ASEAN INDUSTRIAL TRANSFORMATION

**INDUSTRY X DRIVING EFFICIENT
AND SUSTAINABLE OPERATIONS**

The Selangor Techsphere Summit is the region's premier platform dedicated to shaping the future of advanced manufacturing and industrial innovation.

Bringing together leaders across technology, engineering, and production, the Summit is designed to spark collaboration, showcase cutting-edge solutions, and accelerate digital transformation across Asia and beyond.

**SELANGOR'S PLATFORM FOR ADVANCED MANUFACTURING,
AUTOMATION, ROBOTICS, AI AND CLEAN ENERGY.**

AT A GLANCE:

- The official platform of Malaysia's industrial revolution – launched and endorsed by the Selangor State Government, with national backing at the highest level
- 40+ global heavyweights and industry architects – led by Henrik von Scheel, the “Father of Industry 4.0,” alongside ASEAN's most powerful voices
- 500 of the region's most influential leaders only – C-suite executives, engineers, innovators, and policy makers at the forefront of industrial change
- Two days that will define the decade ahead – focused on Industry 4.0, digital transformation, and smart manufacturing
- Coverage across the entire value chain – AI, robotics, smart logistics, additive manufacturing, cybersecurity, and sustainable production
- Where policy meets power – government, global tech leaders, and industry partners converge to drive ASEAN's next industrial leap
- On the global stage of the Kuala Lumpur Convention Centre - Asia's arena for transformation at scale.

DAY 1: 11TH NOV 2025

SPEAKERS

09:15	OPENING CEREMONY		
09:30	Keynote: Megatrends that shape the next decade of Manufacturing The Future of Manufacturing: Operate to Grow	Henrik von Scheel	
10:10	How one major automotive manufacturer digitised to redefine production		
10:40	BREAK – Tech Viewing		
11:10	Supercharging Industrial Growth with AI	Tindaro Danze	
11:40	The case for predictive maintenance with AI	Bob Gill	
12:00	PANEL – Intelligent Preventative Maintenance in Practice	Bob Gill, Marina Nage Dr. Madiyah Binti Omar	 
12:30	LUNCH		
13:30	AI is shaping the future of semiconductor manufacturing	Michael Thavarajah	 
13:50	Driving Industrial innovation through digital technologies and connected ecosystem	Dr. Hudyjaya Siswoyo Jo	
14:15	PANEL – Turning raw industrial data into real-time intelligence	Rajamani Sambasivam, Dr Quasy Adnan	 
15:00	BREAK – Tech Viewing		
15:30	CASE STUDY: Realising Ansell's digital manufacturing future	Adeel Khan	
16:00	How IOT is changing supply chain decision-making	Mr Shoukat Ali Rajput	 
16:20	Additive Manufacturing Qualification and Certification for Critical Applications	Dr Alex Liu	
16:40	Leading the AI-First Workforce by Democratising Agentic AI	Datin Ts. Habsah Nordin	
17:00	NETWORKING RECEPTION

DAY 2: 12TH NOV 2025

SPEAKERS

08:30	WELCOME		
09:30	Why the need for sustainable manufacturing? How and what it takes.	Michael Tay	
10:00	Multi-vertical panel: Industry leaders discuss strategies for aligning manufacturing sustainability goals with carbon reduction targets	Mr Shoukat Ali Rajput, Amanda Yeo, Prof Cheah Kok Hoong,	  
10:50	BREAK – Tech Viewing		
11:20	The Future of Smart Manufacturing: AI, Robotics, and Human-Machine Collaboration	Edwin Yap	
11:40	Agentic Automation: How AI teams will run the future enterprise	Khalil Nooh	
12:00	Talent development and change management throughout digitalisation processes		
12:20	LUNCH		
13:20	Digital Pathways to Net Zero		
13:40	Case study: Energy-saving solutions powered by smart connectivity	Heinz Lux	
14:00	Panel: The key to finally realising a circular economy	Philipp Grimmel, Prof Henrik von Scheel, Dr John Loh,	  
14:45	BREAK – Tech Viewing		
15:15	“Get Digital Now” - Automation and Qualification	Volker Schmid	
15:30	Panel: Building the next generation of intelligent manufacturers	Dr Wang Xin, Sarvanasivan Ganesan, Natalie Loi, Dr Kian-Ming Ong	   
16:15	Space Meets Intelligence: Unlocking ASEAN’s Next Growth Frontier	Sean Seah	
16:40	Closing Panel: Navigating global technology and trading trends - Uncover new pitfalls and opportunities	Mr Ts. Tan Aik Keong	
17:00	NETWORKING RECEPTION		

WHO SHOULD ATTEND

POWERED BY
HANNOVER
MESSE

The Selangor Techsphere Summit 2025 will attract the region's most influential voices shaping the future of industry.

This includes senior decision-makers from across the ASEAN manufacturing and technology sectors, as well as global innovators exploring opportunities in Malaysia's fast-evolving industrial landscape.

WHETHER YOU'RE A MARKET LEADER, SCALING DISRUPTOR, OR SOLUTION PROVIDER, THE SUMMIT IS DESIGNED TO CONNECT YOU WITH THE PEOPLE AND INSIGHTS DRIVING ASEAN'S NEXT INDUSTRIAL LEAP.

Attendees will include:

- C-suite executives and senior managers from industrial firms
- Engineers, technologists and automation specialists
- IT/OT professionals driving digital transformation
- Researchers and innovation leads from R&D centres
- Government and policy representatives
- Business development and strategy leaders
- Procurement and supply chain professionals
- Investors and startup founders in advanced manufacturing.

Industry sectors represented:

- Manufacturing
- Robotics and automation
- AI and machine learning
- Smart logistics
- Process automation
- Industrial software and data management
- Cloud and infrastructure
- Cybersecurity
- Research and technology transfer
- Carbon-neutral production
- Additive manufacturing.
