Leading the charge

At the NRMA, we're passionate about helping make everyone's transition to an electric future smooth and beneficial. That's why we've launched our NRMA Electric charging network, provided handy tools, info and resources, and we're continuing to host EV drive days across the state, plus so much more. But we're not done yet. We'll continue finding ways to help people make the switch and support our members with benefits that go far beyond the roadside.

Want to know more?

STREWTH! FULLY CHARGED RETURNS, AS 'EVERYTHING ELECTRIC!'

**EVERYTHING
ELECTRIC
AUSTRALIA**

POWERED BY **NRMA**

Can you believe it's been a year since Fully Charged LIVE launched in Sydney? No, neither can we! It's been an incredible year for the Australian uptake of electric vehicles and home energy tech – good on ya! We're delighted to return as 'Everything Electric AUSTRALIA' much bigger, and better, than before.

In the last 12 months we've delivered our 'festivals of electrification' around the world, and the atmosphere in Australia is one of real positivity. Perhaps it's the time it took for carmakers to bring battery electric vehicles to these shores, or perhaps it's the potential for Australia to play a really transformative role in the electrification of everything, but whatever the reason, we're here for it. And so, this time, are most of the carmakers!

Our founding father Robert Llewellyn returns to the stage at **Everything Electric AUSTRALIA** and is joined by **Fully Charged SHOW** presenters Imogen Bhogal, Jack Scarlett, Elliot Richards, Simone Annan and (this time) yours truly, as well as several other YouTube stars including Electric Viking, Engineering with Rosie, ColdFusion, and hundreds of experts on all things electric. Our outstanding theatre programme, supplemented by sessions on the Zero Carbon Kitchen and on the Home Energy Advice Team too, offers you oodles of organic brainfood.

What's more, **Everything Electric AUSTRALIA** also offers the biggest electric test drive programme ever hosted in the Southern hemisphere, with thousands of test drives over three days, you can get the chance to compare and contrast multiple electric cars over one long weekend. And that's not forgetting our Commercial Vehicle and Micro-Mobility Zones. And of course, we also have an exhibition stuffed with scores of scintillating companies eager to help you #StopBurningStuff and move over to cleaner, greener technologies and services.

And if you're in the business as a transport or energy professional, remember you can access the first day of the show (Friday February 9th) for free thanks to Evie Networks, by registering in advance.

We are delighted to say that **Everything Electric AUSTRALIA** will return to Sydney in March 2025, and you can expect it to be even bigger, and better again.

Until then, enjoy!

Dan Caesar | CEO | Fully Charged

IMPORTANT INFORMATION

How To Get Here – Everything Electric AUSTRALIA takes place at the Sydney Showground, visitor travel information is available online: www.sydneyshowground.com.au/visitors

Opening Times – The show opens at 10.00 am on Friday, Saturday and Sunday. We would ask for your patience as you enter the show; queues are quite likely. The show closes at 5pm on all three days.

Disabled Access – The venue has been designed to suit the requirements of people with disability. Easy pedestrian access with street access to all halls. A limited amount of wheelchairs will be available on a first-come-first-served basis.

Presenting team: Robert Llewellyn, Simone Annan, Jack Scarlett, Imogen Bhogal, Elliot Richards, Rosie Barnes & Dan Caesar.

PEUGEOT NEW e-2008 100% ELECTRIC

EXCLUSIVE SHOW OFFER

To celebrate PEUGEOT Australia's participation in the Everything Electric Show 2024, we have an exclusive, limited time only sales offer just for you.

Purchase a selected MY23 PEUGEOT 100% electric e-2008 SUV and take delivery by 31st March 2024 to receive \$5,000 CASHBACK¹. PLUS, your first 3 scheduled services FREE².

So come and visit us at the PEUGEOT stand and book your test drive. Then claim your exclusive offer by presenting this advert at a participating PEUGEOT dealership.

