SAIPEC 2024 Bigger Than Ever africa.com

By Editor / January 23, 2024 / Headlines

Africa's biggest petroleum conference, the Sub-Saharan Africa International Petroleum Exhibition and Conference (SAIPEC) is back.

The eighth edition of SAIPEC returns to the Eko Convention Center in Lagos from 13-15 February 2024. This premier industry event is hosted by the Petroleum Technology Association of Nigeria (PETAN) in strategic partnership with the Nigerian Content Development & Monitoring Board (NCDMB), Nigerian Upstream Petroleum Regulatory Commission (NUPRC) and NNPC Limited.

KEYFACTS Energy

5 MINUTES WITH SAIPEC SPEAKER DR RIVERSON OPPONG

"SAIPEC 2024 remains the premiere annual energy conference in SSA. The conference provides a pristine environment for dialogue on energy and its role in Africa's economic growth. The diverse solutions proffered to the myriad of issues discussed will make this conference worth your while. The opportunity to network with financiers, technical experts and leading members of the energy sector across the world is unique to SAIPEC 2024."

Sub Saharan Africa Oil And Gas Event (SAIPEC) Pushes Local Content

"She stresses the importance of attending SAIPEC saying, "SAIPEC is the most informative conference in Sub-Saharan Africa as you can comprehensively learn what is happening within the region, the opportunities available for service providers and investors. It also helps when looking for regional partnerships for local content practices in the execution of projects across Africa. SAIPEC is a great place to network and meet professionals from other countries to share experiences and build relationships. Many people that are not easily approached can be accessed at SAIPEC and long-term relationships can be built."

africa

"SAIPEC is the ideal place for oil companies like ours to highlight the country's hydrocarbon potential but also to see the best in the sector in Africa.

THIERNO SEYDOU LY
PETROSEN E&P

"SAIPEC is the preeminent oil and gas services conference in and for Africa. Any African or other company with continental ambition needs to attend to learn what is happening on the continent and to connect with all relevant decision-makers and operators."

DR. TIMI AUSTEN-PETERS
DORMAN LONG
ENGINEERING LTD

"Attendance of SAIPEC 2024 will provide us valuable platform for networking opportunities, great insights into the industry developments and prospects, professional development, and opportunities to showcase capabilities and capacity. It enhances the industry value as well as personal and professional growth in the oil and gas sector."

KENNETH OKEIYI, EUNISELL LIMITED

"Attending SAIPEC 2024 is essential for stakeholders in Africa's energy sector due to the unique convergence of opportunities for cross-border partnerships and insights into regional energy projects. The event stands out as a pivotal platform for African service providers to engage with one another, fostering collaboration that is crucial for leveraging local content to its fullest potential. With an expanding scope each year, SAIPEC has become a critical forum for dialogue and exchange, with representation from over 15 countries in the previous year and an expectation for even greater participation this year. It is not just an event but a catalyst for tangible progress in the energy landscape across Africa."

EXHIBITORS, VENDORS COUNT GAINS, SHARE EXPERIENCES AT SAIPEC2024

"Fredric, who revealed that he has been attending the SAIPEC for three years now, told Realnews that he was able to meet potential investors who are ready to do business with Petrosen. "The event is also an opportunity to share ideas, create a network of businesses that are in similar situations as yourself and of course make money. "We cannot continue to allow developed countries to dictate the direction of Africa's oil and gas sector. We can learn from ourselves and SAIPEC creates that opportunity."

"The curtain rises on the 8th Sub-Saharan Africa International Petroleum Exhibition and Conference (SAIPEC) 2024 in Lagos, Nigeria, a spectacle that has not only captivated the energy sector's elite but also underscored the burgeoning commitment of global giants to Africa's untapped wealth. Amidst the buzz of innovation and strategic partnerships, international oil magnates, including TotalEnergies, Shell, and Chevron, have unequivocally voiced their plans to deepen investments across the continent. This gathering, running from February 13 to 15, 2024, has become a crucible for revealing the future of energy in Africa."

SAIPEC 2024: Shell's Ambitious Plans for Nigeria's Oil and Gas Future

The 8th Sub-Saharan Africa International Petroleum Exhibition and Conference (SAIPEC) 2024 showcased Shell's ambitious plans for Nigeria, including the Bonga Main Life Extension Project and collaborations on deep-water projects, as well as a focus on renewable energy and expanding its gas portfolio. The event highlighted the importance of collaboration for future growth in Africa's oil and gas sector.

Beyond Boundaries: SAIPEC 2024 Explores Opportunities For African Energy Expansion

As the world seeks sustainable solutions to meet its ever-growing energy demands, the 8th edition of Sub Saharan Africa International Petroleum Exhibition and Conference (SAIPEC), organised by the Petroleum Technology Association of Nigeria (PETAN), with the theme: "The Next Steps: Accelerating African Content", holding at the Eko Convention Centre, Lagos, Nigeria, is taking centre stage in global conversations as Africa's largest Energy, Oil and Gas Conference and Exhibition.

The exhibition serves as a beacon of progress that seeks to showcase the latest advancements and trends in the dynamic realm of energy, oil and gas. As the theme implies, this year's SAIPEC is promoting local content production across Africa in addition to innovation, collaboration, and cutting-edge opportunities. Through interactive sessions, panel discussions, and networking opportunities, the event will bring together industry leaders, policymakers, academics, and stakeholders from around the world and participants will have the opportunity to engage with experts to share ideas relating to best practices, and forge strategic partnerships aimed at addressing the complex challenges facing the energy sector in Africa.
