# What is Ipieca?

Ipieca is the global oil and gas association for advancing environmental and social performance across the energy transition. It brings together members and stakeholders to lead in **integrating sustainability** by advancing **climate action**, **environmental responsibility** and **social performance** across oil, gas and renewables activities.

Ipieca was founded at the request of the United Nations Environment Programme in 1974. Through its non-lobby and collaborative approach Ipieca remains the industry's principal channel of engagement with the UN.

## OUR VISION

To advance the oil and gas industry's environmental and social performance and contribution to the energy transition in the context of sustainable development.

## Ipieca Principles

### CLIMATE

#### Climate action

1. Support the Paris Agreement and its aims.
2. Advance emissions reduction and innovation and enable adoption of low-carbon products and solutions across oil, gas and/or alternative energy.

### NATURE

#### Environmental responsibility

3. Support the aims of the UN Convention for Biological Diversity.
4. Responsibly manage operational impacts on the natural environment and ecosystem services.

### PEOPLE

#### Social performance

5. Support the UN Guiding Principles on Business and Human Rights.
6. Promote the health, wellbeing and social inclusion of workforces and local communities relating to operations, and contribute to the social and economic development of host communities and countries.

### SUSTAINABILITY

#### Integrating sustainability

7. Support the UN 2030 Agenda for Sustainable Development as embodied by the Sustainable Development Goals.
8. Integrate sustainability across activities, increase transparency and engage with key stakeholders.

# Scope of Ipieca activities

Adaptation and resilience  
Aviation and marine GHGs  
Carbon capture and storage  
Carbon offsets  
Carbon valuation methodologies  
Climate reporting  
Energy efficiency  
Energy transition  
Low-emissions pathways and net-zero emissions  
Managing methane emissions  
Natural gas flaring reduction  
Scenario planning  
Scope 3 emissions

## Climate

## Nature

Alien invasive species  
Biodiversity and ecosystems services  
BES and water peer-to-peer  
Biodiversity action plan  
Circular economy  
Climate change risks impact assessment  
Cross-sector Biodiversity Initiative  
Global Biodiversity Framework  
Global Harmonized Systems  
Marine spill preparedness and response  
Mercury  
Natural climate solutions  
Nature-based solutions  
Nature reporting  
Nature positive  
Water management adaptation

## People

## Sustainability

Alternative energy  
Sustainable Development Goals  
Supply chain  
Sustainability reporting

Community engagement  
Health benchmarking and performance  
Health wellness and human performance  
Human rights  
Indigenous Peoples  
Just transition  
Labour rights  
Local content  
Medical emergencies and primary healthcare  
Occupational hygiene  
Responsible security  
Social investment  
Worker welfare

# Ipieca membership

Ipieca has three types of membership:

## Corporate members

International and national oil and gas companies of any size, with operations in exploration, production, transportation or refining.

## Associate members

Any company which provides engineering, procurement, construction or field service operations to a company or corporate body which is qualified to be a corporate member.

## Association members

International, national and regional associations covering environmental or social aspects of exploration, production or refining.

## CONDITIONS OF IPIECA MEMBERSHIP

**Corporate** and **associate members** pay an annual fee which represents a percentage contribution to Ipieca's annual budget, and agree to:

- Support the Ipieca Principles
- Support the Ipieca vision to improve performance and contribute to the energy transition in the context of sustainable development
- Support the objectives and work plan of Ipieca as approved by the General Committee. This includes but is not limited to, engaging in at least two groups
- Respect and value Ipieca's non-lobby status
- Comply with the Articles of Association of Ipieca
- Comply with applicable laws and regulations, including on anti-trust, competition and sanctions, related to Ipieca's activities and members participation

# Benefits of membership

Companies benefit from Ipieca membership through:

- Exclusive insight and engagement opportunities with senior UN representatives
- The opportunity to work with world leading experts from member companies and stakeholders on the biggest sustainability challenges facing the planet
- Contributing to the development of internationally recognized good practice used throughout the oil, gas and renewable industries
- A network of over 1,000 climate, environmental, social performance and sustainability professionals from across the industry value chain
- Access to peer expertise and the latest thinking on climate, ESG and sustainability issues
- Joining a leadership group of companies contributing to low-emissions pathways and a net-zero future

If you would like to find out more about joining Ipieca, please contact:

## Selected CEO testimonials

'Communities should always be at the forefront of what we do, and Ipieca is a global oil and gas industry association focusing on climate, the environment and communities. Ipieca is an important organization for Oxy as we advance carbon removal globally to accelerate the net-zero transition and strengthen energy-producing communities.'

**Vicki Hollub**  
President and CEO

'Ipieca's 45-year-plus history of shared knowledge and good practices has helped achieve excellence in sustainability for members and the overall industry, thanks to the openness and willingness to work together of all involved. Ipieca can continue to play a central role in lifting collective industry performance.'

**Josu Jon Imaz**  
CEO

'Ipieca's ESG leadership benefits the entire E&P industry. We have derived tremendous value through our participation in Ipieca. By working with other members, we have strengthened our Sustainability programme, which deploys technology and processes to optimize our global operations and reduce the environmental footprint. We are proud to be part of Ipieca's work to protect the world's natural resources.'

**Olivier Le Peuch**  
Chairman and CEO

'Ipieca is an association which helps us prepare for the future. We are proud that Ipieca was behind one of the first industry SDGs initiatives with the SDG Atlas. The continued development of the Global Initiative for oil spill response is also very positive for our industry, while the Local water tool has become an important resource for TotalEnergies in successfully managing its water risk.'

**Patrick Pouyanné**  
Chairman and CEO
