

WorkfloPlus

Transform The Way
The World Works

Visit www.intoware.com to find out how to digitise your workforce.

Intoware Is A SaaS Company Specialising In Workflow Automation

Empower Your Workforce

We create software to support digital transformation and empower the connected workforce.

Productivity & Efficiency

We increase productivity and efficiency while meeting compliance needs.

Productivity & Efficiency

Intoware is the first choice partner for enabling the connected worker across multiple different industries.

Our Mission

To provide technology solutions that transform your workforce and enable continuous data-driven improvement.

The Key Features And Benefits Of WorkfloPlus

1) Digitise Your Paper Based Processes

With paper-based processes, only the most basic information is recorded. With WorkfloPlus, businesses have the ability to capture detailed data on how each and every process is carried out - given you a powerful new source of business intelligence.

2) Detailed Processes & Extra Information Means Correct Workflows At All Times

Effortlessly update procedures and send notifications using the cloud, and make sure the right instructions are followed every-time. All data is captured in real-time, making checks and audits a breeze.

3) Live In-Progress Work Status

WorkfloPlus includes powerful reporting and data visualisation tools to help businesses gain a complete view of the critical checks and procedures.

4) Device & Platform Agnostic

WorkfloPlus is compatible with a huge range of devices, from RealWear's HMT-1 & Intrinsically Safe devices to desktops, laptops, iOS & Android devices.

5) A Proven Solution Out The Box

WorkfloPlus is built using Open APIs so you can easily integrate with your existing set-up, from simple spreadsheets to large scale, Enterprise software solutions.

6) Get Remote Support Wherever & Whenever You Need It

Thanks to the integrated Remote Expert feature workers in the field can get support via a video or audio link, connecting them to co-workers and teams back at HQ. (Other platforms and integrations also available)

Digital Instructions & --- On-Boarding For The Industrial World

Eliminate Paper

Transform paper-based procedures into digital instructions accessible via any mobile or wearable device.

Empower Your Workforce

WorkfloPlus gives workers access to the resources, information and support they need to successfully complete critical procedures.

Gain Greater Insight

Turn insight into action with real-time data capture, easy to use reporting tools and an intuitive yet powerful dashboard.

A Whole New Way Of Understanding Your Business Processes >

> With paper-based processes, only the most basic information is recorded. With WorkfloPlus, businesses have the ability to capture detailed data on how each and every process is carried out - giving you a powerful new source of business intelligence.

WorkfloPlus significantly enhances existing processes and procedures and is designed to compliment your current way of working. The software can unlock the full value of existing systems by helping to address bottlenecks and inefficiencies.

Quick & Easy To Deploy

WorkfloPlus has been built to quickly integrate with existing back-end software meaning there is less expensive and time-consuming integration than with other solutions. Plus, it works across most makes of desktop, tablet, mobile and wearables.

“We estimated 9-12 months to fully train staff... it was so quick and simple to use that half the team were trained and using it in just 6 weeks.” **Carrio Cabling Corporation.**

Ensure A Safe & Productive Workplace

Your workforce is always up to date with the latest processes thanks to WorkfloPlus. Effortlessly update procedures and send notifications using the Cloud, and make sure the right instructions are followed every time.

All data is captured in real-time, making checks and audits a breeze.

The App

Enable your workforce to follow step-by-step instructions and access real-time assistance from remote experts, whilst you collate invaluable data to drive your business forward.

Live Data Capture

Capture the data that your business needs in order to record and analyse process performance, drive continuous improvement, and generate a digital audit trail.

Geo Tagging

Time Stamps

Built With Industrial Workers In Mind

Office Access

WorkfloPlus is fully functional when working in challenging environments with poor connectivity. Data captured via the app is automatically synced with the management portal as soon as a secure connection is established with no manual input required.

Intrinsically Safe & Hands-Free

WorkfloPlus is accessible via mobile, tablet, wearable and intrinsically safe devices, including those created by RealWear, ecom and Vuzix.

Intuitive User Interface

Enhance productivity, efficiency and safety without disrupting your workforce with time consuming training.

