FEATURES

AXIS COLLECTION

The Tenba Axis Tactical Backpack collection is inspired by the ultra-durable bags we've made for the military throughout our 40-year history. Like all Tenba bags, these backpacks are built with uncompromising materials and hardware. Designed for quick access that offers solid protection and maximum comfort, these backpacks are tough enough for any adventure.

3-Point Camera Access

Exchange camera gear through the side, top or rear of the pack.
Side Access - quick camera removal while wearing the bag.
Top Access - to work out of the bag, and Rear Access - to get at all your gear at once.

Front Organising Pocket

Plenty of space for cables, batteries and other accessories, deep enough to fit a weatherproof jacket or other oversized cameras.

Raincover

Added layer of protection in wet weather conditions. Removeable, so it can be washed and/or dried when needed.

Padded Laptop Sleeve

Located inside the rear access panel, the protective sleeve fits a laptop up to 15 inches in the 20L, or a 17 inch laptop in the 24L and 32L.

Tripod Compatible

Dual MOLLE-compatible Straps and a reinforced cup allow the secure attachment of virtually any size tripod.

Reflective MOLLE Webbing

Allows limitless expandability with Tenba Tools, as well as military-standard pouches and accessories. Tenba's MOLLE webbing includes a subtle thread that is highly reflective to ensure safety when walking or riding a bike near cars at night.

Trolley Height-Adjustable Airflow Harness

Customisable harness fits virtually any torso size and allows easy, micro adjustments strap height. Perforated foam and ventilated mesh combine to keep air flowing on hot days. Supportive hip belt is removable to streamline the bag.

5 Year Warranty

Years of camera bag making experience combined with our commitment to using the highest quality materials gives us the confidence to back our bags with a 5-year warranty that covers original workmanship and material defects.
