.

Our functionality is constantly evolving in line with the energy markets and the ever changing requirements of customers.

## CUSTOM-TAILORED SOLUTIONS

We offer both "off the shelf" and bespoke solutions to meet your vision. We will work with you throughout the whole process to ensure we deliver a legendary Platform tailored to your requirements because it's just that simple!

## Ready to learn more about Jules?

We hope to have captured your attention with our pioneering and vibrant solution to flexible contract execution. We would love to hear from you and discuss your requirements.
