Protecting Lives, Cables & Pipes

The free to use online safe digging service

lsbud.co.uk

£15 million

- the estimated
cost of hitting a
high pressure fuel
pipeline

Q | what?

Free to use online search to check hundreds of thousands of kilometres of utility assets in a single enquiry

👥 | who?

Users

Any person involved in -

- construction
- excavation
- fencing
- ditching
- works likely to break ground

...of any scale from a highway scheme to simply replacing a garden fence

? | why?

- keeping you safe
- saving you time
- avoiding costly damages

🧩 | how?

... 3 easy steps

1

You provide a few simple details of the works you are doing and where, then submit a free online enquiry

2

You receive an instant response showing which of our Members have assets near your worksite

3

Our members send you the plans of their assets relevant for your area

*Some Members may take longer to assess your enquiry.

do

- Ensure a valid LSBUD enquiry is made for all works
- Carefully consider each asset owner's specific requirements and consult with them as required
- Adhere to industry standards and best practice guidance

don't

- Rely on old copies of plans which may be out of date
- Make assumptions of where utility assets might be
- Proceed without checking each asset owner's requirements
