

## The most sustainable product on the market

### •Lightweight

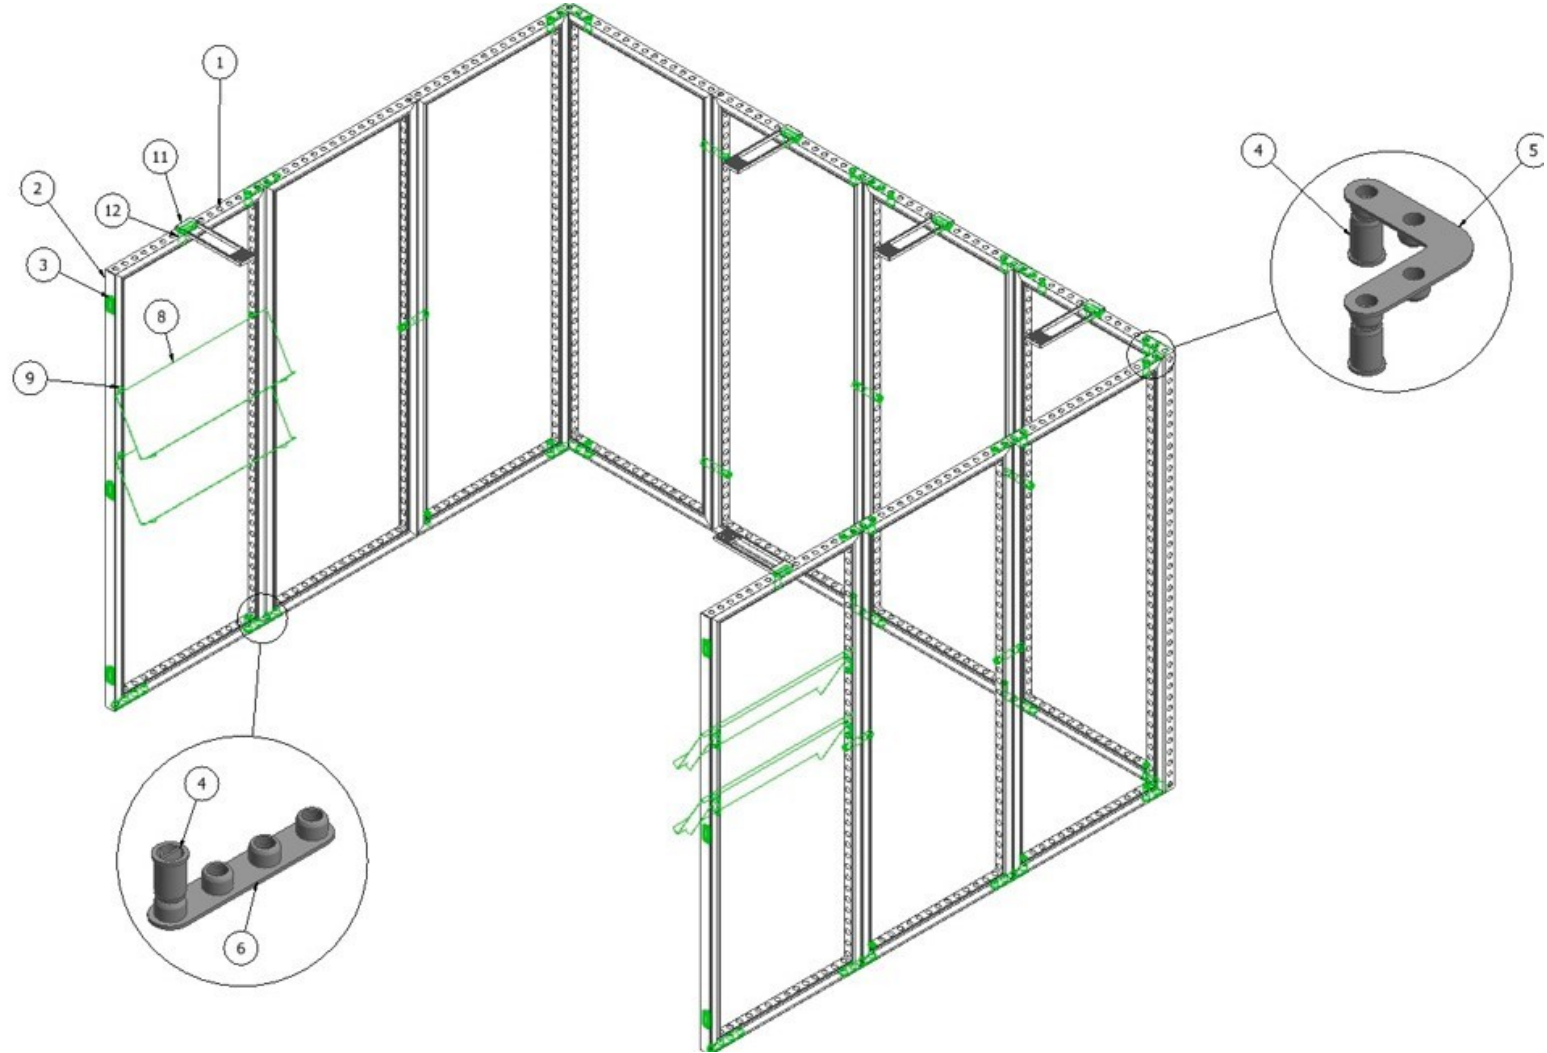

The low weight is one of the reasons why the frames are regarded as very user friendly and allows the stand builder to use less personnel for assembly.

