

PRESENTATION ON

Occupational Safety and Health: The Role Of Stakeholders in The Oil and Gas Industry

Presented by

Faith Kalumbu, MOSHA

Occupational Safety and Health Association

OSHAssociation

www.oshassociation.org

Objectives of OSH in the Oil and Gas Industry

- Prevents accidents and fatalities
- Promotes a safety-first culture
- Ensure legal and regulatory compliance
- Enhance productivity and morale
- Improve public trust and corporate reputation

Who Are Stakeholders in the Industry

- Government and regulatory agencies
- Oil and gas companies
- Contractors and subcontractors
- Workers and unions
- Communities
- Industry Associations (e.g OSHAssociation)
- Environmental NGOs, etc

Role of Oil and Gas Stakeholders Towards Achieving Best Practices

- Develop and implement safety policies
- Conduct risk assessments and audits
- Provide training and PPE
- Maintain and inspect equipment
- Promote leadership and accountability.

Summary

- OSH is a shared responsibility in the Oil and Gas Industry
- Effective stakeholder engagement = Safer oil and gas operation
- Prioritizing safety means saving lives and protecting investments

How Can Occupational Safety and Health Association (OSHAssociation) Help the Stakeholders in the Industry?

1. Tailored Training Needs to daily operations
2. Continuous Training and Updates through Membership Opportunities: (such as Individual and Corporate membership)
3. Third Party Inspection and Audit Reporting of Facilities and Equipment
4. The Big Picture for the Industry: Partnership opportunities to address safety related challenges in your day to day operations
5. Assist in developing effective HSE Policies and Manual and Standards for your organisation.
