# THE 'BIG SMOKE' GOES ELECTRIC! FULLY CHARGED LIVE LAUNCHES IN LONDON AS 'EVERYTHING ELECTRIC!'

# EVERYTHING ELECTRIC LONDON

It feels like a critical time for electric cars and cleaner energy in the UK, and yet, it really shouldn't be. After confirmation of a technical recession and a series of regressive policy decisions, Britain is being left behind by other more progressive countries around the world. And yet we know that inhabitants of the UK want cleaner, greener technologies, after all, this is where the Fully Charged Show was founded, and where one quarter of our YouTube audience resides. So while we've gone BIG with the launch of **Everything Electric LONDON**, there is no doubt from our experiences elsewhere that this 'festival of electrification' will be much bigger still in years 2, 3 and 4.

In fact, having just returned from **Everything Electric AUSTRALIA** we can confirm what a difference politics can make. Where there was despondency in electric car circles there less than two years ago, there is now positivity, purpose, and purchasing intent. To such an extent that at its current run rate, the percentage of new car sales that are electric in Australia might even catch up with the UK by the end of the year – a thought that was absolutely unthinkable three short years ago. We are delighted to be building these electric home and motor shows around the world, and while we've been told that our Sydney show was bigger and better than the Geneva Motor Show, we're only just getting going!

Everything Electric LONDON goes one further. By bringing together a superstar cast of energy and transport experts who can help you save on bills and even make money from generating energy, as well as enabling the smoothest switch to electric vehicles possible, it is an invaluable day out. Our founding father Robert Llewellyn (Red Dwarf, Scrapheap Challenge) returns to the stage at **Everything Electric LONDON** and is joined by **Fully Charged SHOW** presenters Imogen Bhogal, Jack Scarlett, Elliot Richards, Helen Czerski, Ricky Roy, and yours truly, as well as several other YouTube stars including Colin Furze, Just Have a Think!, Auto Trader,

Electroheads, and hundreds of experts on all things electric. Our outstanding theatre programme, supplemented by sessions on the Zero Carbon Kitchen and on the Energy Advice Zone too, offers you oodles of organic brainfood too.

What's more, **Everything Electric LONDON** also offers the biggest electric test drive programme ever hosted in the Northern hemisphere, perhaps even the world, with thousands of test drives over three days, you can get the chance to compare and contrast multiple electric cars over one long weekend. And that's not forgetting our Commercial Vehicle and Micro-Mobility Zones. Of course, we also have an exhibition stuffed with scores of scintillating companies eager to help you #StopBurningStuff and move over to cleaner, greener technologies and services. And perhaps most importantly we have tons of Easter activities for younger attendees in the biggest Kids Zone we have ever delivered.

And don't forget if you're in the business as a transport or energy professional, remember you can access the first day of the show (Thursday March 28th) for free thanks to Close Brothers. Just register in advance (search LinkedIn for Everything Electric BUSINESS) and all we ask in return is that you spread the word and invite your colleagues, friends and family.

We can't wait to welcome you all to ExCel London!!

**Dan Caesar** | CEO | Fully Charged

## IMPORTANT INFORMATION

**Opening Times** – The show opens at 10.00 am on Thursday, Friday and Saturday. We would ask for your patience as you enter the show; queues are quite likely. The show closes at 5pm on Thursday and Friday and 4pm on Saturday.

**How To Get Here** – There are many ways to get to ExCeL depending on your preferred method - use the Elizabeth line or DLR to Custom House (West entrance),

arrive by car, taxi, bus or bike and even join us by the river using Uber Boats by Thames Clippers or the Cable Car - plan your journey in advance and find more details on our Visit page

**Accessibility** – The venue is easily accessible for visitors with mobility difficulties and accessibility needs. ExCel London, has 80 bays suitable accessible for disabled drivers and can provide mobility scooters to hire. Those requiring assistance will be able to bring one carer for free to accompany them at the event. Find more details in our FAQ pages.

**Presenting team:** Robert Llewellyn, Helen Czerski, Jack Scarlett, Imogen Bhogal, Elliot Richards, Ricky Roy & Dan Caesar.

## EVERYTHING ELECTRIC?

We make it our mission to get 'almost' everything electric to our shows, and our London show is no exception. There are so many cars at this show, and as we add vehicles into the final few days, it's impossible to list them all. Keep your eyes peeled for the weird and the wonderful, and if you arrive early enough enjoy the test drive options too!

# Meet the Zero Emission Boiler (ZEB®)

Boilers play a big part in the climate crisis. Switch to one powered by a cleaner alternative - electricity.

### Cut Emissions

The ZEB is powered by electricity so doesn't release any pollution, offering a cleaner alternative to your existing boiler.

### Cost-effective

The ZEB stores most of the heat your home requires during off-peak times to be used on demand, keeping electricity costs low.

### Smart & Flexible

The ZEB programmes itself to deliver the right amount of heat based on usage, weather and tariff. It can also be controlled from anywhere with our tepeo App.

### Easy to Install

The ZEB is a direct replacement for your existing boiler, meaning installation typically takes only 1-2 days and requires minimal changes to the home.
