

Namibia Oil and Gas Conference 2025

Our Africa Story

12 August 2025

OUR JOURNEY

OUR PRESENCE IN NIGERIA

FPSO Abigai-Joseph

OUR PRESENCE IN GHANA

FPSO John Agyekum Kufour

OUR PRESENCE IN ANGOLA

FPSO Agogo

OUR PRESENCE IN NAMIBIA

Local Content

GHANA

Building from within

A model of localization and community partnership

INVEST LOCALLY

- › **\$2.8M** Takoradi base built by Ghanaian company JVC
- › **\$7.7M** local office investment

A photograph of two workers in safety gear (hard hats, earmuffs, safety glasses, and high-visibility vests) reviewing a tablet on an offshore platform. The worker in the foreground is wearing a white jacket with a Texas state logo on the sleeve. The worker in the background is wearing an orange high-visibility vest. The background shows complex industrial machinery and pipes.

EMPLOY LOCALLY

YINSON **Y**
Production

77%

offshore crew
localization in Year 5,
up from 63% in 2017

YEAR 6

marked the full
localization of MD roles

94%

local onshore staff

PROCURE LOCALLY

YINSON
Production

\$20M
local fabrication of
12 mooring piles

Riser protection
frames and module
supports built in
Ghana

Early mobilization
support and
alliances with local
suppliers

PROMOTE | CAPACITY BUILDING

20 graduates trained
overseas and returned to
assume FPSO roles

Strong local supplier
partnerships

CSR COMMITMENTS

- › Welding Training Centre (\$460K) and ongoing material support
- › Community science labs, libraries, and IT centres
- › Annual STEM workshops and education sponsorships
- › Health awareness, malaria control, and school infrastructure support

OUR PRESENCE IN **NAMIBIA**

Inspired by
legacy,
focused on
the future

Setting the
foundation for
local content
success from
day one

Investing in local talent,
infrastructure, and supplier
networks

Building Namibia's oil and gas
capacity with purpose, not just
to meet regulations, but to
unlock local potential

VISION FOR LOCAL CONTENT

TRAINING & INTERNSHIP PROGRAM

Hands-on exposure across
Ghana, Singapore, Oslo,
and Namibia

Areas: marine engineering,
finance, compliance,
operations

Preparing Namibian talent
for future leadership

| **NAMIBIA**

is the next chapter, written with the
experience of Africa, and the
promise of its future

EDWARD AGYARE-BOATENG

Base Manager, Ghana

From architecture to offshore operations

An unconventional path

Trainee phase
Immersive learning and global exposure

EDWARD AGYARE-BOATENG

Base Manager, Ghana

PROGRESSION THROUGH KEY ROLES

- › Operations Engineer
2017 to 2019
- › Base Supervisor
2019 to 2023
- › Base Manager
2023 till present

