

**Time saving, efficient canvas stretcher bars, no need to use staples or canvas pliers**

## 1500 Pro Bars

1.5" Deep edge, extra thick for professional canvas wraps

## Hex Frames

1.25" Deep edge stretcher bars for hexagonal shaped canvases

## Collage Clips

Connect hexagonal canvases to create unique photo collages

### 1500 Pro Bars

GOframe professionally with the 1500 Pro bar. Creating a canvas with a 1.5" deep edge, these bars really give your canvas substance. Utilising high quality adhesive tape that negates the need for canvas pliers you can have a wall ready canvas in less than five minutes, For additional stability in larger frames a centre brace can also be added.

### Starter Kit

This handy kit include everything you need to start working with GOframe 1500 Pro Bars: a bottle of archival quality glue and a corner kit designed especially for each bar system.

Fits Bar Size	Includes			Packs Per Carton	Product Code
	Corner Kit	Canvas Trimmer	Extra Corner Pins		
1500 Pro	✓	✓	✓	10	GFP1500PSKMCEU

All GOframe bars come with adhesive strips on them, making the use of staple guns in canvas stretching obsolete. Simply remove the adhesive liner, insert your bars into the correct size corner kit and position your image. Remove the corner kit and trim excess canvas, pull the bars up to create the canvas edge and secure the corners with the included pins. Finish by snapping the corner tabs into place for drum like tension.

### Canvas Trimmer and Archival Quality Glue

No need for a cutting mat or craft knife, the unique GOframe trimmer is safe, easy to use and will ensure you do not make an over-cut when cutting into the corners of your canvas. The archival quality glue is essential keep your media secure when using canvas, if you use paper to display an image on your GOframe, you may find it is not required.

	Quantity Per Pack	Packs Per Carton	Product Code
Canvas Trimmer	1	10	GF1500TKMCEU
Archival Quality Glue	4 Bottles (4oz)	10	GF1500GPMCEU

## Hex Frames

Go unique with hexagonal stretched canvases. Available in a standard length of 5" (12.7cm), just take six bars from a box to create the edges of your hexagon frame. It could not be easier to create a uniquely shaped hexagon stretched canvas from your own print. All you need is a Hex frame corner kit, a canvas trimmer and some archival quality glue. Simply remove the adhesive tape from each bar, position on the back of the canvas and apply pressure to secure in place. With a little bit of glue your canvas print will stay secure for a lifetime and the archival properties ensure there is nothing in contact with your print that could damage it, insert corner pins to create the hexagon shape and you have a unique stretched canvas in no time! Each bar is only 10mm thick, so they are fully compatible with GOframe Collage Clips. Finished frames have an edge depth of 1.25" creating a stand out from any backdrop, these frames can also be used as free standing desk displays.

5	12.7	36	5	GF1205HEXMCEU

### Corner Kit

The reusable corner kit hold the corners of your hex frame secure and keep the tape from touching your canvas whilst you get the placement picture perfect.

Fits Bar Size	Description	Packs Per Carton	Product Code
Hex	Corner Kit (6 Corners)	10	GFHEXCKMCEU

GOframe stretcher bars are made from the best grades of North American basswood. This is the wood of choice for most museum quality stretcher bars due to its stability, low resin and lignin content. The wood is kiln dried to a moisture content below 8% which will insure that there will be no warp or shrinkage after the canvas is applied to the stretching frame. GOframe only buy from sawmills that use sustainable forest practises.

## Collage Clips

### Collage Clips

Go collage for extra style - simply slot onto the edge of two frames and the in built spacer creates an even gap between images. Create eye catching photo montages or tile a large image over smaller frames with the unique Collage Clips.
