

P.E REPAIR KIT SYSTEM

External repair system for the repair of polyethylene pipes.

GAS

ELECTRICITY

OIL

WATER

NO SQUEEZE OFF | NO CLAMPS | INSTANT REPAIR!

The P.E repair system is intended to repair damaged holes in P.E pipeline whilst under live conditions.

The kit enables the operator to immediately stop the leak, eliminating the need for any special tooling or equipment.

The P.E repair kit is safe to use for both the operator and the environment as it is non-toxic and environmentally friendly.

The kit is used when a puncture damage has occurred on the body of the pipe, which is typically caused by a digger back hoe bucket tooth.

FEATURES

- Low Odour
- Inert Waste
- Labour Reduction
- Permits pipe movement
- Excellent flexibility
- Waterproof once cured

APPLICATIONS

- Gas
- Waste Water

PRESSURE

- Low Pressure (L/P)
- Up to 100 millibar

PIPE MATERIALS

- Steel
- Cast Iron
- Ductile Iron
- Plastic
- P.E. (Polyethylene)

ADDITIONAL EQUIPMENT

- Polyform Sealant
Non-slumping sealant designed to encase the P.E kits to provide a robust repair.
- Low Pressure Kit
Specialist film for encasing repairs comes with application spatula, mixing tool and protective gloves.