Guide your workforce through any process or task in order to improve compliance, reduce risk and ensure high standards of work are consistently achieved.

Reduce Administration

Enable your workforce to fully optimise their time by automating repetitive tasks and eliminating data input.

The screenshot displays a software interface on a MacBook Pro. The main window is titled 'Schedule' and shows a weekly view from Monday 15 June to Sunday 21 June. A modal window titled 'Add Scheduled Job' is open, allowing the user to create a new job. The modal contains the following fields and options:

- Name:
- Schedule Description:
- Workflow:
- Select User/Group:
- Mode:
- Start Date: Start Time:
- Due Date: Due Time:
- Don't Start Until Date: Don't Start Until Time:
- Occurrence:
- High Priority:

A blue button labeled 'CREATE SCHEDULED JOB' is located at the bottom right of the modal. The background interface shows a list of scheduled jobs for each day, including '09:00 - Vehicle Inspection' (3 users), '13:00 - Sand Inspection' (5 users), '15:00 - Another Sand Inspection', '10:00 - Cleaning Checklist' (12 users), '13:45 - A1 Vehicle Check', '15:00 - Aero Stock Check', and '14:00 - Vehicle Inspection' (2 users). There are also 'Unscheduled Job' entries for today.

How It Works

(1) Confirm

Transform any paper-based process into an intelligent, digital workflow using our intuitive online drag and drop editor.

(2) Deploy

Distribute instruction to your workforce and enable access to them via any mobile, wearable or intrinsically safe device.

(3) Utilise

Enable your workforce to follow step-by-step instructions in the field ensuring that every task is executed correctly, efficiently and to the highest standards.

(4) Capture

Capture live data in the field. Record and analyse process performance, collect evidentiary documentation, and generate a digital audit trail.

(5) Improve

Easily update and improve your processes and instructions ensuring your entire workforce are always compliant, productive and efficient.

Seamlessly Connected Solution

Connect Your Existing Infrastructure

Transform any paper-based process into an intelligent, digital workflow using our intuitive online drag and drop editor.

Exchange Data Via IoT Devices

Connect external devices such as bar-code scanners, beacons, thermometers and torque wrenches in order to capture and exchange live data.

