

Lonadek Global Services

...Creating Value, Enhancing Performance

www.lonadek.com

Who We Are

Lonadek Global Services is a woman-owned, multi-award-winning, ISO: 9001:2015 Engineering Technology and Information Management Company.

At Lonadek, we domicile, domesticate and democratize technology by aligning People, Technology and Innovative Solutions to create value for Businesses and our Clients. Over the past 34 years, we have built a track record of transforming lives, organizations and communities through our STEM-focused services in Information Technology, Engineering Technology and Cloud Services.

We proudly serve STEM/TECH-focused industries such as Energy, Power, Infrastructure, Mining, Manufacturing, Oil, Gas and Renewables – empowering professionals and organizations to achieve sustainable growth and long-term impact.

Our results speak for themselves: an alumni network of over 5,000 trained Engineers, 15,000 impacted professionals and business owners, 10,000 digitally up-skilled talent, and over 100,000 STEM talent – forming a vibrant ecosystem of problem solvers and innovation aces.

We partner with organizations and assist them in achieving their business goals through collaboration, capacity building and technology-driven solutions.

Our Offerings

1 Training & Human Capital Development Services

At Lonadek we believe people are your most important resource; and the most effective way to achieve and maintain a competitive edge in business is to equip and empower staffs with the right knowledge and skills through training. The training services we offer at Lonadek are shaped to fit the ever-changing needs of modern business. We ensure your personnel are equipped with the required knowledge and skills needed to reach their potentials and add value to your business.

Our comprehensive portfolio of training programmes are designed to incorporate the very latest technology advancements and legislative changes whilst retaining the core values of classically effective learning techniques.

We offer Internationally Certified Technical, Non-Technical, Empowerment, Leadership and Management courses.

We also offer Customized Programs, specially designed & tailored;

- To suit clients' needs.
- To accommodate clients' regular demands.
- To create value-adding and internationally certified capacity development opportunities for our clients.

2 Talent Outsourcing Services

At Lonadek Global Services, our Jobs of the Future solutions enable clients to optimize their talent through remote and virtual services, allowing certified professionals to seamlessly Work From Home (WFH) and Work From Anywhere (WFA).

For over 34 years, we have supported organizations to increase profitability by providing:

- Permanent staff recruitment
- Professional contract personnel
- Specialist consultants
- Technicians and vocational staff
- Interns / graduate trainees
- Fully managed project teams tailored to specific client needs

Our Recruitment & Manpower Solutions

We specialize in sourcing and placing:

- Local and expatriate professionals
- Vocational staff and technicians
- Professional contract personnel
- Specialist consultants
- Interns / graduate trainees
- With a rich and robust database of highly skilled professionals (local and expatriates), we ensure quick placement for permanent, temporary, and contract roles.

Our Process & Value-Added Services

- Analysis of client manpower needs
- Drafting of role profiles and specifications
- Standardized interviews and assessments
- Verification of qualifications and background checks
- Efficient onboarding and induction management
- Staff performance evaluation and management
- Training and development programs
- Internship placement
- Immigration and expatriate services
- Deployment of well-trained and courteous project teams

3 Local Content & ESG Consulting

At Lonadek Global Services, we advance sustainable development and inclusive growth by helping organizations integrate Local Content strategies and ESG practices into their operations. With 34+ years of industry experience, we design frameworks that align profitability with sustainability, ensuring compliance and long-term value.

Local Content Development

- Develop Local Content plans and policies aligned with industry standards.
- Build capacity through training, skills development, and knowledge transfer.
- Facilitate partnerships between international companies and local businesses.
- Monitor and report Local Content performance.
- Drive talent localization and workforce participation.

ESG Advisory Services

- Design sustainability strategies aligned with UN SDGs, GRI, IFC Standards.
- Conduct ESG assessments, reporting, and disclosures.
- Develop decarbonization and energy transition roadmaps.
- Support community engagement, social investment, and governance.
- Deliver measurable impact through stakeholder engagement and impact assessment.

Our Value Proposition

- Regulatory Compliance: Exceed statutory requirements.
- Sustainable Growth: Balance performance with responsibility.
- Stakeholder Confidence: Strengthen trust and reputation.
- Impactful Partnerships: Bridge global expertise with local capacity.

At Lonadek, we believe true business success is sustainable only when it creates shared value for stakeholders, communities, and the environment

Engineering Technology, Asset Performance Improvement & Information Management

Lonadek Global Services is a leader in Engineering Technology and Digital Transformation, enabling organisations to excel in Industry 5.0 and Oil & Gas 4.0. With over 34 years of experience, we deliver data-driven solutions that enhance asset performance, optimise operations, and support sustainable growth across energy, infrastructure, and industrial sectors.

Our Core Services

Engineering IT Solutions & Software Integration: We deploy multi-discipline engineering software for design, modelling, and analysis, with bespoke implementation of 3D modelling, CADD, and digital platforms. Our seamless integration with enterprise systems drives operational efficiency and smarter decision-making.

