A photograph of an industrial facility, likely a refinery or chemical plant, at night. The scene is illuminated by numerous bright lights, creating a stark contrast against the dark, twilight sky. In the foreground, there is a large, dark, textured area, possibly a gravel or sand storage area. In the middle ground, several large, cylindrical storage tanks or distillation columns are visible, surrounded by a complex network of pipes, scaffolding, and structural steel. Two prominent, tall, cylindrical chimneys or smokestacks rise into the sky. The overall atmosphere is industrial and active. A dark, semi-transparent banner is overlaid across the center of the image, containing the text "Unleash Gas Potential!".

Unleash Gas Potential!

...helping to build a better Nigeria
