Welcome to the 3rd Namibia Oil and Gas Conference 2025

Building on the success of the previous editions, the Namibia Oil and Gas Conference (NOGC2025) is set to return bigger and better in August 2025.

The 2024 edition brought together over 1,000 delegates, including prominent stakeholders from across the globe, sparking ground breaking discussions and cementing strategic roadmap for Namibia's public and private sectors to maximise the opportunities from the country's oil and gas resources.

Scheduled for 12-15 August 2025, the 3rd edition promises to provide an even more dynamic platform for industry leaders, investors and policymakers to explore the future of Namibia's energy sector.

Hosted by the [Economic Association of Namibia](#), in collaboration with the [Namibia Investment Promotion and Development Board](#) and the [Hanns Seidel Foundation](#) and with continued strategic support from [NAMCOR](#), [SNC Incorporated](#) and the [Ministry of Industries, Mines and Energy](#), the 2025 conference will showcase an expanded agenda across four days featuring high-level discussions, expert panel, an international exhibition and unmatched networking opportunities.

With over 70 high-profile speakers, this event is a unique opportunity to connect with key players, explore investment opportunities, and engage with one of the world's last untapped oil and gas frontiers.

Don't miss the chance to be a part of shaping Namibia's energy future. Contact our team today to discover how your company can join NOGC 2025 and capitalise on the exciting developments in this rapidly growing sector.

I believe this forum offers us all a unique opportunity to share ideas on how we can play our various roles in enabling our country to leverage its petroleum resources to attain socio-economic development while providing energy to the world.

Hon Kornelia Shilunga, MP, Deputy Minister of Mines and Energy, addressing delegates at Namibia Oil and Gas Conference 2024

Strategic conference

The 2024 strategic conference gathered over 1,000 regional energy and industry ministers, public sector representatives, policymakers and thought leaders, along with international executives from IOCs, NOCs, major contractors, developers and technology providers. Financial institutions, investors and business leaders also participated.

The event featured keynote speeches, high-level leadership discussions and solution-driven panel debates, offering cutting-edge, agenda-setting content and unique industry insights with themes such as upstream, governance, energy capital, energy transition and local content.

“

The conference has raised so much awareness about the emerging oil and gas industry and to see the local Namibians involvement was a pivotal moment for the conference.

■ Angelique Peake, Head: Oil & Gas, Energy and Resources, FNB Namibia and RMB Namibia.

3 days, 6 master-classes, 9 sessions

Over an expanded three-day program, 78 speakers captivated the audience with their expertise and insights. The diverse lineup featured leaders from both government and industry, with 25 international speakers travelling to Namibia to share their perspectives.

Masterclasses

The NOGC masterclasses brought together technical experts and speakers over the course of two days, sharing knowledge and expertise in offshore high-tech petroleum activities and other sectors of the energy value chain vital to the development of Namibia and the broader region.

They offered an unparalleled opportunity to engage in person and gain insights on maintaining technical relevance, digital competitiveness and business resilience in a constantly evolving market landscape.

Themes

WORKSHOP 1

Technical requirements to unleash Namibia's potential building

- Onshore and offshore appraisal and development.
- Setting the scene: Key lessons of environmental permitting.
- Croatian insights into oil and gas pipeline construction and maintenance.
- Standards and certification for oil and gas developments.
- Drilling and servicing.
- Oil and gas technology and innovation drilling, completions and wellbore integrity.
- Building cross-border partnerships to increase productivity and service.

WORKSHOP 2

Building partnerships and capacity

- Operator's roles in Namibia and their requirements to develop Namibia's energy potential.
- Case Study - Best practice solutions.
- Promoting the development of entrepreneurs, small & medium-sized enterprises and a local community supply chain.
- Capacitating SMEs to provide services to the oil and gas sector.
- How to do business in Namibia - A NIPDB master-class.

The exhibition: A global meeting hub

The NOGC exhibition saw a 52% growth from the inaugural event in 2023 to 2024 and 40% increase in attendees within the same period. NOGC 2025 will be doubling in size with the introduction of a new hall to give access to more entrepreneurs, SMEs and new entrants to the market at this year's event.

42 companies (right) took part in the integrated exhibition to display their services and had two busy days with constant flows and networking with interested delegates. This is double the amount of exhibitors in 2023.

MAIN STORY

Namibia seeks to leverage MICE tourism ...as Namibia Oil and Gas Conference is launched

The Namibia Investment Promotion and Development Board (NIPDB) says the country is spearheading efforts to position itself as a one-stop destination for MICE (Meetings, Incentives, Conferences, and Exhibitions) business tourism.

