

After years of research with salon professionals, and over 15 years of Industry experience, Ruffle & Bramble products have been developed with careful consideration for your hair and body.

We have come to learn that there are two very important components needed to have healthy hair and healthy skin all round, they are protein and moisture. So! our message is simple, Treat, Style and Maintain, in this exact order, With research and studies taken from professional salons and stylists, the common theme we hear is, "clients have come into salons, and often skipped the process, They move straight to styling, without any form or very little treatment and very poor maintenance".

On all hair textures, most of our products block frizz, Increase elasticity in your hair and skin, maintains and rebuilds strength by adding protein and moisture back into your hair and skin, just to mention a few benefits, it's no wonder why were loved by leading salon professionals and stylists.

That's why were salon approved and proud.
