Brand Story

Lumi Glo was formulated for sensitive skin, utilizing multitasking active ingredients that deliver real results. We knew the incredible benefits of CBD Leaf Extract, but it wasn't until our founder, Shahnaz, underwent intense micro-needling and HFU therapy that we truly understood the significant healing properties of CBD.

As times evolve, skincare has taken center stage in the beauty industry, with trends such as the 'no makeup makeup' look emphasising radiant, well-nourished skin. We're at the forefront, moving away from intricate routines and harsh products to offer effective skincare that enhances glow, empowering individuals along the way.

Many women feel overwhelmed by the vast array of skincare options and disheartened by the messages perpetuated by numerous beauty brands. Our mission is to change this narrative, empowering women, revolutionising the industry, and promoting the idea that skincare is an essential form of self-care.

Meet our Founder

Shahnaz Cola-Wrensch, a born and bred London girl has been a makeup artist for the past 13 years working with magazines in South Africa such as Elle, Marie Claire, Cosmo and Glamour. As well as a beauty blogger working with brands such as Chanel, Clarins, Bioderma, Nuxe to name a few. After working on set with so many models Shahnaz fell in love with skin and skincare and her dream was to have her own brand one day.

Lumi Glo was born partly because of Shahnaz's love of skincare but also because of her own sensitive skin issues.

"After Suffering with skin issues for years, I knew I had to change. But change is not always easy."

Shahnaz quickly realized if she was to get the glowing skin that she wanted for herself, she knew her products had to change and she couldn't find anything that worked which was clean, active and suitable for sensitive skin. So she created Lumi Glo whilst working as a full time professional makeup artist. She measured her success through testing how her clients' skin reacted and created products that were effective, easy to use and fun.

What Aesthetic Doctors and Therapists are saying...

"Lumi glo is an amazing sheet mask. As a salon owner it is very important for me to have a range of different masks that I can use after microdermabrasion and micro-needling and this sheet mask ticked the boxes. The CBD is really soothing, helps reduce inflammation, and is great for sensitive skin. The HA serum really does hydrate the skin and makes the skin so soft. I also loved using my transderm over the mask to really push in the ingredients. I am very impressed with the Lumi glo mask! The sheet mask itself is also great quality and feels secure and lovely on the skin❤️"

**- Candice
Loveit Spa**

"We absolutely love using Lumi Glo Masks at The Best Laser and Skin. It's great in conjunction with our Aesthetic treatments such as HIFU, Radio-Frequency Frequency Needling and Dermapen. It helps to sooth and calm the skin, speeding up the healing process. The Skin Soother with CBD and Aloe Vera is great after the Radio-Frequency Needling, whereas the Glo Getter and Hydration Booster after Dermapen leaves the skin super hydrated with less fine lines and a smoother appearance. We also recommend our clients to keep their masks in the fridge afterwards for an extra soothing and cooling treat."

**- Maryke
The Best Skin And Laser Spa**

"Wonderful results and applying the Soothing Sheet mask took the Frost away so much quicker than it normally would, which I think speeds up that healing and allows for quicker peeling."

**- Bernice
Love Your Skin**

"The Skin Soother sheet mask is the bomb....it calms the skin and works beautifully under my LED Celluma Device. The Glo Getter I have used on clients and it gives such an amazing glow after a pigmentation treatment."

**- Jenna
Jenna Gadney Aesthetics**

"I absolutely love using LumiGlo from including it in a skincare regime or makeup application. The jelly moisturizer, hydrating spray and masks all leave the skin feeling hydrated and glowy. The Jelly Boost creates a perfect base to apply make up on, I love ending a makeup application with a spritz of the the Dewy Glo Face Mist for that extra glow and to set the makeup. Love the look smell and feel of all their products as well as the results they deliver."

-Jess
The White Orchird

"I use the masks in every single treatment depending on skin concern and treatment outcome. I will choose the best for the individual client."

-Larushka
Dermahyde

"I love Lumi Glo because It's a wonderful hydrating add-on to my facials. I especially love using the sheet masques to soothe the skin after peels and microneedling."

-Angelique
The Aesthetics Room

"I have been using the LumiGlo masks in my salon for a few years now, and absolutely LOVE them! I use them in combination with my microneedling treatments as well as other facials. Once you've experienced these masks, you are truly addicted. The whole LumiGlo range smells amazing, feels so luxurious and really leaves your skin in a better condition!"

- Tracey
Microblading, Beauty & Aesthetics

"Lumi Glo masks are exceptional. I use it for post treatment needling and my clients absolutely love it. Relaxing with a lumi glo mask on a Sunday morning is my new routine!"

-Sumaya
S.K.I.N Beauty

"I really have enjoyed the masks especially after Dermaplaning! The HA and Squalene one leaves the skin so plump and hydrated! The eye masks add a nice touch to my Periocular eye treatment."

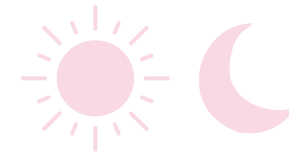

-Tamarah

Why, CBD Leaf Extract?

The skin has a more youthful appearance, thanks to its inflammation fighting properties. The anti-inflammatory and antioxidant properties of cannabinoids help to reduce puffiness, swelling, and discomfort. This ingredient is regarded as an all-in-one solution because of its ability to target all these problems at the same time. Creates a barrier for the skin to lock in moisture. Another way in which cannabis is used is for helping to relieve pain, where cannabis provides quick relief from inflammation. This can also help with relief after AHA treatments. On top of all these amazing benefits, CBD can dramatically reduce sebum production therefore fighting acne as well.
