WELCOME TO THE PHOTOGRAPHY & VIDEO SHOW 2026

Get ready to explore, learn, and be inspired. This year, we're bringing you right where the creative action is. We're back with 250+ brands from across the industry, including **Adobe, Fujifilm, Canon, Hahnemühle, Godox, Nikon, Sony, Manfrotto** and many more. Whether you're here for photography, filmmaking or content creation, everything you need to explore, learn, and get inspired is waiting for you – all under one roof.

Learning is at the heart of the show. With 500+ free-to-attend talks and live demos across 4 days, you can explore new techniques, refine your workflow, and hear directly from working creatives. This year's programmes include sessions designed to help you build skills and confidence, whatever your level.

The 2026 speaker line-up is second-to-none. Masters of photography, moving image, and content creation will take to the stage to share tips across a variety of genres, from landscape photography to creating an identity on social media. Headline speakers include **Alan Schaller, Sophie Darlington ASC, Lindsay Adler, Dennis Morris, Charlie Waite, and Forough Yavari.**

Away from the stages, there's plenty to discover. CreatorCon returns, packed with talks and panels, as well as immersive experiences for hands-on content creation, collaboration, and experimentation – and who knows, you might even end up snapping a selfie with a giraffe, or filming your own space walk! You'll also find live demos on exhibitor stands, macro scenes to capture and inspiring galleries including **The Week Junior Science+Nature Scavenger Hunt Photo Contest** and **London Camera Exchange Photographer of the Year Awards.** With endless opportunities to connect with brands, experts, and fellow creatives, make sure you explore the show at your own pace – there's always something new (and occasionally unexpected) to discover.

Welcome, enjoy the show – and happy creating.
