

YouTac®

Repositionable & Removable

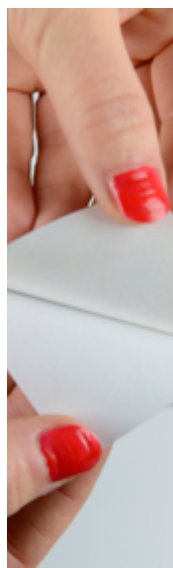

Introducing YouTac®, the adhesive media with superior imaging quality. Featuring a unique repositionable, removable, intelligent adhesive, developed by the innovation specialists: the award winning Innova Art team.

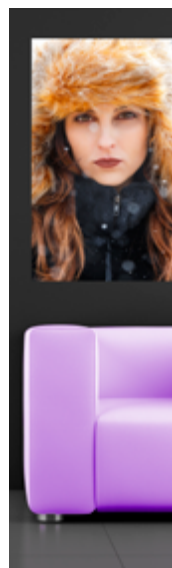

YouTac® is suitable for a wide range of applications and will adhere to all non-porous and many porous surfaces. It can be repositioned during installation and, when it is time to change, can be easily removed without damaging walls or leaving adhesive residue behind - which means no more wasted time repairing and cleaning walls after graphic installations have been removed.

The eye popping image characteristics of YouTac®, as well as the flexible characteristics of the media and adhesive, make it ideal for so many uses including; temporary event signage, large scale wall graphics, custom home décor as well as point of purchase signs. It can even be wrapped around curves, the possible applications are limitless.

Whether you are using aqueous, eco-solvent, latex or UV printers, there is a YouTac® product right for you.