NIPDB's CEO, Nangula Uaandja, said with Namibia traditionally known for its breathtaking landscapes and wildlife safaris, NIPDB aims to capitalise on the untapped potential of business tourism to attract visitors year-round and create sustainable economic opportunities for the nation.

"Our partnerships should align with these priority sectors. For example, tourism and oil are significant for us. Tourism, particularly

The Brief | ISSUE 658 | MAY 27 2024

3

through business events, can drive economic activity throughout the year, not just during the peak season from May to October," she said.

This comes as Namibia is set to host three major conferences scheduled for later this year.

"Regarding events, it's not a question of whether there are too many because each event serves a different purpose. Events bring together industry players across the entire value chain, including investors, exploration companies, and others, to discuss the development of the energy sector, including oil, gas, and renewables," she said.

She said this at the launch of the 2nd Edition of the Namibia Oil and Gas Conference 2024, slated from the 20th to the 22 August 2024.

"This particular event aims to ensure inclusivity by involving the private sector, young people, students, academia, civil society, and Namibians, along with our international partners, to have a comprehensive conversation where everyone is included," said Uaandja.

The conference will be hosted by the Economic Association of Namibia (EAN), in partnership with NIPDB, the Hanns Seidel Foundation Namibia, a strategic partnership of the National Petroleum Corporation of Namibia and the official endorsement of the Ministry of Mines and Energy Namibia.

EAN Chairperson, Jason Kasuto, highlighted the need for a strategic blueprint to ensure investments create sustainable value chains and uplift living standards in Namibia.

He further called for open discussions on energy transition and climate change, stressing the importance of integrating the oil and gas sector with the rest of the economy.

With over 70 renowned speakers, panel discussions, master classes, and exhibitions, he said this year's conference is set to be the largest and most attended in Namibia!

Meanwhile, Uaandja Namibia has substantial oil potential, and it's crucial to develop it properly.

"We need to ensure we are active participants in these conversations to avoid missing out on opportunities. The government is committed to facilitating these discussions and ensuring Namibia finds its niche in the oil industry," she added.

Namibia's national hotel occupancy rate surged by nearly seven percentage points to 58.1% in April 2024, exceeding pre-pandemic levels recorded in April 2019.

A report by Simonis Storm attributes this growth partly to an increase in conferences and events.

According to the report, conferences like the international energy conference held in April played a key role in filling hotel rooms.

INVITATION FOR OPEN NATIONAL BIDDING

Bid documents are to be submitted in a sealed envelope at NSAF Head Office, Eros Road 746, Windhoek.

NSAF

Looking ahead to NOGC 2025

“ This event is one of the few in the region that brings to the same place government officials, energy companies, investors, and industry experts from across Africa and beyond. This is the prime venue to explore potential partnerships and investment opportunities, and to learn about Namibia’s policy to enhance local participation in energy projects.

■ Ibrahima Aminu, Chief Operating Officer of Invest in Africa, Speaker 2024

2025 programme

Building on the achievements of past editions, the 2025 conference promises an even more dynamic agenda, featuring engaging panel discussions, in-depth technical sessions, expanded networking opportunities and participation from top organisation in the in the industry.

For 2025, we are introducing new features to span over four days, designed to provide even more value and opportunities for all participants and an increased exhibition floor plan.

Day one:

Pre-Conference Local Content and Supplier Masterclass:

Ahead of the main summit, pre-summit masterclasses will take place. Industry experts will lead a newly introduced local content and supplier masterclass aimed at developing skills in various technical and business aspects of the sectors, as well as helping companies understand how to become a supplier to the major operators and contractors developing Namibia’s energy industry.

Day two and three:

Comprehensive Discussions Shaping Namibia’s Oil and Gas Future:

The Namibia Oil and Gas Strategic Conference explores a wide range of topics, including investment opportunities, legal frameworks, local content, value chains, financing and job creation in the emerging sector. A diverse lineup of over 70 national and international speakers will provide insights and analysis on these critical issues. To ensure the conference drives real impact, key resolutions are annually integrated into a strategic plan for both the public and private sectors, guiding how Namibia can maximise the benefits of oil and gas investments for long-term growth and development.

Unlock Expert Knowledge with Technical Workshops

Stay ahead of industry trends and strengthen your expertise with in-depth, expert-led technical workshops focused on the latest technologies and best practices in the energy, oil and gas sectors. Designed to foster skills development and capacity building, these workshops will equip participants with practical, actionable insights to enhance their professional roles and drive business strategy within their organisations. In addition to gaining valuable skills, attendees will have the chance to network with industry peers from around the world, making meaningful connections ahead of the main event.

