

Insta360 X5

8K 360 Action Cam

Product Intro

X5 is the new flagship 360° camera from Insta360, with 8K 360° video and enhanced low light performance for all-day, all-angle shooting. Improved audio, 180-min battery life, and user-replaceable lenses make it the most durable 360° camera yet. A new mode captures flat and 360° video simultaneously—instant .mp4 for sharing, plus 360° footage to reframe later. X5 is an instant classic, perfect for action, content creation, and everyday life.

8K 360° Video | New 1/1.28" Sensors

Larger sensors deliver our best ever 8K 360° video. Shoot first, frame later with exceptional image quality, plus the iconic invisible selfie stick effect.

Triple AI Chip & PureVideo for Superior Low Light

X5 takes 360° night shooting to a new level with unprecedented detail and clarity. Powered by new sensors; a Triple AI Chip; and PureVideo, a dedicated low light shooting mode.

InstaFrame Mode

The new way to shoot and share! Capture a ready-to-share flat video with a choice of fixed perspectives or an auto-follow option to keep you in frame, while also recording a 360° video.

Enhanced, Replaceable Lenses

Built from a tougher optical glass, X5's lenses have superior impact resistance and are now easily replaceable by the user, thanks to a handy Replacement Lens Kit.

5.7K60fps Active HDR Video

Now upgraded to 60fps, this innovative mode captures stunning details and colors in highlights and shadows, and delivers superb stabilization even in action-packed moments.

New Wind Guard for Clearer Audio

New built-in wind guard has a multi-layer wind mesh structure to effectively filter noise, paired with an upgraded algorithm for consistently clear audio.

Waterproof to 49ft (15m)

Explore more and go deeper than any Insta360 before, with IP68 waterproofing down to 15 meters (49ft) without a dive housing.
