

2022 CASES WORKBOOK

Our Brand

We're about happiness by cases. It means we're not just in the business of creating protective cases, even though that is what we do. Our everyday commitment is designed to make people happy.

From an ever-growing collection of innovative products to our passionate team who makes it happen, it's all about happiness.

Our Products

We're always looking for what's next. We're constantly innovating our original designed form and function, proving a fresh approach to the art of cases. By incorporating different styles, top quality materials and eye-catching patterns into our design, we make more than a case. We make a statement.

Our History

HPRC cases were born in 2006 with one simple premise: we can design a better case. In more than 15 years HPRC has grown into a successful international business, teaming up with important companies and partners. Our products can be found in more than 80 countries and have garnered top awards and praise. As we grow, our entrepreneurial spirit continues to drive the HPRC culture. After all, it's what helped us build one of the world's best hard cases brand.

Commitments

Our commitments to you:

1.UNDERSTAND the problems of your market and your specific requirements. Through our expert knowledge of technological and economic trends we can offer an uncompromisingly individual approach to each customer.

2.FIND a transport solution tailored to your requirements. Our extensive cases range, our custom solutions that go far beyond our product offer, our team that assists you in selecting the case that is best suited to your own needs, are our core strengths.

3.LISTEN to and take account of your comments, through our network of experts and our frequent satisfaction surveys.

4.BE incessantly innovative and competitive in the professional cases market.

Inside the **R**-Evolution

Revolution begins inside first: we start every day thinking different, exploring new ideas, projects and solutions. We work side by side in Italy, but we turn to people all around the world to inspire and get inspired.

We are involved in a constant revolution that goes hand in hand with the spirit of renewal of the brand. Our day-to-day commitment is to meet customer needs and personalize their journey. To do better, to offer the best.

Ultralight. Watertight. Smart Cases.

HPRC cases can be used for all sorts of applications and different areas: from medical and hi-tech (measurement, laser, etc) to industrial and electronics, military and Government police law enforcement, nautical, outdoor, imaging, broadcasting and many more. HPRC provides total protection to the carried equipment against dust, water, impacts and corrosion caused by chemical agents.

Fire | Emergency | Medical

Imaging & Broadcasting

Industrial | Electronic | High Tech

Military | Government

Outdoor | Diving | Marine

Standard cases.

HPRC cases are available with a standard setup if you don't need any special customization regarding the shell or the interior foam. Here are the 5 possible standard configurations.

* EMPTY

* SECOND SKIN

* CUBED FOAM

* SOFT PADDED OPEN DECK + DIVIDERS

* INTERIOR BAG

*PANEL FRAME KIT AVAILABLE

Oem cases.

We are cases producers,
if you do not find the right size or best liked design
we will make a customized case for you

1. Product inquiry >>>> Mold + price offer
2. Contract signing >>>> Design drawing
3. Client confirmation >>>> Mold making
4. Sample checking >>>> Production arrangement

Custom fit cases.

Customization concerns: color, printing, adhesive, foam inlay (die cut, water cut, milled, moulded), thermoformed inlay, lid panels and organizers, extra working on the cases shell (holes, external applications) keeping the watertightness.

SHELL CUSTOMIZATION

HPRC customization service provides shell customization, including holes for external connections.

HPRC panel frame accessory (HPRCPF) allows customers to install a control panel into the case, ensuring a perfect fit.

LAYOUT CUSTOMIZATION

We give customers different equipment layouts options in order to optimize space and handiness.

COVER CUSTOMIZATION

Customization also includes the possibility to design solutions in order to use the cover as a glove compartment. We can provide organizers, special tools addition, shell modifications and custom colors.

HIGH VISIBILITY INLAYS

A special high visibility inlay can be designed in order to avoid forgetting equipment on the field after use.

WATER CUTTING TECHNOLOGY FOAMS

Expanded polietilene foams are available in various densities (Kg/m³), resistance to compression (kPal) and resistance to different temperatures ranges. These foams, produced with water cutting technology, guarantee protection and allow a wide range of customizations.

MULTY LAYER

A multi layer case is a handy solution, especially when equipment is made of many small and different parts that must be stored and protected into one case only.

INJECTION INLAYS

The custom inlay made in expanded polypropylene of different densities guarantees a perfect protection and a professional look to the case. Our service includes the initial study of the mould and goes trough the prototype phase and final production.

MILLED FOAMS

The milling technology allows to get one piece inlays with many different depths.

HPRC:

innovation, technology and design.

TTX01® COMPOUND

Most hard watertight cases are made in standard pp: our R&D department has developed an enhanced compound, still based on pp, now balanced with additional high performance resins. TTX01® allows to produce cases which are lighter in weight and stronger in robustness. The special mix we add makes the HPRC shell thinner and more elastic, increasing therefore the shockproof degree and the lightweight. On top of that, maintaining pp characteristics, HPRC cases are acidproof, scratchproof, able to resist to extreme weather conditions and temperature changes (all products are tested from - 40° c up to 80°c). The hardware of the cases is made of steel.

AIREX PURGE VALVE

AirEx is the new automatic purge valve. Its auto press release adjusts to changing environments automatically, and helps avoiding the valve from detaching from the case itself. The valve works through a GVS medical filter which allows the air exchange while protecting from water, dust and sand.

LIZARD PATT

A revolutionary ergonomic handle, made of PP and SEBS materials, which provides:

- high quality and secure grip, even at low temperatures and in wet conditions
- no-slip for better control and safety, also in presence of oils, grease and liquids
- greater level of comfort
- optimal handling
- scratch protection
- strengthened resistance
- long durability

Also the extensible trolley handles, made of ALU + SEBS, feature this ergonomic handle.