PILLARS OF MY GROWTH

Resilience and
adaptability

Continuous learning

Mentorship provision
by superiors

Opportunity for
growth

Challenges and lessons learned

Navigating industry complexities

On-the-job training

The core of my development

DORCAS BOTWE

Cost Controller

First and only Ghanaian female engineer
on FPSO build in Singapore and Batam

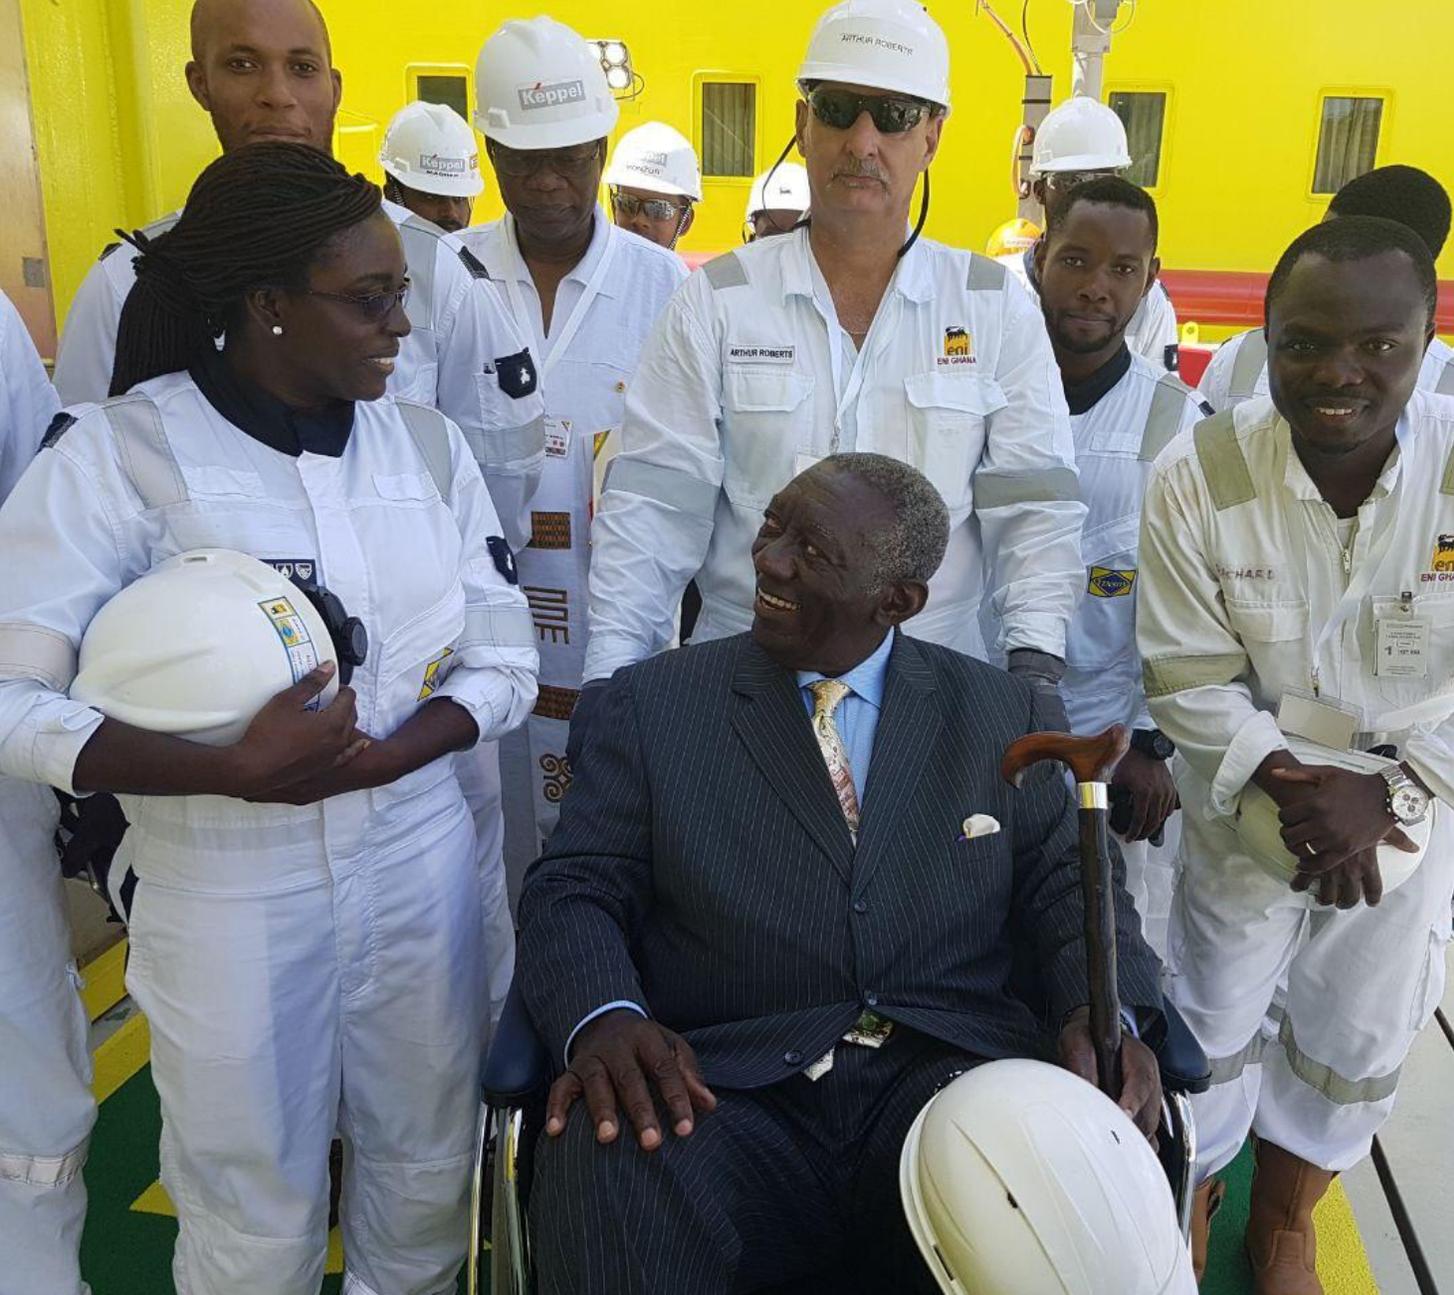

**BSc. Mechanical Engineering and MSc.
Engineering Project Management**

14+ years of global experience
across oil & gas, mining, and
manufacturing

DORCAS BOTWE

Cost Controller

PROGRESSION THROUGH KEY ROLES

- › Engineering Coordination
- › Defect Reporting
- › MRB Verification
- › Module Integration

Shaping Project Success Through Cost Precision

Evaluated VORs,
MTOs, prepared VOs
and site instructions

Participated in Final
Account negotiations

Transitioned to
Operations Cost
Control in Ghana

Produced
stakeholder insights
via Opex reports,
Cost reports &
budgeting accuracy

**Operational
excellence**
through FA&R
best practices
in FPSO
operations

Steady and clear
operating costs

**Better cash
management**

**Easier budget
planning**

Stronger compliance
and accountability

YINSON 
Production

KEY LESSONS FROM THE JOURNEY

**Build local
capacity early**

Data is power

**Inclusion is
strategy**

**Knowledge
transfer**

- › Yinson Lean In Global Women's Network engaged teams across 8 countries in ESG and inclusion
- › Many CSR activities across the globe (education, STEM, environment)
- › Stella Maris CCS acquisition for carbon capture
- › Building the world's first green FPSO Agogo

**FROM YINSON
TO THE WORLD**

LET'S KEEP BUILDING

Local content is not just participation — it's ownership

Let's keep investing in training, inclusion & innovation

Namibia can be a benchmark in sustainable energy delivery

FA&R Team Ghana & Nigeria with Global Head, Head Europe & Africa, Head Ghana

Yinson Lean In – Global Women Network Events

Thank you!

Passionately delivering **powerful** solutions