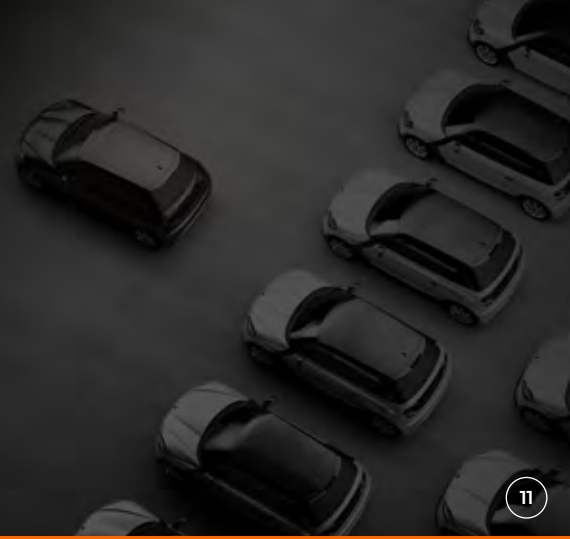

1. Cashback offer applies to new or demo MY23 PEUGEOT e-2008 SUVs and will be applied in the form of a discount on the advertised driveway price, at the time of purchase. Offer available while stocks last at participating PEUGEOT dealers on new or demo MY23 PEUGEOT e-2008 vehicles sold between 01/02/24 and 31/03/24 and delivered by 31/03/24. Offer excludes fleet, government, and rental buyers. PEUGEOT Australia reserves the right to change, supersede or extend this offer at its discretion. 2. Offer available while stock lasts at participating PEUGEOT dealers on all new MY23 PEUGEOT e-2008 vehicles sold from 01/02/24 and 31/03/24 and delivered by 31/03/24. First 3 scheduled servicing free offer is based on scheduled (ie, logbook) servicing and must be completed in accordance with each vehicle's recommended servicing schedule, the earlier of every 12 months/25,000kms on e-2008 at a participating PEUGEOT dealer. Free scheduled services are of limited scope. Offer excludes fleet, government, and rental buyers. PEUGEOT Australia reserves the right to change, supersede or extend this offer at its discretion.

10:30-11:00

How does EV charging in Australia compare to the rest of the world?

What is coming up in EV charging?
How do we lag behind other countries and
what are we doing now to catch up.

11:30-12:15

Charging into the Future: Unpacking the customer impact of EV charging

Differentiate from your competitors and keep
your offering relevant – How can your customers
benefit from an EV charging product offering?
Not sure where to start in transitioning your fleet?
We'll discuss everything from getting started to
reporting and maintaining your network.

13:00-13:30

What do Evie customers want from a charge point operator? And are we really listening?

Evie is ensuring every customer gets a great
customer experience at every charge.
Unpack what this means from site selection to
the digital customer expectation.

13:45-14:15

Empowering Change: How landowners are backing the EV shift by sharing their land

What are the key benefits that come with
embracing fast charging technology, offering
valuable insights for businesses and property
owners considering a new on site investment
including sustainability benefits and how
Government are supporting this shift.

14:30-15:00

Powering your fleet: at home, at work and on the road

An electric fleet means your employees can refuel
wherever there is a power outlet. But where
will all those electrons come from? What is the
electricity industry doing to get you moving?

EXPERIENCE A LUXURY BMW ELECTRIC VEHICLE WITHOUT THE LUXURY CAR TAX.

Selected BMW electric vehicles are now priced below the luxury car tax threshold.* Enjoy a smooth and stylish journey in the fully-electric BMW iX1 and iX2 SUVs. Or, experience a thrilling new era of electric driving in the sporty BMW i4 sedan. Make your dream a reality and own a BMW electric vehicle today.

[Q BMW Electric](#)

*LCT threshold assessment based on MRDP and delivery charges. The MRDP varies by customer location and is an estimated price which includes the manufacturer's recommended retail price for the vehicle, registration, compulsory third party insurance (CTP), the manufacturer's estimated dealer delivery charge, stamp duty, luxury car tax (if applicable), and other applicable statutory charges, excluding optional extras. The amounts of some of these components are set by third parties over which BMW has no control, and are subject to change. The actual drive away price that a customer may pay for any BMW vehicle will be agreed with the selling Dealer and set out in the Dealer Sales Contract. Overseas model shown. Local specifications may vary.
