

VEO ADAPTOR

BACKPACK

Vanguard's **VEO ADAPTOR BACKPACKS** deliver everything you would expect in a camera backpack, with a few twists. Each model includes a USB interface port that allows you to keep the power charger of your choice in the bag, and connect your chosen kit so you can stay charged on the go. In addition, the series introduces new, extra wide side access models in the range so you have easy access to your kit on "S" models for both left/right handed photographers (or traditional rear access on "R" models). Alongside this, the series includes more incremental changes such as improved waterproofing, light reflective touches to stay safe at night, and thicker padded straps/handles for maximum comfort. All this in a slim, stylish, modern design, in a choice of traditional Black or premium Grey finish, and a choice of four sizes.