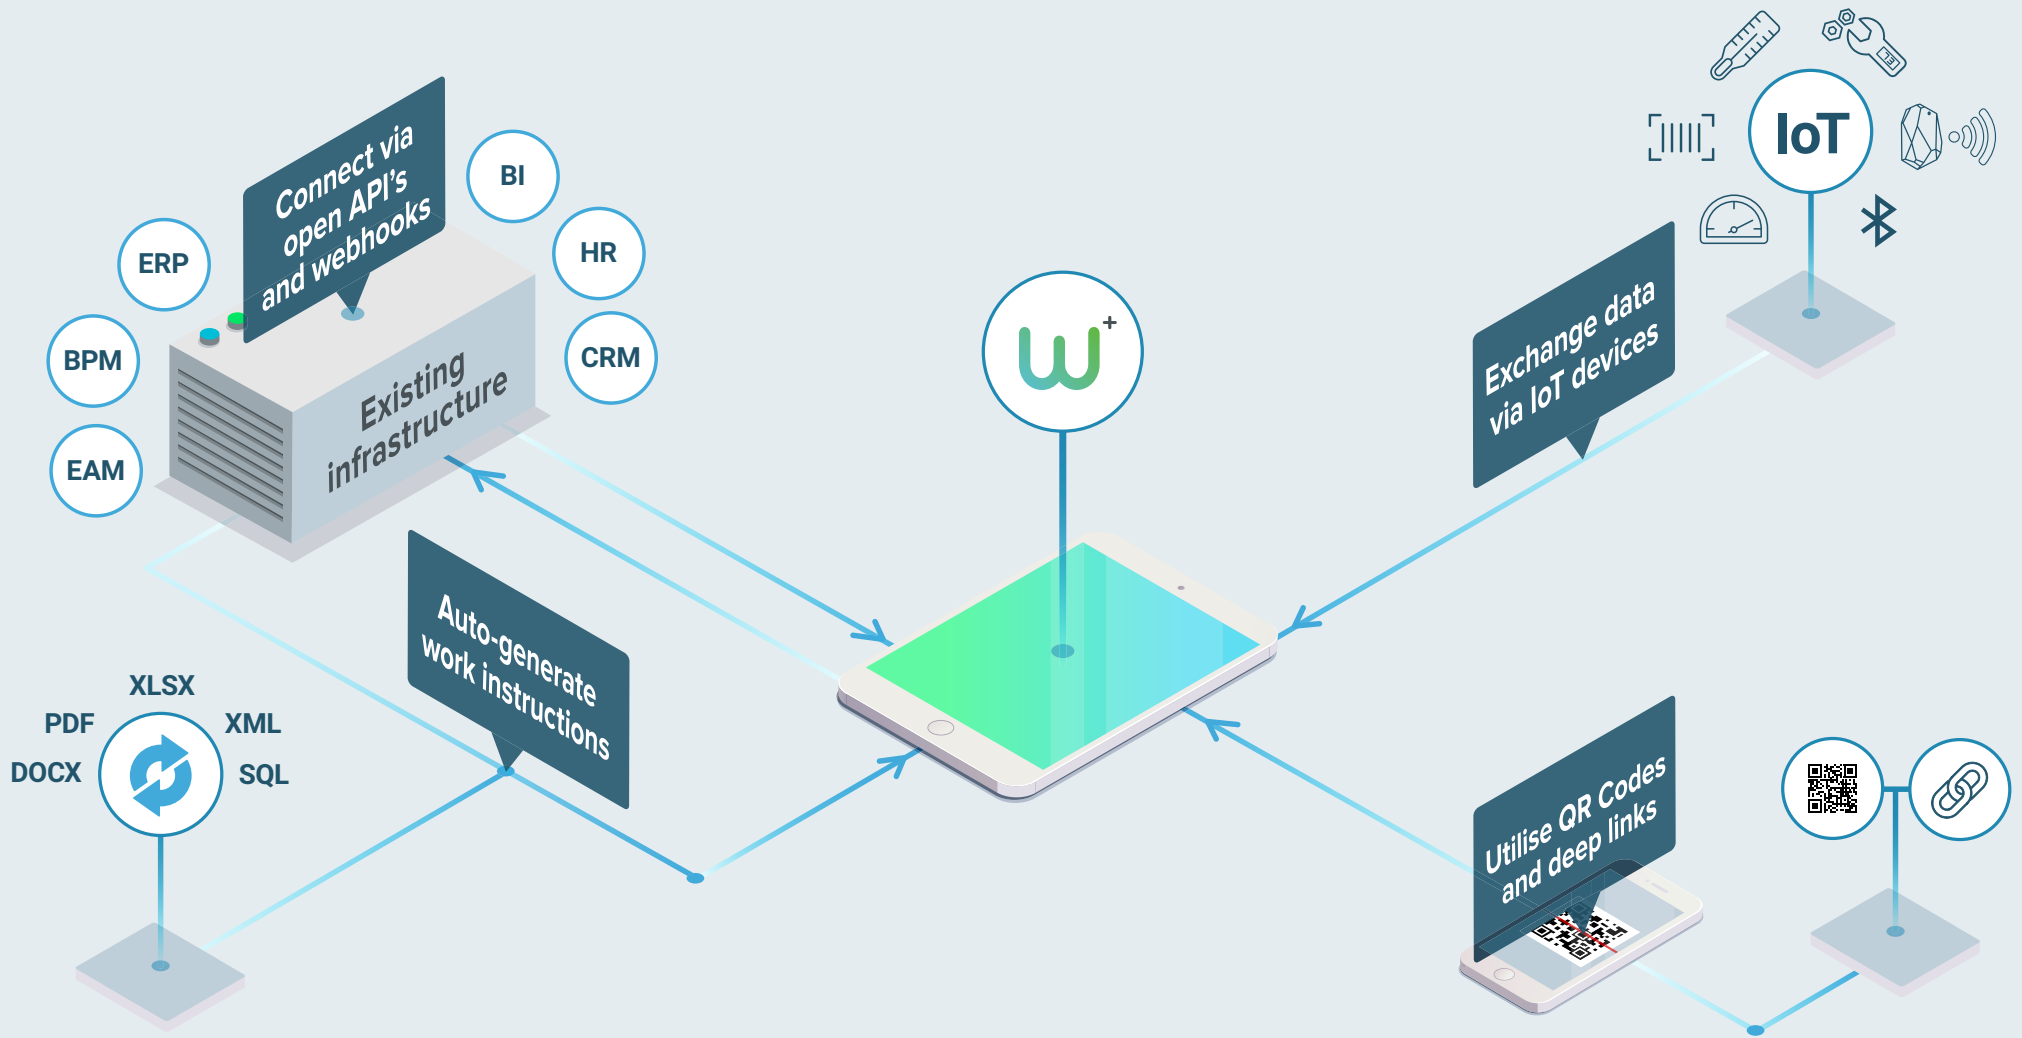

Auto-Generate Work Instructions

Migrate existing digital and paper-based work instructions to WorkfloPlus quickly and easily.

Launch Digital Instructions Via QR Codes & Deep Links

Launch work instructions from your existing infrastructure using deep links and intelligent QR code embedded with hidden meta-data.

The Management Portal

Asset Library

Enrich your workflows with images, videos, audio and technical documentation to ensure that your workforce always have access to the information they need to complete critical tasks.

Job Scheduler

Assign jobs to individual members of your workforce, to entire teams or to specific locations. Specify start and end dates or schedule recurring jobs at intermittent intervals.

Reporting Dashboard

Analyse live data captured directly from the WorkfloPlus App. Identify opportunities for improvement, review evidentiary documentation collected in the field, and keep track of completed, scheduled and aborted jobs.

Conditional Path

Display instructions based on user selections and inputs to ensure that the correct procedure is always followed.

Asset Library

Enrich your workflows with images, videos, audio and technical documentation to ensure that your workforce always have access to the information they need to complete critical tasks.

Get Remote Support Wherever & Whenever You Need It

Thanks to the integrated Remote Expert feature workers in the field can get support via a video or audio link, connecting them to co-workers and teams back at HQ. (Other platforms and integrations also available)

“

Combining the use of its Digital Twin and Connected Worker technology alongside WorkfloPlus Oil and Gas, Petrofac has digitalised more than 1,500 North Sea inspections to drive up to a 200% increase in offshore productivity

”

Petrofac

“

Initially the staff were hesitant to any change to their existing approach, but they quickly found using WorkfloPlus to have major benefits over the paper-based processes. The great thing about it is that we can build a workflow in five minutes, upload it and try it out there and then. So, it's incredibly easy to test, iterate and improve.

”

