Box Frames

Box frames are only one of a number of framing options we are able to offer you. Available in a range of colours, box frames allow the print to be mounted flush with the edge of the frame giving your image a contemporary chunky setting. These frames work superbly with modern photographic styles. Prints can be laminated with a choice of textured finishes including Satin and Gloss effects to enhance the image and also protect the print or make your image really 'pop' by using a metallic paper for maximum luminosity and iridescence.

Canvas Box Frame

The Canvas Box Print gives a new dimension to the traditional Canvas Wrap. Made as a normal Canvas Wrap, then professionally framed with either Black Wash or White Wash moulding. The Canvas Wrap is positioned approximately 10mm inside of the moulding, allowing the sides of the wrap to be seen.