ALL TERRAIN WHEELS

HPRC wheels are extremely versatile. They can cover any ground in any weather conditions:

- cutting-edge innovation for a great grip
- high performance in wet and dry conditions
- sure-footedness in a wide range of fields (asphalt, sand, stones, snow, porphyry)
- rolling smoothly for hundreds of miles
- more stability and enhanced safety
- easy wheels replacement
- increased wheels durability
- made of PA66 + TPU

GASKET O-RING SEAL

The internal O-ring, which runs along the entire perimeter of the lid, is made of expanded EPDM and guarantees the case's watertight qualities.

CLOSING LATCHES

Made of PA + GF, the closing latches are extremely sturdy. They are equipped with a two-step opening / closing system to ensure fluidity of movement and to prevent the hooks from opening in the event of a fall.

HIGHLIGHTS

New mechanics and engineering of the short sides which provide more resistance to the shell and improved flexibility.

Refresh of the external surface with an embossing effect which makes it pleasant to touch.

New name plate: larger dimensions, improved shock-resistance and renewed design.

CERTIFIED STANDARDS

All HPRC cases meet high qualitative certified standards and have undergone stringent testing based on national and international regulations / standards such as drop, impact, watertightness, handle, UV color and material protection.

CERTIFICATIONS		TEST	
IP67	✓	Drop	✓
STANAG 4280	✓	Impact	✓
DS 81-41	✓	Watertightness	✓
ATA300 compliant	✓	Handle	✓
		UV color and material protection	✓

HPRC LIFE TIME WARRANTY

HPRC products have been built to rigorous standards of quality and are guaranteed against all defects in materials and workmanship for the whole life of the case.

WE CASE IN GREEN

All shells and components of HPRC cases are 100% recyclable: the production and transformation discards are indeed reintegrated in the production cycle. The high resistance of the patented material TTX01® allows to use the HPRC cases longer than any other case, reducing therefore the emissions of CO2 due to the production and distribution. The constant quest for geographically close suppliers complying with ISO 14000 or EMAS certification is a contribute to reduce the environmental impact. Moreover HPRC adopts renewable sources plants for energy production to cover the energetic needs.

HPRC:

tailor-made solutions.

CUSTOM LASER DESIGN

HPRC CUSTOM LASER DESIGN is the new HPRC service born to offer endless possibilities to customize and add value to your case. No minimum order quantity. Technical support, graphic development and fast turnaround. And on top of that,

- precise finishing even in small and hard to reach areas that other technologies cannot achieve
- permanent and durable result: abrasion, water, solvent, oil, temperature proof and UV resistant
- high resolution, high quality and precision
- long-term readability
- environment friendly. No use of paints, ink, acid or chemicals involved
- excellent energy efficiency. Short production time without downtime
- in-house management of all phases

BUSINESS SOLUTION

Our staff is passionate about developing high-quality tailor-made solutions to meet all your requirements and offer an uncompromisingly individual approach to each customer.

Completely new projects or customization of existing products are our flagship.

Ad hoc colors, printing, adhesives, foam inlays, thermoformed inlays, lid panels and organizers, extra working on the cases shell (holes, external applications) are just some of the customizations we can do.

THE FOAM COMPANY

THE FOAM COMPANY
BASSANO

Besides the possibility of customizing the shell, HPRC also give customers the chance to choose the best solution to optimize space and handiness inside the case.

Totally and strictly compliant with customer requirements, our technical department propose different solutions for the customized foam inserts, from foam inlays (die cut, water cut, milled, moulded) to thermoformed inlays.

When innovation becomes a case

Main features:

- 4 built in wheels: roll the case along by simply pushing it while it's on the ground
- two side handles: push or pull the case as a trolley
- stackable exterior lid design: use the case as a cart by stacking more cases on top of each other
- two lateral handles: when you need to hold the case from both sides
- comfortable soft-grip handle
- braked wheels to prevent unexpected movement

READY TO USE

EXHAUSTED
(TO BE REGENERATED)

PROTECT YOUR GEAR

Dry Keeper is a special container designed to protect your items from mildew, deterioration and damages caused by high humidity. The orange spherical Silica Gel is composed of a naturally occurring mineral silicon dioxide that is purified and processed into a beaded form. Silica Gel has a high absorption capacity and will remove moisture at temperatures as high as 150° F (65°C). Fits all cases.

HOW TO USE

When the beads are dry, they appear orange in color, when saturated with moisture to about 15-20% by weight, the beads will change to a light blue color. Silica Gel's life is variable and it depends on the amount of moisture absorption (generally 2-4 months). To verify if it's still working, check the color: the orange Silica Gel turns to blue to indicate its complete exhaustion. Silica Gel can be regenerated by heating in the oven for 1-2 hours at 100°C (212°F). Do not leave outside, directly exposed to the sun, in an open environment.

TECHNICAL INFORMATION

Dessicant Material:	Disidry's Orange Indicating Silica Gel
Packaging Material:	Aluminium (Container) / Paper / Stickers
Aluminium Foil Thickness:	0,5 mm
External Diameter:	81 mm
Dry Keeper Thickness:	17 mm
Total Net Weight:	30 g
Internal Container Capacity:	50 gr (Silica Gel)
Holes:	196 (98 on each side)
Life:	Depending on use. Generally 2-4 months (once stickers removed).
Storage:	Do not leave outside, directly exposed to the sun, in open environment.

HOW DO YOU LIKE GREY?

HPRC GRAVEL GREY
NOW AVAILABLE IN THREE DIFFERENT SIZES.
HPRC2550W | HPRC2600W | HPRC2700W
