

# DECARBONISE YOUR NETWORK

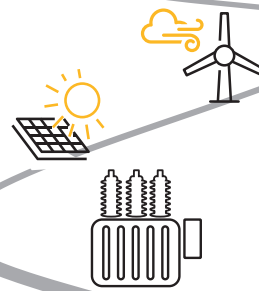

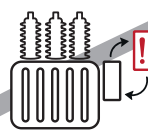

VACUTAP® VBO® THE SMART, MAINTENANCE FREE ON LOAD TAP-CHANGER SOLUTION.

A smart infrastructure solution with significant impact towards Net Zero

Meet Vacutap® VBO®, the first bolt-on, easy install, On Load Tap Changer [OLTC] with vacuum technology providing network operators with significant operational cost savings alongside improved network resilience.

Combining advantages of vacuum technology with an innovative drive system this smart tap-changer solution provides significant maintenance costs savings that typically offset total capital costs over transformer lifetime. With 100% reverse power flow and a significantly lower carbon footprint, Vacutap VBO is the smart choice for network operators dedicated to achieving Net Zero.

ONE SIMPLE INFRASTRUCTURE DECISION TO SECURE FUTURE NETWORK PERFORMANCE, REDUCE MAINTENANCE COSTS AND LOWER YOUR CARBON FOOTPRINT.

NETWORK EFFICIENCY, SUSTAINABILITY & RELIABILITY IS KEY TO YOUR BUSINESS

Provides cost savings of up to £250,000 per unit

## At a glance

- Maintenance free for 300,000 operations
- Reduced maintenance costs & lower carbon footprint
- Upfront capital costs offset by lifetime Opex savings
- Maximum reliability & reduced network risks
- 100% reversed power flow
- Complies with all relevant technical standards
- Smart infrastructure solution & Net Zero enabler