Transform The Way The World Works

**Remote Expert - Realtime Support
Whenever & Wherever You Need It**

www.intoware.com

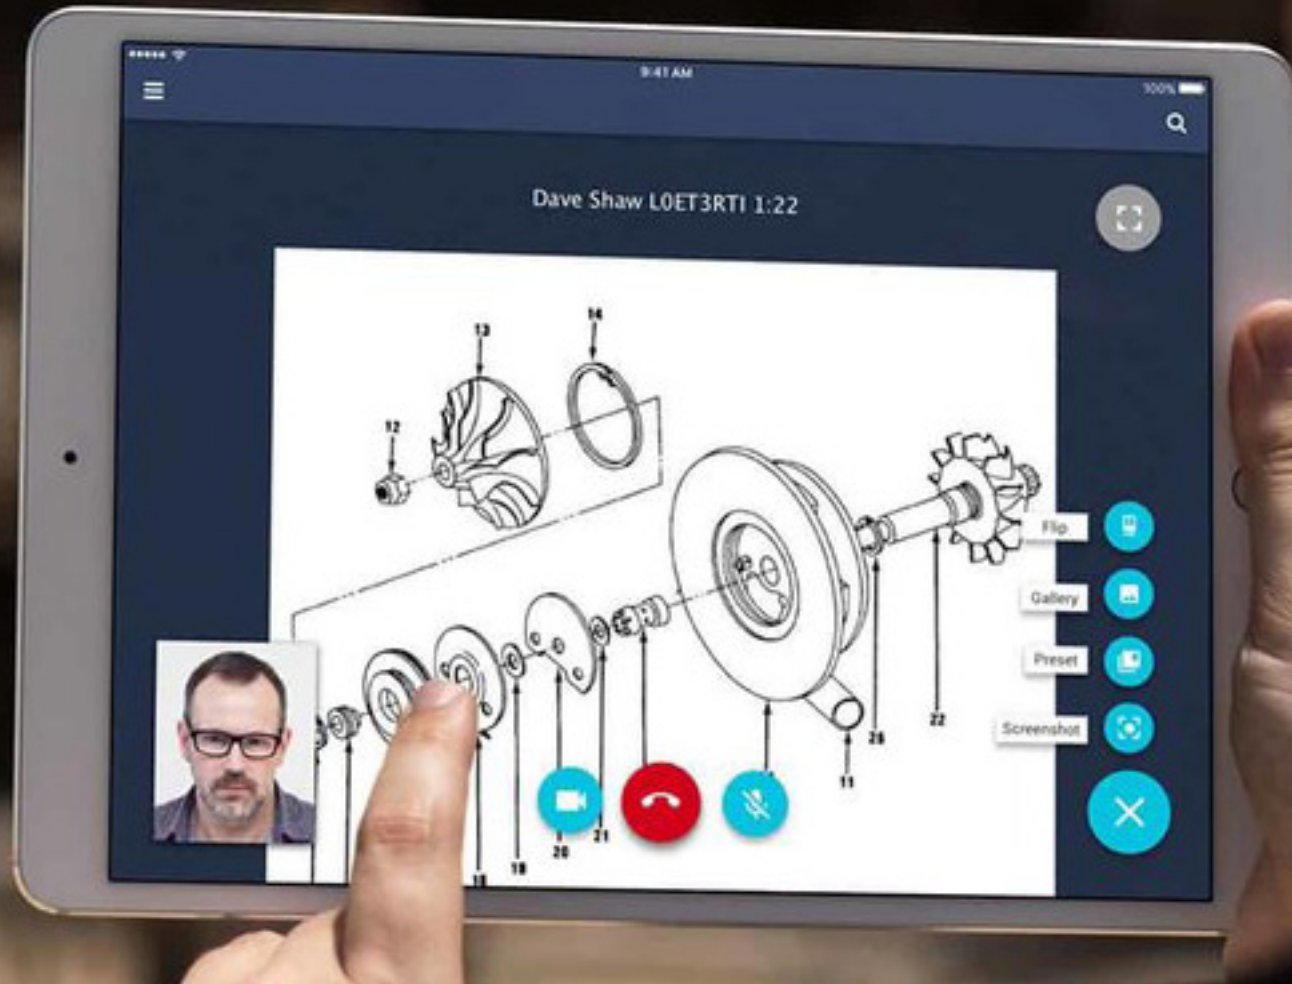

A Whole New Way Of Understanding Your Business Processes

Designed to work seamlessly with Intoware's comprehensive WorkfloPlus Instruction platform, Remote Expert delivers a collaborative environment to provide teams access to augmented content to troubleshoot and rapidly resolve issues in the field by connecting workers to virtual experts. Remote Expert works across a full range of mobile devices including smart phones, tablets, computers and smart glasses, including the RealWear HMT-1.

Expertise Whenever & Wherever You Need It

WorkfloPlus Remote Expert is designed to enable field workers to collaborate with colleagues via a live audio and video link. Capture and share video, annotated images and documents, and get invaluable input when an extra pair of eyes and ears are needed..

Directly Share Your Point Of View

For any situation where additional help or expertise is required, Remote Expert shares a first-person perspective of the work at hand in order to troubleshoot and resolve problems quickly.

Designed To Work In The Real World Environments

WorkfloPlus Remote Expert is designed to work in low-bandwidth situations where cellular and wifi coverage is intermittent. The platform uses a robust back-end management solution and infrastructure that meets the needs of the most stringent IT and security environments.
