

Mineral Blue

AN INNOVATIVE CLOUD-BASED
SAFE-WORK SYSTEM MADE SIMPLE

**DESIGNED FROM THE GROUND UP, MINERAL BLUE
CONTROLS ACCESS TO THE PLANT USING DEVICES,
THE CLOUD AND BLOCKCHAIN**

COBRA

enables engineers
and risk assessors to
create, control and securely
distribute risk assessments
in the cloud

MYSKILLS

the online
place for workers to save
and share their work
certificates and professional
qualifications

EPERMIT

automates permits-to-work
in the cloud, and
deploys electronic permits
instantly to mobile devices

ISOL8

automates isolation
processes using cloud
technology, intelligent
lock boxes, NFC radio
tagging and
mobile devices

FACTSAFE

deploys health & safety
checklists to mobile
devices and displays
KPIs in a graphical
dashboard

ISOPLAN

extracts engineering
information from smart
drawings to create
and publish isolation plans

CRAIG POWER

"The way Mineral Blue breaks up old-fashioned paper workflows
and sends safety documents to devices is a game changer for the mining
industry."
