ABOUT US

We specialise in beautiful, handcrafted photo products created exclusively for professional photographers. From wedding photo albums and bespoke photo frames, to personalised USB's and individual presentation boxes, our range of products offers something for every photography package. Our team at SIM is dedicated to providing an unrivalled service, both in the quality of the products we produce and the support we provide our customers.

Proudly UK based, every product is made to order by our expert team of craftspeople from our workshop in Hertfordshire. We've cleverly combined the latest technology and machinery with traditional binding methods to be able to offer our customers individually bespoke products created to the highest of standards. We make a conscious effort to source as many of our materials as possible both responsibly and renewably from the UK to ensure our footprint on the planet is little more than stunning products and beautiful heirlooms for years to come.

Our service is exclusively for photographers so pricing can only be accessed by registering online for a pro account on our website. Once approved by one of our team, you'll be able to browse products, see pricing and begin designing. We're on hand to guide you every step of the way and offer help or advice at any stage of your photography journey.