Asset Performance Improvement: Using advanced analytics, we enable predictive and condition-based maintenance. Through real-time monitoring and diagnostics, we help organizations minimize downtime, extend asset lifespan, and ensure operational continuity. Our approach includes performance benchmarking and optimization across entire asset portfolios, delivering measurable improvements in reliability, efficiency, and return on investment.

Information Management & Digital Transformation: We deliver innovative solutions focused on the development of intelligent data infrastructures tailored to industrial operations. We implement digital twins and smart asset frameworks that provide a dynamic, real-time representation of physical assets, enabling improved collaboration and operational insight. Our expertise in secure data contextualization and visualization empowers decision-makers with actionable intelligence, driving efficiency, agility, and strategic growth across the enterprise.

Industry 5.0 & Oil & Gas 4.0 Enablement: Lonadek Global Services delivers transformative solutions that embrace the principles of Industry 5.0 and Oil & Gas 4.0. We focus on human-centric automation and AI-driven insights to create smarter, more responsive operations. Our expertise in cyber-physical systems integration ensures resilient and adaptive infrastructure capable of thriving in complex industrial environments. Through strategic advisory services, we guide organizations on their digital maturity journey, developing tailored transformation roadmaps that position them for long-term success in a rapidly evolving technological landscape.

Our Competitive Advantage

- 34+ years Services Delivery in the Energy, Power, Infrastructure, Finance, Oil and Gas Sectors.
- Strong Partnerships with Proprietors of Technology.
- Innovative Human Capital Development Initiatives.
- ISO: 9001: 2015 Certification and Quality Management.
- Strong Global, Regional, National and Local Networks.
- Focus on Girls in STEM, Women in Engineering, Energy and Entrepreneurship.
- Over Three Decades of Setting Up Automated Design and Drawing Offices.
- Local Content, ESG and Sustainability Compliance Expertise.
- Provision of Exceptional Talent locally and in Diaspora.
- Competitive Rates for Qualitative Services.

Lonadek's Corporate Social Responsibility (CSR)

S/N	Initiative	Focus & Activities	Key Impact	Partners
1	Cedar STEM & Entrepreneurship Hub (CSEH)	Provides access to workspace, digital tools, and entrepreneurship training in Lagos for innovators and youth.	Built a vibrant ecosystem; 10,000+ youths digitally upskilled in 4IR skills.	Microsoft, LinkedIn, GitHub
2	Digital Skills Initiative	Promotes digital inclusion for women, youths, and underrepresented groups through certified online training.	10,000+ Africans equipped with global-ready digital skills.	Microsoft, LinkedIn, GitHub
3	Youth Empowerment (YERI)	STEM training, mentoring, hackathons, summer camps, and career counseling.	100,000+ STEM talents and 5,000 engineers empowered across Africa.	Vision 2020 YERI
4	AWS Re/Start Program	Cloud computing training for Nigerian youth, including certification and job placement.	Improved employability and digital literacy for young Nigerians since 2021.	Amazon Web Services
5	Waste to Wealth (W2W)	Trains youth to recycle and convert waste into income-generating products.	Promotes SDGs 9 & 13, empowers youths, and supports a cleaner environment.	CSEH, Schools

Business History

S/N	Client	Service	Product	Business Value	Duration
1	TotalEnergies Nigeria	Talent Outsourcing	Deployment of a System Engineer	Cost Efficiency & Resource Optimization	3 Years
2	Nigerian National Petroleum Company Limited (NETCO)	Engineering Technology Software Service	AVEVA E3D License	AVEVA E3D created a digital twin of assets, linking design to operations and maintenance	3 Months
3	International Energy Services Limited	Engineering Technology Software Service	AVEVA E3D License	Facilitates efficient handover of accurate design and structural data between projects, operations, and regulators.	1 Year
4	Heritage Energy Operational Services Limited (HEOSL)	Engineering Technology Software Service	AVEVA E3D License & Bentley StaadPro	Early clash detection in E3D reduces costly rework and delays during construction	1 Year
8	Marine Platforms Limited (MPL)	Training Service	Innovation and Entrepreneurship for Local Content	Strengthening Nigerian Content Compliance	5 Days
9	Ariosh Limited	Engineering Technology Software Service	AVEVA E3D License	Reduces engineering rework through clash detection and real-time design validation.	1 Year
10	Amni International Petroleum Development Company Limited (Amni International)	Engineering Technology Software Service	AVEVA E3D License	Improved Project Delivery Efficiency	2 Months
11	Nigerian Gas Marketing Limited (NGML)	Talent Outsourcing	Deployment of Operational personnels	Allows operators to focus on core strategic activities (asset optimization, digital transformation, energy transition)	2 Years
12	NNPC Research, Technology & Innovation Centre (NNPC RTI)	Training Service	AutoDesk Software Suites	Enables RTI researchers and engineers to quickly develop, test, and validate new technologies for oil, gas, renewables, and energy transition projects.	1 Year
13	SEPLAT	Engineering Technology Software Service	AVEVA E3D License	Design and Operations	1 Year