[View 2024 Speakers](#)

Making connections

With an emphasis placed on interaction between all participants of the event, the Namibia Oil and Gas Conference will ensure you have the best possible access to everyone who matters to your business.

It brings together key role players in Namibia and the international oil and gas value chain together under one roof, representing a significant opportunity for organisations and individuals to have effective meetings throughout the event.

New - Day four: B2B matching event

On day four, participants will enjoy an exclusive B2B Matching event, hosted by the [Namibia Investment Promotion and Development Board \(NIPDB\)](#). This event is designed to provide personalised opportunities for businesses to connect with potential partners, investors, and clients.

Through a series of carefully curated meetings and networking sessions, participants will be able to forge meaningful connections, explore investment prospects, and develop strategic partnerships. Whether you're looking to expand your business, secure new investments, or collaborate with industry leaders, this dedicated day of B2B matching offers unparalleled access to the resources and networks needed to drive growth and success.

2025 Event App

The official event app is available exclusively to sponsors, partners and delegates. Personalise your summit agenda, view the event floor plan, interact with other participants and book those all important one to one meetings.

The app is hosted by Global Energies, powered by GEP.

Networking breaks and functions

In addition to the formal sessions, the NOGC event programme offers numerous networking opportunities during refreshment breaks and at exclusive evening receptions, including the Braai. Here, delegates can enjoy traditional Namibian cuisine and hospitality while connecting in a more relaxed and informal setting. These moments provide the perfect environment for exchanging ideas, fostering relationships and building valuable connections.

Host city and venue

Windhoek, the capital city of Namibia, is a dynamic and vibrant destination with a unique blend of modern infrastructure and rich cultural heritage.

Surrounded by breathtaking landscapes, from rugged mountains to sprawling deserts, providing attendees the chance to enjoy nature and even include unique outdoor activities, like safaris or desert excursions. The city's international airport, [Hosea Kutako International Airport](#) is just 45 minutes away from Windhoek, which is known for its safety and friendly atmosphere, ensuring a comfortable experience for visitors. Windhoek offers a mix of accessibility, safety, modern amenities and rich cultural experiences, making it an excellent location for NOGC, a warm welcome awaits all participants.

Delegates can benefit from a special accommodation rate.

[The Mercure Hotel Windhoek](#) is nestled in the southern outskirts of Windhoek among Namibia's most magnificent indigenous trees and shrubs.

Sponsoring and exhibiting packages

In addition to insightful discussions and networking opportunities, NOGC 2025 offers an abundance of sponsorship and exhibiting opportunities tailored to enhance your company's visibility and engagement.

Whether you're looking to showcase solutions, strengthen your brand presence, or connect directly with key decision-makers, our wide range of packages and exhibition spaces provide the perfect platform.

Align your business with one of the most influential energy events and position yourself at the forefront of Namibia's thriving oil and gas industry.

Profiling

Sponsoring or exhibiting at the Namibia Oil and Gas Conference offers unmatched visibility and networking opportunities. Leverage extensive branding, profiling and connections through the official event app, along with on-site matchmaking to connect directly with Namibia's key stakeholders before, during, and after the event.

With 800 participants from diverse sectors - public servants, businesses, civil society, and academia - plus the extended reach of thousands of industry professionals, the conference provides an ideal platform to access new markets, forge valuable partnerships, and boost your brand's presence.

Expand your reach with an exhibition stand at the Namibia Oil and Gas Conference

Take advantage of the newly expanded exhibition space for the third edition of the Namibia Oil and Gas Conference and the opportunity to showcase your products, solutions and expertise directly to key professionals in the sector.

Engage face-to-face, build valuable partnerships and grow your network through collaborations. With a variety of exhibition and sponsorship packages to choose from, there are flexible options to fit any budget.

Why exhibit?

Stand Out: Highlight your unique strengths and innovations, distinguishing your business in a rapidly evolving industry.

Access New Markets: Directly connect with stakeholders driving Namibia's oil and gas projects, and open doors to fresh opportunities.

Reach New Decision Makers: Network with a diverse audience of key decision-makers, buyers, and influencers from government, business, civil society, and academia.

Secure your space and be part of Namibia's growing energy future.

Thank you to our gracious hosts for putting on another world class event which Namibia is earning a great reputation for. We know nice things. We are leading the way as a nation.

■ Hon. Cllr. Phillippus Albertus Balhao, Mayor of Lüderitz

Attending the Namibia Oil and Gas Conference is instrumental in contributing to the success of the nascent oil and gas industry in Namibia. It is imperative to engage in discussions that not only ensure value creation but also its retention. The conference will address essential topics such as local content participation, funding mechanisms, technical up-skilling, and their collective impact on Namibia’s sustainable future.
