## FENCE MASTER®

Post Pullers

Safe, effective post removal in under 1 minute

We specialise in  
fast, safe fence  
post removal

**British designed and patent protected**

## **FENCE MASTER®**

Our unique post removal system is designed to take the strain out of removing fence posts of all shapes and sizes: fence posts, street signs, and gateposts to motorway barrier posts. Used by both fencers and landscapers, Fence Master® is the best in its class of innovative machinery.

- **British designed and manufactured**
- **Protected by Patent, UK and EU Registered Community Designs**

## **Unique claw attachment**

For broken-off or rotten posts, the bespoke claw attachment can be used with Fence Master® to easily remove concrete foundations

# **Who we are** Post Pullers

At Postpullers UK Ltd, we are an award-winning manufacturer of a range of innovative machines for the easy removal of posts. Our machines are widely used in landscaping, highways and telecommunication sectors by a huge range of established brands.

Alongside Fence Master®, we have developed our multi-award-winning Barrier Master®, a special-purpose attachment for VRS posts and lighting columns, used on highways across the country.
