

Feel the power of science  
on your skin

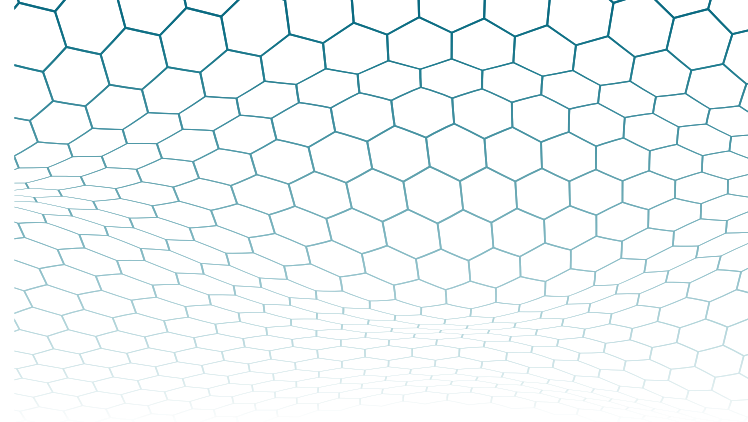

CellDerma's journey began in 2016, when we combined the science, technology and intellect of leading labs from Switzerland, South Korea and the USA to create skincare formulations that will take you towards perfect skin.

CellDerma is the culmination of the best technology from the globe's leading minds with safety and excellent clinical outcomes at the core. All of our formulations incorporate 'clean science' with only sustainable ingredients used.

My overarching vision is to see a happier world through healthier skin. I know CellDerma will be an integral and essential part of that journey.

# CELLDERMA YOUTH RESTORE

Peptide & Growth  
Factor Serum

PRODUCT GUIDE

## WHAT IS CELLDERMA YOUTH RESTORE?

Youth Restore is a luxurious formula suitable for all skin types. This silky serum features a **breakthrough blend of age-defying neuropeptides, bio-regenerative Growth Factors, amino acids and botanical extracts.**

Niacinamide, glycerin and hyaluronic acid further enhance the moisturising and skin brightening potential of Youth Restore. Hyaluronic acid is a powerful humectant which can attract 1000x its own weight in water and continues working throughout the day.

Your skin is safeguarded against environmental stress and visible signs of premature ageing, so it appears **more youthful, healthy and vibrant.**

## THE SCIENCE BEHIND THE FORMULA

**Growth Factors trigger responses and processes within the body.** They are naturally occurring and are a key part for our body's ability to regenerate.

Within the skin, ageing can lead to a breakdown of normal skin architecture. This can manifest with signs such as skin laxity, lines and wrinkles, pigmentation and scarring. Growth factors trigger processes **essential for repair.** Within the skin, they can:

- Boost structural protein levels, e.g. collagen and elastin
- Reduce inflammation and redness
- Reduce skin laxity and wrinkles
- Plump up skin
- Reduce pigmentation
- Improve blood supply
- Reduce scarring

**Our botanical extracts include Peony Flower Extract** which has depigmenting, moisturising and antioxidant properties. **Quinoa Seed Extract** is rich in fatty acids that help restore the skin's barrier and also contains the powerful antioxidants - vitamins C and E. **Ruscus Aculeatus Root** improves microcirculation and reduces the appearance of redness.

An amino acid complex combined with niacinamide works to **hydrate, soothe, brighten and tighten the skin.**

## KEY ACTIVE INGREDIENTS

### NEUROPEPTIDE COMPLEX

Our neuropeptides are formulated to help **smooth away the visible signs of ageing** due to their BTX-like properties. This unique complex supports the skin's ability for resilience and vitality.

### GROWTH FACTORS

5 unique peptides - bi-identical to the life-giving human placental growth factors - **key for regenerating skin tissue** to reverse architectural damage through injury or ageing.

### AMINO ACID COMPLEX

**13 different amino acids** serve a whole host of **protective and corrective functions** to maintain skin resilience and improve its overall appearance. They also **boost** the actions of the biopeptides and niacinamide.

### NIACINAMIDE

Also known as vitamin B3, niacinamide can **improve the appearance of enlarged pores** and **brighten dull skin**, as well as defend against environmental toxins. Niacinamide attracts water from its environment for continuous hydration.

### BOTANICALS

**Liquorice Root Extract** is a brightener that boosts radiance and glow. It helps to fight the appearance of dark spots and discolouration caused by photodamage, supporting more even-toned skin. **Chamomile** is known for its powerful soothing properties. It helps to ease sensitivity and boosts

moisture in dry skin. **Green Tea Extract** is rich in polyphenols and helps to soothe skin. [Please see website for full list of botanical ingredients.](#)

### PROTOCOL

For the best results, please use Youth Restore as directed:

Apply 4-5 drops to clean, dry skin with a gentle upward motion.

Suitable for twice daily face and neck application.