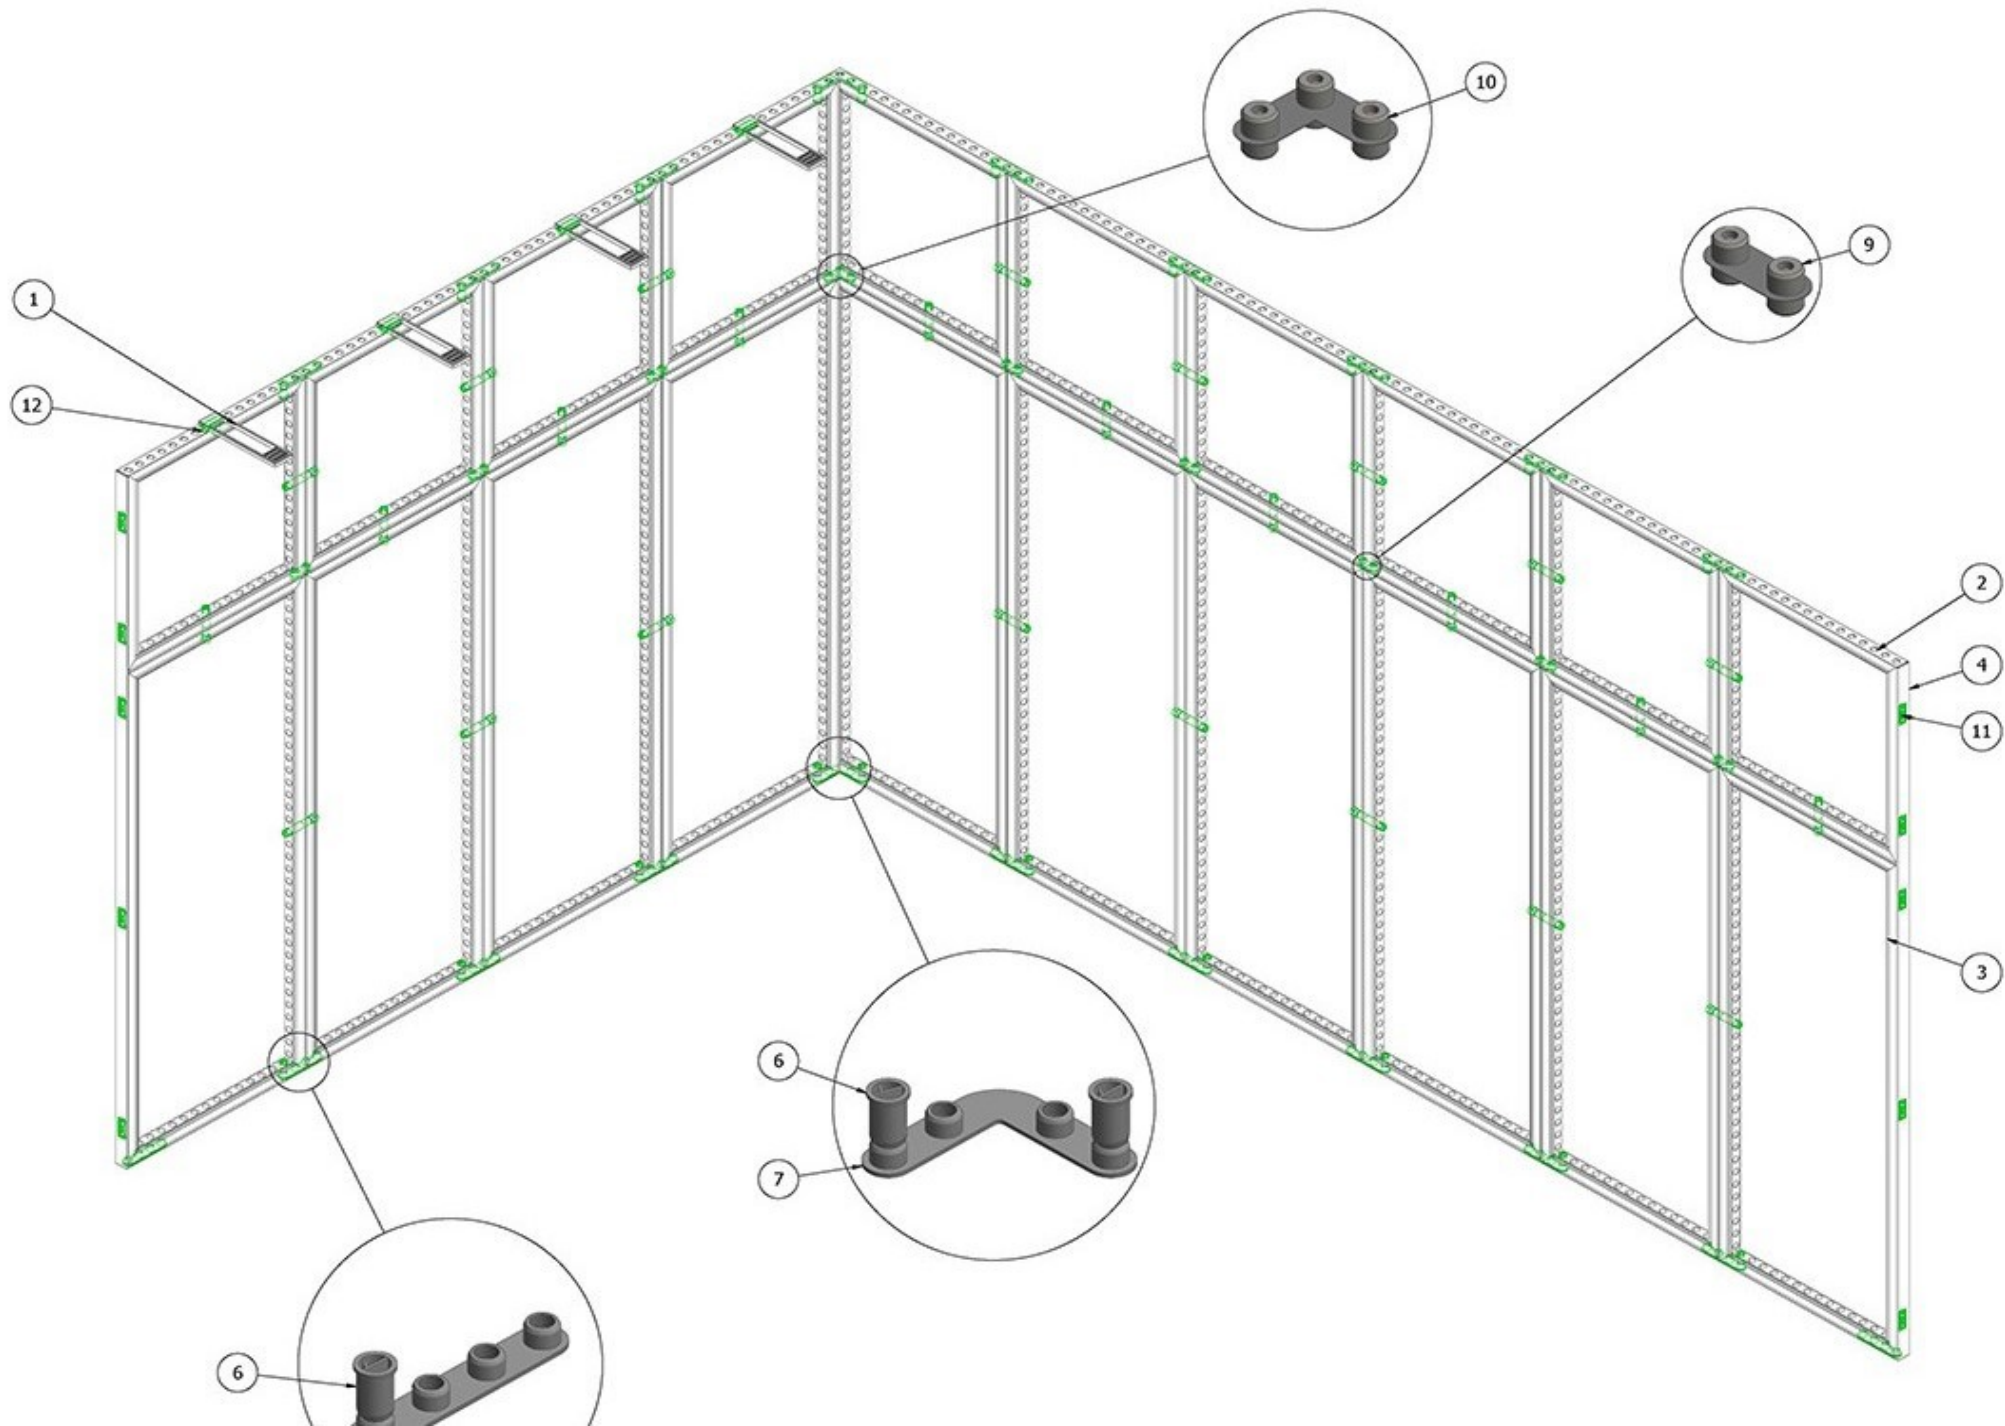

### •Durable

The frames can be used over 200 times, in different types of set-ups, it lowers the need for raw materials to manufacture new frames.

### •Modular

The system allows a 360° configuration: the frames can be used for flooring, ceiling and walls. One group of frames can be used in different kinds of set-ups hence reducing the need for additional materials
